Och 8, 9018 241-16 The Inclined Water Wheel.

THIS valuable improvement in the application of water ower, is now completed and in suc-cessful operation at the Cool Spring Mills in this Town. The invention was designed to save water in its operation, and thereby remedy the difficulty now existing on account of its scarcity. This wheel will perform the same labor with less than half the water required to drive the tub wheel, and if applied in place of the flutter-wheel the saving must be still greater. The number of Mills (now in op-eration by these wheels) that b come scarce of water in the summer, is supposed to average 80 or 90 per cont. It th se Mills can be successfully operat ed with even half the water now required, it is obvious that the supply of water will be abundant. The Inclined Water Wheel in its construction can be placed at any elevation to suit the condition of the pond, there is securing a sufficient head above

NOTICE. -TAKEN up and committed to all all a Cumberland county, N C, on the 1st inst., a negro man who care his name is ISHAM to John Henry Marthy, of Halifax coun-

### assuming pretensions, but enterprising char- friends

assuming pretensions, but enterprising char-acter. Thrown upon his own resources in eatly life, he became the architect of his of a fortones. He was a warm supporter of Mr Jefferson, and through life a tirm and con-sistent republican. In the autumn of 1566 he removed to Tennessee, where he was among the first pioneers of the fertile valley of Duck river, then a wilds first, but now the most flourishing and populous portion of the State. The magical growth of a country which was but vesterday redeemed from the

exclusively to the liberious prosecution of his profession, with a progressive acgmentation of reputation, and the more solid rewards by which it is accompanied. In 1823 be entered the wonderful reaction and participators of the wonderful reaction is expanding and islature, by a heavy majority over the former upon the stormy career of politics, being choadvancing with inepressible energy ? In this incumbent, but not without formidable opposiregion, Mr Polk still resides, so that he may tion. He was, for two successive years a be said, literally, to have grown with its growth member of that body, where his ability in deand strengthened with its strength, If course, bate, and talent for business, at once gave him in the infancy of its settlement, the opportuni- reputation. The early personal and politicalties for instruction could not be great. Not-withstanding this disadvantage—and the still those tho, in the session of 1823-24, called more formidable one of painful affliction, from that distinguished men from retirement, by which, after years of suffering, he was finally electing him to the Senate of the United relieved by a surgical operation-he acquired States; and he looks back with pride to the the elements of a good sound English edu- part he took in an act which was followed by cation. Apprehending that his constitution such important consequences. In August, had been too much impaired to permit the con-finement of study, his father determined, Polk was chosen to represent his district in much, however, against the will of the son, to Congress, and, in the ensuing December, toole make him's commercial man; and with this his seat in that body, where he has remained view actually placed him with a merchant. ever since. He prought with him interine Upon what slender threads hang the destinies national council close fundamental principles of life! A little more, and the uncompromis- to which he has adhered through all the pering opponent of the Bank of the United sound inutations of party. From his early

States, the democratic Speaker of the House youth he was a republican of the vatraitest of Representatives, might have been at this sect." He has ever regarded the constitution day, in spite of his origin and carly rendencies, of the United States as an instrument of spea whis preacher of paules, uttering jeremiads cific and limited powers, and that doctrine is "If the sequence of the second He remained a few weeks in contaction signalized his hostility to these usurping docadverse to his wishes and incomparison with triues in all their modes. He has always re-bis taste. Finally, his earnest enounce suc-ceeded in overcoming the resistance of his by the federal government, for what he deems with trives in all their modes. He has always re-Inther, and in July, 1813, he was placed under the unconstitutional purpose of constructing A stand this Sca-instead of this Sca-instead of the Sca-instead egion as a classical teacher. In the autumn quently, several months before the appearance If 1815 he entered the University of North of General Jackson's first message, announc-Carolina, having, in less than twervents and ed then his opinions in a published letter to a half, thoroughly prepared knowelf to com-mence his collegiate course. If will be seen from this hasty sketch, that the mory of the speaker furnishes an interest. Sample of talent and perseverance this seen that and perseverance this constituents. He has ever been opposed to an oppressive tariff for protection, and was, at all times, the strenuous advocate of a re-duction of the revenue to the economical wants of the government. Entertaining these opinions, as we shall have cause to illus-trate, and entering Congress, as he did, at the first session after the election of the semicor seem that true mexit acquires the ordeal of ad-verse circulation of the younger Adams, he promptly took his stand against and distinguish it from unsubstantial preten- the broad and dangerous doctrines developed in the first message of that chief magistrate, and was, during the continuance of his administration, firmly and resolutely, but not factiously, opposed to its leading measures. When Mr Polk entered Congress he was with one or two exceptions, the junior member of that body. But capacity like his could not long remain unnoticed. In consequence of the palpable disregard of the public will, manifested in the election by the House of Mr Adams, together with the means by which it was effected, a proposition was brought forward, and much discussed at the time, to am severance, in proof of which it is said, that he the Constitution in such manner at never missed a recitations of omitted the purce the choice of President and Vice this performance of any daty. Habits for immediately and irreversibly to close application at college are apt to be see. In favor of this proposition, Mr Pole spised by those who pride themselves on bril- his first speech in Congress, which at a attracted the attention of the country by the force of its reasoning, the copiousness of its research, and the spirit of honest indignation The latter is, at least, something better, and by which it was animated. It was at once seen that his ambition was to distinguish him. self by substantial merit, rather than rhetorical which is the false taste of our day and coun. display, the rock upon which most young orav, is almost to hide the acquisitions which tors split. At the same session, that egregious distinguished his early career. His prefer-en for the useful and substantial, indicated by ha youthful passion for the mathematics, has made bin select a style of elocution which all nations, yet engage in entangling alliances has made bin select a style of elocution which would, perhaps, be deemed too plain by the shallow admirere of firsky declamation. The worst of all styles is the thred and exaggerat-ed. It is that of mind, which are, as it were, overlaid by their acquisition. They break down beneath a burden which we have not of originating and appointing mining faculty, and that of originating and appointing missions, their, acts under that power become the supreme law of the land, nor can the House of Kenresentatives deliberate upon, much less, in the exercise of a sound discretion, refuse the appropriations necessary to carry them into effect. Against a doctrine so utterly subversive of the rights and powers of the popular

which was but yesterday redeemed from the sole dominion of nature, is a phenomenon of great moral and political interest, and cannot fail to impress a character of strength and en-

has taken the House recently occupied by David Lewis, Esq., and intends keeping a House of PUBLIC

intage agave the Overshot, which requires a Application of the end machinery that is propelled by water, and will run well in back water. This Wheel is said to rank in power with a high freast wheel, an I can be geared with either cogs or bands, but the latter being considered che: per and more durable, I have adopted them. Having obtained a Patent in December last, I have abstained from giving publicity to the inven-tion, or off-ring to sell any Rights, until others, as

well as myself, should become subsfield of its advan-tages. I am now ready to dispose of the right to use said invention by counties, districts and States ---as also single rights. Millwrights, Mill owners, and the public generally are invited to call and examine the invention.

The machinery, as represented in the plate above, can be made more simple, by which one half of the expense of construction will be diminished, but the amount of water saved will b less. I shall have both modes of construction with a statement of materials for each, printed in babilis, which I design for those who wish furth formation on the subject. JOHN T. GILMORI Fayetteville, Oct 21, 1843 .-- 243-y.
