PIANO FORTES.

A GOD assortment of Piano Fortes may con-stantiy be found for sale at the Female Semi-Those now on hand by different makers, nary. and foun the be-t manufacturers in New York, will be sold ten per cent, lower than can be purchased elsewhere, of the same class, and workmanship in this market. Orders will be executed for Piano Fostes from any manufactory of this country, or Germany, and they will be furnished at the lowest

N. York prices, adding the expense of transporta-tion. All instruments ordered or furnished through this agency are selected at N. York, by approved Professors of Music, are opened after their arrival here, tried and approved by competent Pianists, b fore they are offered for sale, and are repacked without additional charge, in the best manner for safe conveyance to any part of the country. All those furnished from manufacturers in this country,

are warranted by the makers. The extensive call for Plano Fortes, which has been made for two years past through the music department of the Seminary, and the frequent imposition of interior instruments often at extravagant prices, through the private interest or ignorance of the venders, has led to the establishment of this Agency. To meet the convenience of purchasers, arrangements have also been made to receive in payment good negotiable notes at four months, payable at the Cape Fear Bank. This arrangement often saves to the purchaser ten per cent in the diff rence of exchange, beside al the risk of damages in the transportation, and the certainty of having an instrum int delivered here, approved and in good order. GENERAL SELECTIONS.

Ciril War Almost .- The old Patroon at Albany being dead, the tenants of his domain, containing 25,000 acres each divided into 160 acres, have refused to pay rent any longer. The Sheriff of Albany county a few days since called out the posse comitatus to the number of six hundred, including ex-Governor Marcy and others, to make the rebetlious towns submit. At Ridgeville, on the top of the mountain, 2,000 (more or less) of the "Anti-Rent Patriots," all mounted, and having white bands and mottos, and tin horns, blocked up the road ---- and the Sheriff and his friends turned about and consulted together, to see if Mr. Van Renssalaer would compromise. The town committees gave in their ultimatum, and declared they would no longer pay the qaurter proceeds on all sales of leases, or pay a computation of \$35 a farm for abrogation of that burden. They also refused to pay the annual tax of 22 bushels of

wheat, at 11 shillings a bushel, and the tribute of fowls and a day's labor, considering the whole too servile, and the terms of somthen marched back, and it appears that the militia of the adjoining counties are to be called out to see what they can do in the way of settling the difficulty .- Pennsylva-

rent for wheat, at the average price for the last 47 years, day's service, \$2 and fowls 75 cents. Also to sell the land in fee at \$5 an acre for the four west towns-none of them below the hill; but all arrears must first be paid. On July 4th a manifesto was drawn up by several of the towns, in which they denounce Mr. V. R's. propositions, considering themselves degraded, and equally entitled with their fathers of the revolution to release from thraldom They speak of Mr. V. R. as a pretended proprietor, require him to establish his right to the soil, give new leases, grant the privileges claimed by them, and then they will accede.

From the Farmers' Gazelle. Our Rail Road

It will be seen by the following statement, derived from the late report of MITCHELL KING, Esq. President pro. tem. of the Rail Road Company, that an expense of upwards of a million of dollars had already been incurred in the construction of the Columbia Branch; and surely no one will entertain the dicted. idea of abandoning that branch, at the sacrifice of the whole expenditure already made and incurred, when less than \$600,000 (the whole for its completion.

The work doze amounts to \$602,449 42 cents, and by an approximate calculation, what remains w be done, and is in progress under our =ontracts, will amount to \$227,551 S5 cents, making together \$880,01 28 cests, being about \$20,000 less than the estimate of the Chief Engineer; and this mount includes grubbing, clearing and transportation. The 1600 tous of iron rails or the first 18 miles of the road from Branchville, including freight, iusurance and other charges, will cost about \$120,(00, so that the Company have already incurred an «spense of upwards of \$1,000,000, besides some incidental charges, not in this compution, which will remain comparatively unroductive, until the whole track to Columna be completed."

We gather from the report the following items: No new contracts have been made. Several existing ones have been completed and negotiations opened for their settlement on terms accommodating to the Company; a proportion of cash on these contracts would probably secure an extension of credit for the large balance that would remain,
