ARMY ITEMS.

Col. Laue, of the 3d Regiment Indiana Volunteers, in a letter to the New Orleans Delta, says that of the three Indiana regiments in Mexico, only two were at the battle of Buena Vista; and these two were placed one on the extreme right, the other on the extreme left of the line of battle. He says that did not retreat until ordered to do so by Col. Bowles (as appeared in evidence before a court of inquiry); and that its only fault ought, and that was because no point was designated by the commander for it to rally on.

Col. Lane also corrects the statement that brave, the generous Ringgold-or, Fort Capt. Lincoln was killed while attempting to Hotel. rally the Indiana volunteers. Capt. Starbuck, in answer to an triquiry by Col. Lane, states that Capt. Lincoln was shot down while deyou to the seige of Monterey, where the gal. livering an order to an officer, immediately in front of the Illinois volunteers.

> A young officer, writing from Ch'hur hua, after the battle of Sacramento, says that a Mexican flag was found on the battle field, made of black material, and swallow-tailed in shape. On each swallow tail was a death's head and cross bones.

> It appears, at last, that Mr Trist, of the State Department, did go to Mexico, with important business, as will be seen by the news of to-day from the army.

The detailed reports of the different officers after the battle of Buena Vista, have just been received at Washington from Genl. Taylor. The General says, in a letter dated 21st April, that he has ascertained that Gen. Urrea has left that region of country, and that the only tween Monterey and the Rio Grande, are the numerous bands of robbers. He expects very soon to be joined by Colonel Doniphan, who marched from Chihuahua for Saltillo. He learned by a person from San Luis, that Santa Anna's retreat to that place was marked by dead bodies for 180 miles.

News from Jalapa of the 13th, says that the Diligencia (stage coach) arrived there from the city of Mexico, bringing intelligence that a new President was to be elected on the 15th of May by Congress.

The States of Northern Mexico are said to be talking openly of separating from the Republic.

Mr Kendall writes from Jalapa that there certainly is a very influential and increasing party in Mexico, who declare themselves for Majors Borland and Gaines and Cpt. Clay

and Mid. Rodgers, and the other offices with them, were at liberty in the city of Mexico, but not the privates.

Genl. Scott addressed a proclamation to May 11, 1847, in which he u ges upon them the desire of the United States for peace; the folly of their continuing the war; the determination of the U. S. to prosecute it; the in the Guerilla system, rule &c.

About 200 Mexicans were seen prowling about Captain Walker's Camp. He gave them chase and killed four.

An extract of a letter is published from Genl. Taylor, in the New Orleans Bullctio, furnished by the person to whom it was written. He says he will not say that he will not serve as President, if required to do so, however much opposed to his wishes. He does not consider himself qualified for the post, and would prefer to stand aside for some more eminent among the many names before the county.

He says that they were smuggled into the that in all these matters practice makes perfect the good feelings of those with whom I have prison, at night, in great privacy, and have been there ever since.
