IMPORTANT TO MILL OWNERS.
HOTCHKISS' Vertical Water Wheel.

THE Subscribers having witnessed the successful operation of these wheels, were induced to purchase a right of using them in the State of North Carolina; and they now offer for sale individual rights, at FIFTY dollars, or rights for a whole county, on reasonable terms.

These wheels are more durable, and more easily kept in order when properly put together than the fluted wheel. They will save one-third of the water, and run well in back water, when there is a head above. The speed of the saw is increased to more than double the strokes per minute.

We refer, among others, to the following gentlemen, some of whom have had the wheels in operation 12 months or more; and from many of them, and others, we have received certificates expressing their high approbation of the superior advantages of these wheels, and stating that they have saved their saws well cut 2500, 3000, 3500, and even as high as 5000 feet per day, and save one-third of the water.

RANAWAY
FROM the subscriber, living near Little Catfish P. O. Marion District S. C., a tolerably black negro boy named WALKER, about 16 years of age, 5 feet 5 or 6 inches high, square shoulders, his head appears to be drawn down between his shoulders, when spoken to he is slow to speak, but when he does speak is very quick and short, and is apt to look straight at the person he is talking to and shut one eye when he goes to speak. He wore all brown woolen round coat and pants, rather ragged, and a good wool hat. He was purchased from Maj. Archib. McKay, of Richmond county, N. C. in Nov. last, who bought him from a trader who had purchased him in Richmond, Va., about a year ago. I have no doubt that he is endeavoring to make his way back to Virginia. I will pay a liberal reward for his apprehension and confinement in any jail so that I get him again.

LANDS AND MILLS FOR SALE.

THE subscriber offers for sale 640 acres of LAND together with his Grist and Saw MILLS, on Beaver Creek, in Moore county. To persons desirous of investing a small capital in property of this kind, a more favorable opportunity seldom offers. These Lands are not only valuable as affording an abundance of the best timber in the Country, but their productiveness renders them highly desirable for purposes of Cultivation. The stream is unfailing, the grist Mill is the very best in the State, and the Saw Mill is within two and a half miles of a stream on which Lumber may be rafted into the Cape Fear almost every month in the year; besides the health of the country gives to these Lands and Mills an increased value over property of a similar kind in the lower counties.
