#### WILD CHERRY AND SARSAPARILLA PILLS.

DR. LE BOY, a Licentiate of the Royal College of Physcians in London, having used in his private practice, for a or of years, the WILD CHERRY AND SARSAPARILLA

at length made an extract of them, which with other veg-etables, he has combined in one of the best Pills ever made known to the European Community, and which met the attention of the American people.—They are the most efficacious purgative and tonic yet discovered. THE WILD CHERRY

is an excellent tonic, possessing astringent and aromatic properties, which make it valuable in Dyspepsia, Jaundice, Weakness of the Stomach and chest.

THE SARSAPARILLA

THE SARSAPARILLA is demulcent, diuretic and soothing, and is given in Rheumatism, Scrofula, Diseases of the Skin, and to eradicate the bad effects of Mercury. In the operations of all other purgative medicines debilitation and purification go hand in hand; they remove the good, as well as the bad; thus weakening the system, which they were only required to cleanse, and making the cure generally almost as bad, and frequently much worse than the disease. Dr. Le Roy's Pills, on the contrary, strengthen and tone the system which they purge and purify. And this is their peculiar attribute, and the principal cause of their unrivalled popularity. P. S. The virtues of the Sarsaparilla and Wild Cherry are too well known to medical men and the community
