These wheels are more durable, and more cas ly kept is order when properly put together than the flutter wheel. They will save one-third of the water, and run well in back water, when there is a head above. The speed of the saw is increased to more than double the strokes per minute. We refer, am ng others, to the following gentlemen, some of whom have had the wheels in opera-

tion 12 months or more; and from many of them, and othe s, we have received certificates expressing their high approbation of the superior advantages of these over the flutter wheel, and stating that their saws will cut 2500, 3000, 3500, and even as Encourage high as 5000 feet per day, and save one-third of others, disposed to contract for building or jobbing. the water.
