CERTIFICATES.

Mr Ira Stanbrough, of the State of New York, has put in operation for the Bat ersea Manufactur ing Company in this place, one of Howd's Patent Water Wheels, 7 feet in diameter, with 18 inch buckets, under the following circumstances: The mills contain 2,700 Throstle and Danforth Spindles, 90 Looms and all necessary preparations, which have been driven by two Breast Wheels, each 12 feet long by 13 diameter, under, a head and fall of about 1 feet, but the location being subject to backwater, these wheels did not work to advantage Mr Stanbrough having great confidence in Wheel, not only that it would obviate the afficulty with back water, but he was willing to guarantee that it would drive all the machinery and save one-third the water then used; and having executed to the company a bond in \$2,000 for that purpose, it was determine! to let him make the trial, which I am happy to say has resulted very satisfactorily, and that he has fairly and fully fulfilled his contract, and I would recommend his wheel to public notice.

J. B. VARNUM. Agent for the company. Petersburg, November 17, 1845. Petersburg, Oct. 1845.

This certifies that the Howd Wh el I put in my mill eighteen months since, that ground, upon trial, 20 bushels of corn per hour, has worked so well and convinced me so fully that it is the best wheel driven by the force of water, that I have determined to put up another the present season-WILLIAM MURRAY.

> Seadwell Mills, Albemarle co., Va. March 15, 1847.

This is to certify that I have had put in at my cotton mill, at the place aforesaid, containing 2,-040 spindles, 3 dozen Looms and one section of woollen Machinery, one of S B Howd's Patent Water Wheels, 5 fect diameter, 18 inch depth

The subscribers has also a very large Machine Shop and Iron Foundry, employing daily sixty hands and is well prepared to execute, to order, all kinds of Mill Graring, Tobacco Presses, Flatning Mills, Steam Engines. Farming Implements &c. URIAH WELLS.

An important cure by Dr Jayne's Alteratire. - We have been informed by Mrs Mahau, (a grand-daughter of old Gen. Wayne) that she suffered for a number of years from the growth of large Goitrons Tomor, which besides great deformity, preduced both a difficulty of deglutition, and of breathing. Indeed, she says, the pressure upon the wind-pipe was so great, as to prevent her from sleeping in a recumbent position, and often suffication appeared inevitable. She also laboured under severe indisposition from Liver Complaint and Jaundice, with a horrible train of nervous affections, for which she used Dr Jayne's Alterative, which she took regularly for six or seven weeks, with occasional doses of his Sanative Pills, and her general health was thereby completely re-es-

tablished. Every vestige of the painful Tumor was entirely removed .- Public Ledger. Prepared only by Dr D. Jayne, Philadelphia, and sold on agency by S. J. Hinsdale.

his excursions during harvest, the King of petrance. One of the men procured a buck source of health, strength and plenty and one woman working. His Majesty asked wit. It was said by some one present, that hone-t pleasures. It is the mistress and where her companions were. "They have if a handage of white ash bark was placed school of sobriety, temperance, justice, religone to see the king," she replied. "And around the limb above the bite, it would not gion and in short of all virtues, civil and why did you not go with them?" added the swell above. This was procured and a ligational military. king. "I would not give a pin to see him!" ture of it placed above the kner. The hite replied the woman; "besides, the fools who was on the top of the foot just above the two have gone to the city will loose a day's work, middle toes. The foot was swelled greatly and that is more than I can do, for I have and changed to various colors, and he was grind. Another Yunkee inventor, determined five children whom I must give bread." "Very deprived of its use for some time: good," said the king, putting some money in In the year 1750, a slave in South Caroli- that will spin cotton, scrape potatoes, rock her hand, "you can tell your comrades who discovered another remedy for the bite of the cradle, darn stockings, pair nails, whitle went to see the king, that the king came to the rattlesnake, for which the legislature of shingles, whistle Yaukee Doodle, and puff

SNAKE BITES.

As this is the season when we frequently the following article from the Burlington Wisconsin Gazette will not be without interest for many of those who live in exposed situations, and who, in the course of their business, cannot know at what moment they that can act upon the human system.

" As the rattlesnake is found in no part of

as it possesses several temarkable peculiarities, it has frequently been captured, placed in a cage and exhibited as a curiosity. The exhibitors of this dangerous reptile have frequently lost their lives by being accident. ly bitten, while others have perished from the bite, believing that they possessed an antidote to the swift circulating poison Several years ago, one of the keepers of the New England Museum, in the act of tousing the den of rattlesnakes, which are there exbibited, in connection with the thousand and one wonders of that establishment, met with a very alarming accident. Having introduced a feather brush, by raising the lid about an inch, and getting them sufficiently

roused to set their rattles going like the buz of a cotton factory,-a bystander at his elbow asked him a question which he did not precisely understand, and turned his of its intelligent correspondent in North Carhead towards the gentleman-and at the olina. It will be perused with pleasure by same instant one of the largest snakes ran every true-hearted son of the old North State. his head through the opening, and thrust his made by a physician, who also prescribed a war. dose of spirits of turpentine and sweet oil. the sensation of being asleep.

him one hundred pounds in money. His remedy is as follows:

" Take of the toots of Plantane or Horehound (in summer, roots and branches together) a sufficient quantity, bruise them in a mortar, and squeeze out the juice, of which give as soon as possible, one large spoonful; if it is swelled, you must force it down the throat. This generally will cure; but if Hay street, for the purpose of conducting effects of one of the most subtile poisons the patient finds no relief in an hour after, you may give another spoonful, which never failed. But if the roots are dried, they must to his well selected stock of FRESH SPRING the world but the continent of America, and be moistened with a little water. To the wound may be applied a leaf of good tobac-

co, moi tened with rum." Since selecting the above, we notice a statement copied from the Macon Messenger, which speaks of alum as a simple and effective remedy for the cure of the hite of the rattlesnake. A piece of the size of a hickory nut, dissolved in water, and drank or chewed and swallowed, is sufficient. It has been tried many times, on men and dogs, and they have invariably recovered. The writer says. I know of some planters whose hands are exposed to be bitten by rattiesnakes, who always have themselves provided with it in their pockets, and they have sometimes found use for it.

We take the following extract from the Richmond Southerner, which is from the pen

" In a recent letter from Petersburg, I fangs into the little finger of his right hand, complimented the patriotism of the Virginia with such prodigious force, as to reach the ladies in reference to a case of sacrifice probone at one of the punctures. The sufferer posed by one of the fair daughters of that your readers an incident which transpired in sion of the flesh, including the wounds, was that town a little prior to the Revolutionary
