### IMPORTANT TO MILL OWNERS. HOTCHKISS' Vertical Water Whel.

THE Subscribers having witnessed the successful operation of these wheels, were induced to purchas: the right of using them in the state of North Carolina; and they now offer for sale individual rights, at FIFFY dollars, or rights for a whole

county, on reasonable terms. Besides being generally adopted in the Northern States, these wheels are coming into general use in the southern States. We have sold about 100 Rights, 30 of which are in succ ssful operation in Converland county.

These wheels are more durable, and more easily kent is order when properly put together than the flatter wheel. They will save one-third of the witer, and run will in back water, when there is a herd above. The speed of the saw is increased to more than double the strokes per minute.

We reler, am ng others, to the following gentlemen, some of whom have had the wheels in operation 12 months or more; and from many of them, and othe s, we have received certificates expressing their hig's approbation of the superior advantages of these over the flutter wheel, and stating that their saws will cut 2500, 3000, 3500, and even as high as 5000 feet per day, and save one-third of the water. For some five or six years, the Turks, under the lead of their rulers, have been make ing rapid strides towards the adoption of Christian manners and customs. Among the first important steps of this kind, may be mentioned the adoption of European uniform and tactics; for the Turkish Army. And in looking over the European correspondence of the Charleston Courier, we glanced upon the following interesting paragraph:

" The happy effects of the recent visit of he semi-barbarous Prince, Ibrahim Pacha, to France and England, are already declaring themselves. The great principles which lie at the base of European constitutional freedom are finding their way into despotic and benighted Egypt, becoming the unwritten rule of the sovereign, and destined to ameliorate the condition of the abject and miserable millions that swarm upon that feetile soil. As the first fruits of the visit, and the commenceize two measures which Itrahim Pacha has lately adopted. One upon the following oc-

> SOMETHING NEW AT THE GABLE END OF THE STATE OF FLORIDA

From one of the B'hovs. About that doubtful hour called twilight, when it would have puzzled an Ashbuiton or a Webster to tell the boundary line between day and night, the new steamer Albany came puffing down the Flint; the bell, (the boat not yet in sight) tolled, ding-dong-ding, and all eyes were agog to try and ferrit out what was meant by this new flourish. The engineer's bell was heard, tingle-ingle tingle, when opposite to the wharf, and she rounded to with a galantry that was worthy of such a new and beautiful steamer. Soon after she made fast I clevated my cap to my "precranium" and hopped about with a step of elasticity that would have well become one some years my junior. On poking my "probosis" within the social hall - "Oh, shades of Apollo!" what think you lit up my enraptured vision? why, to my agreeable surprise, from eight to half a score of Georgia Challs, with each her gay "Lothario" was threading a cetillion; as I said before, "thar they war," regardless of my approach, while each in her gyrations, "tripped her light fantastic toe," not dreaming that she was at every "jump Cross Creek Lodge, No. 4, will be re-opened on the 12th day of October.
