17- We have sent a number of accounts to those indebted, enclosed in their papers of this week. We should be much relieved if every subscriber will make his remittance within a week or ten days.

OUR RAIL MOAD .- We are happy to state that the Commissioners under the railroad charter granted by the North Carolina Legislature, for the Metropolitan route, have engaged Col. Childe to make the Survey from Raleigh to the South Carolina line. The sum agreed upon \$2,500. We doubt not that the friends of the enterprise in South Carolina will continue it to its destination.

We are happy to be enabled to quote the following com pliment relating to Col. Childe, from a letter from a gentleman of Science in Washington city. He says :

"I am glad that the people of North Carolina have obtained the services of John Childe, Esq. They could not have selected a more faithful or a more capable agent."

The whigs have elected their Lt. Governor, and a large majority of the Legistature, all other State officers, such as Sceretary of State, Comptroller, Attorney General. Treasurer, State Engineer and Surveyor, Canal Commissioners, and Inspectors of State prisons.

As we se d last week, we further state upon good authority, that the vote was exceedingly small. In the city of New York, the Journal of Commerce says that out of 50,000 votes, only about 30.000 were polled.

have carried 12 senators to 7-the same as it was in the election of last year ; and in the assembly they have 39 members to 20 democrats, (last year it was 40 to 18.)

On the other hand, the Trenton News estimates the majority of Mr Haines, the democrat candidate, at 2,715.

It is a little singular that in the recent Fall elections, democratic Governors have been elected in Maryland, Georgia, and New Jersey, while the Legislatures are whig. Of course the whigs claim all these States because they have the Legislature; and by the same rule they always claim for him as next President. These sentiments received apa State when they have only the Gov'nr.

OHIO .- The Ohio Statesman publishes a table compiled from the official returns of the late election in that State, by which it appears that although there is a majority of whigs in the Legislature, the whig majorities are small ones. and the democratic majorities large ones; and by this means, there is an actual democratic majority in the State, excluding the abolitionists, of 1.563

PENNSYLVANIA .- We notice this State election again for the purpose of correcting an error which the Observer made and has failed to correct. That paper said that it was "believed" that the democratic candidate for Governor was in a minority, counting the whigs, abolitionists and scattering votes. Since that the official statement has been | man of reason and sense would know. published showing a majority of 5.093 votes over all the above allied powers, as follows :

Trade quite dull during the week, and all kinds of produce comes in slow. Cotton declining, and but few sales. Corn, 50 cts. Flour scarce, and sales made at from 5 to 51. Bacon, none in market, and would bring, for a small quantity, 121 cts-retail sales at 15 cts. Brandy and whiskey also getting scarce, and will be in demand.

In consequence of the planters holding back. we understand the owners of mills here have ordered cotton from Charleston.
