October 25, 1845. 349-11.

**IMPORTANT TO MILL OWNERS.**

**HOTCHKISS' Vertical Water Wheel.**

THE Subscribers having witnessed the successful operation of these wheels, were induced to purchase the right of using them in the State of North Carolina; and they now offer for sale individual rights, at FIFTY dollars, or rights for a whole county, on reasonable terms.

Especially being generally adopted in the Northern States, these wheels are coming into general use in the Southern States. We have sold about 100 Rights, 30 of which are in successful operation in Cumberland county.

These wheels are not durable, and are more easily kept in order when properly put together than the fluted wheel. They will save one-third of the water, and run well in back water, where there is a head above. The speed of the saw is increased to more than double the strokes per minute.

We refer, among others, to the following gentlemen, some of whom have had the wheels in operation 12 months or more, and from many of them, and the 8, we have received certificates expressing their high appreciation of the superior advantages of these over the fluted wheel, and stating that their saws will cut 2500, 3000, 3500, and even as high as 5000 feet per day, and save one-third of the water.

Besides many others in different parts of the State.

With such a deservedly high character, the S. Subscribers feel justified in offering these Wheels to the public, they will keep on hand a supply of wheels adapted to high or low heads at Fayetteville, Wilmington, Newbern, and Washington. And Mr. James T. Dodson, of Caswell, has the right of sale.

We caution all persons through the State against paying any person but ourselves, or our authorized agents, for the right of using these wheels.

NOTICE TO MILLWRIGHTS.—If you wish employment, acquaint yourselves with putting in these Wheels, as we now wish to employ at least 100 in this business in different parts of the State.
