HOTCHKISS' Vertical Water Wheel.

There are several hundred of these wheels in
operation in different counties in North Caro-
lina. For proof of their great advantage over
the common flume wheel, or any other wheels
now in use for saw mills, we confidently refer to
those who have applied them to their mills. We
can recommend them particularly for their su-
periority in cases of a low head of water, or back
water.
We still keep a supply of Wheels, suitable for
different heads of water, at Wilmington, New-
bern, Washington, Edenton and Fayetteville.
The wheels may also be had of E. A. Brevard,
Lincolnton, and Uriah Wells, Petersburg, Va.
Persons wishing to obtain the right to use the
wheels, will be served on application to D. Mc-
Neill & Co., Fayetteville, N. C.

FEVER & AGUE Chill Fever, Dumb Ague, Inter- mittent & Remittent Fevers & all the various forms of Bilious Diseases SPEEDILY & THOROUGHLY CURED By Dr. Osgood's India Cholagogue

Extract of a letter from Edward Bingham,
Esq., Druggist at Detroit.
Detroit, March 23d, 1841.

Dr. Charles Osgood, Dear Sir—I have the past
year sold hundreds of bottles of the INDIA
CHOLAGOGUE prepared by you, and have found
it to give universal satisfaction in the cure of Fe-
ver and Ague, Chill, Fever, Dumb Ague, &c. &c.
I may say, I think, without hesitation, that I have
never known it to fail in cases which it has been
uniformly used according to directions.
I am yours very truly,
E. BINGHAM.

Extract of a letter from Messrs Scattergood,
Haverstick & Co., of Philadelphia.
Philadelphia, 2d mo. 24th, 1842.

Dr. C. Osgood, respected friend: We have had
occasion to see the good effects of thy medicine
in the case of a young man who had been trou-
bled with chills a long time and could not get
clear of them, but since he commenced taking a
bottle of thy preparation, has entirely recovered
and is now becoming quite stout.
Respectfully thy friends,
SCATTERGOOD, HAVERSTICK & Co
For sale in Fayetteville by S. J. HINSDALE.

DR. SHERWOOD'S Vibrating Magnetic Machines.

By recent improvements in these Machines,
their power is doubled in cases of the same size,
and the prices reduced to \$12 and \$14 each; the
\$12 sizes being greatly superior to the \$14 sizes
of other machines. They now run with more
power and smoothness, and are better adapted
for magnetizing patients than any other in use.
Each case is accompanied with a Manuel (11th
edition, p. 100, 32 mo.) in the English or French
language, according to order, which contains
clear and minute directions for the proper use
of the instrument in the various diseases to which
it is applicable, which are found to include many
of the most peculiar and obstinate that are known
to the medical profession. The Manuel also con-
tains a synopsis of the different systems of medi-
cal practice, Allopathic, Homoeopathic, and Mag-
netic, with a full glossary.
Physicians and others are cautioned against
purchasing the imitations of these machines, as
they will be found of comparatively little value.
No premium has ever been obtained over these
magnetic machines at the American or any other
Institute, as is represented by the manufacturers
of inferior machines.

As I have become the Agent for the sale of the
above Machines from a conviction of their usefulness in
disease, and not from any desire to speculate on them, and
am responsible to the owner for them, they can only be
obtained by the payment of the cash on the delivery of the
Machine. I have deposited them with Mr. Bayne at the
Carolinian Office, who will show them, or deliver them on
the payment of the cash price, and on no other terms.

DR. H. H. SHERWOOD'S Compound Chloride of Gold,

FOR SCROFULOUS DISEASES.

These remarkable medical remedies of the late
eminent and well known Dr. Sherwood of New
York, consisting of a preparation of magnetized
CHLORIDE OF GOLD, compounded with vari-
ous other materials with great care and by a la-
borious process, and of a BITUMINOUS PLAS-
TER, have been tested by an extensive practice
of twenty-five years' continuance, and may now
justly be considered as more successful than any
other known remedy in the treatment of CON-
SUMPTION in all its early stages, and of all
Tuberculous or Scrofulous Diseases. For this
class of complaints they are now extensively
adopted by physicians in their own practice in
various parts of the country. They are prepared
by us under the direction of the Executive of
the estate of the late Dr. Sherwood, to whom, by
his will, his medical recipes are intrusted in the
same manner in all respects as heretofore, and
are always accompanied by Dr. Sherwood's val-
uable medical treatise upon the treatment of
Chronic Diseases, a work which was the result
of many years of labor and research, and which
shows in the clearest manner the principles upon
which the operation of his remedies is found-
ed and their mode of cure. This work will en-
able any person to detect the nature and extent
of scrofulous or tuberculous disease in himself or
others, by pressure on the ganglions of the spinal
nerves, on the spaces between the vertebrae along
each side of the spine.

FAYETTEVILLE, N. C.

MAY 26, 1849.

Our subscribers will always do them-
selves a service, as well as ours, by promp-
tly informing us when the Carolinian regu-
larly fails to reach them as soon as it ought
to by course of mail. Also, of any change in
the arrival and departure of the mail which
carries the paper. Also, by suggesting to us
any change, when such can be made, by
which it may reach sooner.

FIRE IN ST. LOUIS!

A telegraphic despatch, received by the Na-
tional Whig, dated "St. Louis, May 15, 5 p. m.,"
states:
"We have to inform you of a terrible event.
Our city is almost in ruins. This morning a fire
broke out in the very heart of our city. Nearly
the whole of this portion has been burnt to the
ground. We enumerate five banking houses, ev-
ery insurance office in the city, twenty-seven
steamers lying at the wharf, and the telegraph
office, in the devastation.
The blow is a heavy one to the industry, capi-
tal, and commerce of our growing city."

Later From Europe.

Telegraphed for the Charleston Mercury.

BALTIMORE, May 16.

The Canada has arrived at Halifax, with one
week's later intelligence.

THE MARKETS.

LIVERPOOL May 5.—Since the departure of
the Hibernia, the imports of Cotton have amount-
ed to 113,277 bales, of which 104,149 bales were
American. Notwithstanding these heavy im-
ports, the prices of American, particularly of low
and middling qualities, are higher, as are also
Egyptians and Brazils. Fair Upland are quoted
at 42 and Fair Orleans 43.

In the Grain Market there is considerable
depression.
The trade of France is rapidly increasing. The
imports during the month of March were more
than double in amount those of the same month
last year, and the increase in the exports is
equally apparent.

POLITICAL.

Official notice had been received at Paris of the
intervention of Russia in the difficulties between
Austria and Hungary. Russia is understood to
have placed a large force at the disposal of Aus-
tria, amounting, it is said, to one hundred and
fifty thousand men.

The Hungarians have every where been victori-
ous over the Austrians, and have nearly annihi-
lated their army. The greatest alarm prevails
at Vienna.

The King of Prussia has definitively refused
to accept the Imperial Crown of Germany, which
had occasioned a slight outbreak at Frankfurt.

There is no prospect of peace between Den-
mark and Prussia.

More troops have left Toulon for Rome; and
it is reported that Marshal Oudinot had reached
Rome, and that the people had risen in favor of
the restoration of the Pope, and that the mem-
bers of the Republican Government had fled.

The Tuscan troops have entered Leghorn.
The Sicilians, beaten at all points, submitted
to Naples.

The war in India is considered as ended.
In the British Parliament the affairs of Canada
were incidentally introduced, but the Minister
was very guarded upon the subject.

The breach between Louis Napoleon and his
cousin has widened into quite a serious
quarrel.

EVERY ONE WHO READS THE ACCOUNT OF Mc- DONALD'S ADVENTURE, WILL NO DOUBT BE ANXIOUS TO LEARN THE FATE THAT ATTENDS HIM.

The letter to his father closes with an em-
phatic ———. We can furnish but a single
stem of intelligence to fill up that blank.
Some days after his embarkation, while the
whale ship "Uncas" was cruising in that
region, she picked up the rudder of this
tiny craft, which we will venture to name
the "Young Plymouth." Whether she
reached the shore, or was swamped in the
surf, remains a profound mystery.

It is related of the late Gouverneur Morris,
that in his earlier youth, he was distin-
guished by a confidence and forwardness
of manner, not altogether becoming in one
so young, and that being well introduced
when in England, he gave a characteristic
proof of his cockneyish presumption, (to
call it by no harsher name,) in a conversa-
tion which he had with the celebrated
Charles Fox—to whom he observed, in re-
lation to his famous India Bill, which had
just then failed in the House of Commons
—that "he wondered how a statesman of
his experience and discernment, should
have been led into the error of attempting
to pass so objectionable and unpopular a
measure through Parliament." It is said
that Mr. Fox, without directly replying to
the flippant and forward remark, merely
turned to a gentleman standing near him,
and observed in an audible whisper, that
"much was said, both of Scotch and Irish
impudence—but d—n him if American
impudence did not surpass any thing he had
ever before heard of, or met with."

An Irishman went the other day into
a Cooper's shop, and begged the master to
give him an empty barrel of flour to make
his hog a hencoop.
