From the Globe. MORE OF THE DIPLOMATIC DINNER.

The Boston Courier repeats its news of the President making dinner:

" A diplomatic dinner was given day before yesterday by the Hon. Willie P. Mangum, at which were present among others, the Hon. Daniel Webster, and Messra Barrow, Choate, Crittenden, and Rives, of the Senate: and General Scott of the army. All these distinguished gentlemen have definitely agreed to support the nomination of Henry Clay for the Presidency. Mutual explanations were made, and existing differences managed. So now look out for a bold fight against

Van Buren." This diplomatic affair has quite transported Coonery. The Federal understrappers and criers, who take orders from their presuming masters, and proclaim them to the country, imagine that the American people are as readily disposed of by a party of diplomats at a dinner, as were once the destinies of France by the Castlereaghs, the Metternichs, the Talleyrands, the Pozzi di Borgos, who cemented a holy alliance of despots while together carving up Napoleon's conquests and a royal feast. The Federal intriguers have given out that there must now be a general exultation, as if Democracy was thoroughly cloven down. The arrival of the two coons and the ash pole at Baltimore was hailed like the arrrival of the allies at Paris and the setting up of the standard of the European coalition in that city; and "definitely agreed" compacts made at der in his comments upon an article in the the recent "diplomatic dinner" in Washingaforesaid Rutherford paper. Mexico, Sept. 24, 1843. My Dear Sir: I have the happiness to inform you that Mr John Bradley, in whose behalf you interested yourself, has been released from imprisonment. I had made repeated efforts before in his behalf, backed by many of the most distinguished names in the United States, but without success. But your letter to me, which I communicated to President Sauta Anna, immediately produced the desired effect, as you will see from his letter, a translation of which I send you. You must not judge him with reference to the state of things in the hallowed spot from the further intrusion of our own happy country. He has a very difthe unconscious cattle that now roam uncon- ferent people to govern, and I think he is not only a patriot, but that he understands his countrymen and their true interests. A Government like ours would literally be no Government for Mexico. You may use a light rein on your horse, because he is gentle and well-broke; but it is no reason why I should use a similar one upon mine, which is wild and untractable.

WADDY THOMPSON. General A. Jackson.

[Translation.]

Private Secretary's Office of President of the Republic, National Palace of

Tacubaya, Sept. 21, 1943. ) Most Esteemed Sir: I have received your polite favor of the 13th inst., and with it those of General Andrew Jackson and Governor David Campbell, who interest themselves for the liberty of John Bradley, a prisoner in the fortress of Perote. The mediation of the Hon. General Jackson for me is highly respectable. as much so for his being one of the most Histinguished men of the United States as for the special favors which he bestowed on me in 1836, when I returned from my captivity in Texas. This interposition has induced me to grant the order for the liberty of Bradlev. which I enclose to you, that you may be deased to give it the necessary direction, and also to manifest to Gen. Jackson that I shall always be happy to be honored with his orders. inasmuch as they can never give me any molestation, whatever may be the subject to which they relate; but, on the contrary, will give me great pleasure, because it is always pleasing to correspond with persons who, like him, enjoy a fame so conspicuous.

I avail myself of the occasion to renew the high regard of your devoted servant.

Who kisses your hands, A. L. DE STA. ANNA. To his Excellency Mr Waddy Thompson, Envoy Extraordinary & Minister Plenipotentiary of the U. States.

There are waters which, after a sufficient submersion, convert anything to stone; but we do not know that even repetition, notwithstanding the proverb about the effect of calumnies "well stuck to," can turn slander into truth. The reiteration, therefore, of the charge that Mr Van Buren is a man of management and cunning, proves nothing but the wonderful perseverance of his opponents, when they have once come to a stand and point. His management and cunning, if such they are to be called, consist altogether in patience and good temper; these, combined with honesty and ability, are alone "the witchcraft he has used." Calm in sunshine, composed amid the storm, his enemies have always thought there was 'magic in't' that he moved safely on, when they, under similar circumstances, were swamped or wrecked. If there be any mystery in the case, it is this: Mr Van Buren knows when to do nothing -a faculty as rare as it is valuable in many things, and in none more rare or more valuable than in politics. It is a fidgetty desire "to do and be doing," at all times and seasons, which destroys so many. The vis medicatrix natura pervades every where, if men would only grant it a chance. Mr Van Buren understands it so. Restless Harry does not. We shall see anon who is the philosopher and statesman .- Pennsylvanian.

The weight was too much for the slender support beneath them; the roof gave way, and the whole were precipitated to the ground, a distance of about twenty-five or thirty feet. Mr Adie had an arm broken in two places; Mr Robert Maynard had his leg broken; Mr Mays, butcher, had his arm dislocated; Mr H. W.
