

THE NORTH CAROLINIAN

NORTH-CAROLINIAN

Wm. H. Payne, Editor and Proprietor.

WYETTEVILLE: Saturday Morning, August 23, 1845.

The result of the elections for Members of Congress in North Carolina is truly gratifying to the lovers of equal rights and equal laws.

While we have rejoiced at the success of democratic principles, we have not been able to suppress a smile (of contempt) at the writhings and twistings of some of the federal papers...

On a business visit to Carthage this week, we were much pleased with the improvements which have taken place since we were there in '43.

The Male and Female Academy is in the process of erection. It stands a few hundred yards from the centre of the village, to the west.

We would suggest one thing which would be an improvement and a benefit—the planting of trees of tall stature around the Court House, which would afford a good shade to those who attend Court, and also be of incalculable utility in protecting the Court House against fire.

STATE ELECTIONS.—We give below all the news from the different State elections which has come to hand:

TENNESSEE.—This State, we are glad to see, is "regenerated and disenthralled" as the saying is. Mr Brown, the democratic candidate, has beaten Mr Foster, whig, by about 1800 majority.

For Congress, Mr Andrew Johnson has beaten the whig parson Brownlow, who published a set of buffoonish circulars.

In fifty counties heard from, Mr Brown's majority is 1115, being a democratic gain of 1136.

Thus we shall have a democratic Legislature, democratic Governor, and a democratic Senator can be elected in place of Mr Foster, whose term expired with the last Congress.

ALABAMA.—There are two candidates running for Governor in this State, Mr Terry, the regular nominee, and Mr Martin, who ran of his own accord.

45 counties heard from give Martin 3015 majority over Terry, the regular nominee, and but 5 counties to be heard from.

Members of Congress elected so far, are Mr Hilliard, whig elected over Cochran, dem. This was the only district in which there was whig opposition.

Wm. L. Yancey is re-elected without opposition. Mr Payne is also re-elected without opposition.

THE MUSKELON sent us by our good friend, Mr Dorr, of Lumberton was received. It measured 19 inches in length and 21 inches in circumference, and weighed 12 pounds 14 ounces.

We are glad to learn that the Post Office at Warsaw has been continued, and Mr Armand D. Love appointed Postmaster.

The anti-rent difficulties still occasionally occur between the Van Rensselaer tenants, and the civil authorities of New York.

A Mr Diggers is going to publish a religious monthly. We should think it would not do to "speak daggers" to religious readers.

A MELANCHOLY OCCURRENCE, IN GALLATIN, TENN.—Isaac Goodall, Esq, a Whig member of the Tennessee House of Representatives from Smith county, was killed in Gallatin on the 17th ult.

INDIANA.—The Legislature will be democratic on joint ballot; the Senate is equally divided between democrats and whigs, but the Lieutenant Governor gives a democratic-casting vote.

INFORMATION FROM MEXICO.—A private letter was received in this city, by the last southern Mail from Texas, west of the Nueces, dated July 26th, and stating that the Mexicans really were concentrating provisions and munitions of war at Matamoros as fast as possible, and also troops at Monterey.

LATER.—The Union of the 18th, publishes a translation of the Report from the Executive of Mexico to the Congress, in which it is said that the President, with the unanimous consent of the Extraordinary Council, has decided upon the painful extremity of a war with the United States, &c., and also submitted a proposition for a law empowering the Government to borrow 15 millions of dollars.

CLARKSVILLE HERALD.—We have received the second number of a neat paper published at Clarksville, Va., by our friend Wesley Whitaker, late of Rteigh, and formerly editor of the Rasp.

Captain Philip F. Voorhees, of the U. S. Navy, who was tried by a Court Martial for disobedience of orders, has been found guilty, and sentenced to 3 year's suspension from service and a reprimand.

PUBLIC MEETING.—The Charleston Mercury of the 10th inst., says:

The following communication comes to us from a gentleman of high respectability, and a member of the Legislature from Spartanburgh:

SPARTANBURGH C. H., Aug. 9, 1845. To the Editors of the Mercury:

A meeting of the farmers of this District on Monday last, to take into consideration the state of the provision crop, was most numerously attended, and from the authentic information then derived, our worst fears have been confirmed.

The Mecklenburg Jeffersonian accuses the whigs, a part at least, with fraudulent voting against Mr Fisher; and says, enough fraudulent votes have been discovered at one precinct, to turn the scale.

We forgot to mention that while in Whiteville, we were shown a specimen of black sand, obtained from Waccamaw lake in Columbus county, equal to any Stationer's sand; or answering the purpose equally as well.

Horrible.—The Reverend Elijah Johnson, writing from the missionary station at Garretson, Africa, says, that on entering a neighboring town, he saw an old woman sitting on the ground.

MURDER MOST FOUL.—The correspondence of the Savannah Republican, dated the 10th inst., says that a murder was committed in this county (Lowndes) on the 1st inst.

The question as to the explosive character of saltpetre, has at length, after a tedious controversy and a great deal of experimenting, been decided.

DREADFUL ACCIDENT AT WASHINGTON.—We learn from the National Intelligencer of yesterday, that Albert Eiring, an artificer of the Ordnance Department, at the Arsenal on Greencleaf Point, last evening, while employed in grinding percussion powder, to prepare it for charging percussion caps for muskets, when an explosion took place, which was soon followed by that of the rest of the powder in the laboratory where he was working.

ANOTHER NEW SPEC.—Among the speculations at present in progress, is a Great Libvan Desert and West End Junction Arabian Sand Association, for the purpose of supplying England and the Continent of Europe with sand paper.

Peaches of the very best kind are selling in Philadelphia for fifty cents a bushel.
