(Next door to E. Fuller.) D. McLAURIN.

Oct. 2, 1843. The Inclined Water Wheel.

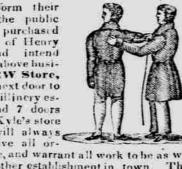

IIIS valuable improvement in the application of water lower, is now completed and in suc-Town. The invention was designed to save water | together with a supply of French Baskets for Lain its operation, and thereby remedy the difficulty | dies. now existing on account of its searcity. This wheel will perform the same labor with less than half the water required to drive the tub-wheel, and if apblied in place of the flatter-wheel the saving must be still greater. The number of Mills (now in operation by these wheels) that become scarce of water in the summer, is supposed to average 80 or 90 per cent. If these Mills can be successfully operat ed with even half the water now required, it is obvious that the sopply of water will be abundant.

The Inclined Water Wheel in its construction the wheel, which is important to all mills where the water is at any time hable to become scarce. In WILLIAMS & LUTTERLOH, expensive in its construction: Whereas, the Inclined Water Wheel can be built at much less expense--can be successfully applied to any mill or machinery that is propelled by water, and will run well in back water. This Wheel is said to rank in power with a high breast wheel, and can be geared with either cogs or hands, but the latter being considered cheeper and more durable, I have adopted them. Having obtained a Patent in December last, I have abstained from giving publicity to the inven-tion, or offering to sell any Rights, until others, as well as myself, should become satisfied of its advantages. I am now ready to dispose of the right to use said invention by counties, districts and States -as also single rights. Millwrights, Mill owners, and the public generally are invited to call and ex-

> half of the expense of construction will be diminished, but the amount of water saved will be less. I shall have both modes of construction with a statement of materials for each, printed in handbills, which I design for those who wish further in-formation on the subject JOHN T. GILMORE. Fayetteville, Oct 21, 1843 .- 243-y.

C. A. BROWN. Nov. 9, 1843.-246-y.

NOTICE

Shereby given, that on the 12th day of December next, the Commissioners elected according terms apply at the Carolinian Office. to the Act of Assembly removing the Court House in the County of Montgomery passed at its last Session, will proceed to sell to the highest bidder the lots in the Town of Troy, which has been laid off and established as the location and site of the Public Budding in and for said County. Troy is situated on the main Market Road leading from Salisbury to Fayetteville, three miles west of Little River, and about twenty-two miles from Stokes' is beautiful; finely watered and remarkably healthy, to settle ther selves in a village likely to become prosperous and flourishing, to attend and purchase lots. One year's credit will be given for one half of the purchase money, and two years for the bal-

let to the lowest bidder, the building of a two story Court House, of wood, 56 feet in length, and 42 feet in width, the plan and specification of which in detail will be made known on the day aforesaid. Bond and approved security will be required from the undertaker, conditioned for the faithful and workmanlike performance of his contract of good materials, and within the time prescribed and agreed

There is an inexhaustible supply of the best long leaf timber convenient to the Town of Troy, and may be had upon the cheapest terms. It is proposbuilding as speedily and punctual as may be. The terms and times of which payments will be made known on the day of sale.

Good workmen wishing to undertake a profitable job will do well to attend. The sale of the lots will be continued from day to day until all, or a sufficient number of them are sold. By order of the Board of Commsssioners,

WILLIAM COGGIN, Chairman. Nov. 2, 1843 .-- 216-4t.
