DEAFNESS-DR McNAIR'S ACOUSTIC OIL The deaf from infancy, often receive in a most miraculous manner their hearing when they least expect it, by the use of this Oil, which shows them how easily they might much sooner have had their hearing and saved themselves and their friends the pain of conversing in a loud tone, without pleasure. or of being neglected and shunned, to avoid that distress which is felt mutually by the deaf person and his heaters. How sacred a duty therefore it is, that we use all necessary means to remove such an afil ction, and erjoy the social qualities implant ed in our natures! This Ear Oil has the effect s to relieve the tension, and bring into use the natural action of the parts, as to restore the hearing when lost or impaired. This is proved by so many well known cases, that where known, i needs no praise. The great wish of the proprie ter is, that each may speak to others of its un-common virtues, till sufferers may know and be relieved and restored by its use! This will be done in all cases of recent deafness, and many of long standing. All deaf persons should use this thi! It will relieve at once, or if deafness is just commencing, it will remove the cause and check its progress. Those who have been long deaf should continue its application a few weeks to hear well. Each flask has full directions attached to it. Avoid any imitations. The true one may be known by my signature on the flask. Price, \$1 per flask. DONALD McNAIR, M. D. Comstock & Co., New York, are the whole-

salers of this Oil. Sold in Fayetteville by S J Hinsdale.

A Boon to all Families and Sufferers. THE INCREASE OF THE REVENUE In reply to the resolution of the Senate, in quiring as to the expediency of modifying the existing Tariff with a view to the increase of some articles now included in the free list, and also by an increase in some cases and a reduction in other cases upon articles already taxed, the Secretary of the Treasury, having submitted to the consideration of the Senate, half of dollars may probably be looked for

tax open ten and coffce to raise a revenue to meet the ordinary expenses of the governwent in time of peace. The inference attempted to be drawn is, that these statesmen are now incensistent in proposing to Congress such a tax to comble the government to meet its extraordinary expenses and to maintain its credit in time of war. The Secretary's reports presents with great force the reasons growing out of the present crisis upon which the ten and coffee tax is now proposed; and it shows also that that the loan of five millions negotiated in November last, in full view of the present financial policy, was the only loan ever authorized and effected at or above par by this government or by any other government, during a war of any considerable magnitude or duration. No more crushing refutation of such complaints against our present financial policy as in itself destruclive to credit, can well be imagined, than is contained in this single fact; nor can a stronger appeal to the patriotic co-operation of Congress in the imposition of the proposed tax, be easily embodied in language :
