Later From Europe. The steamer Niagara reached Halifax on the 31st of May. The following is an abstract: LIVERPOOL MARKET, May 19.—The accounts received per the last New York steamer, of increased receipts of cotton in the American ports, was unexpected, and would have had the effect of depressing the market, had not accounts received at the same time of severe frosts at the South and West checked the depression, and kept the markets steady.

General decline in all kinds of provisions, prices receding; markets well supplied. No improvement in commercial affairs. Money is plenty. The French elections took place on the 13th: nine socialists and 19 moderates were elected in Paris. The French army had not entered Rome. It appeared from debate in the Assembly that Oudinot had no instructions to enter Rome, but was to remain at Civita Vecchia, and march in case of necessity. The ministry, however, is said to be divided on the subject. It is said that the French government has sent diplomatic notes to London, St. Petersburg, Berlin, and Vienna, deploring the interference of Russia in German affairs, and that they will attempt to stop it by diplomatic means; and if that fails, will apply to the Assembly for advice. The Minister of the Interior has also resigned; and it is rumored that others will also do so. The Neapolitan army has been again defeated. The Hungarians continued successful, and were within a few days' march of Vienna, where the Russians were hastening. Sicily is again in a state of insurrection. The Danes have suffered another defeat. It is said that Denmark has accepted the proffered mediation of England.

FROM TEXAS. By the arrival here yesterday of the steam ship Globe, Capt. Ebery, from Brazos Santiago the 19th, and Galveston, the 21st instant, we have received the Brownsville Flag of the 15th and the Galveston papers to the 21st, inclusive. We deeply regret to learn that, from the exposed state of our Texas frontier, no troops of that branch of the service which is alone adapted to cope with the ferocious tribes of wild Indians in that region of country being available, an irruption of Comanches has lately taken place, attended with the most awful destruction of life and property among our defenceless fellow citizens. The following, from the Brownsville Flag of the 16th inst., tells the melancholy tale: "On Thursday last our town was thrown into great excitement by the arrival of an express from Palo Alto, announcing the startling intelligence that a numerous and formidable band of Indians had just made a descent upon that place, and had already committed many acts of startling and savage barbarity. The stage from Point Isabel had been intercepted; and the proprietor, Mr. Bangs, and Mr. Lombardo, a pastor, were taken prisoners. A train of transport wagons had also been captured between Brownsville and Point Isabel, containing much valuable merchandise. "Such of our citizens as were able to procure horses speedily repaired thither, but their numbers were too small to do more than defend the settlement of Maj. Taylor; pursuit was impracticable. The commandant at Fort Brown, Col. Morris, likewise despatched in wagons some thirty infantry—all his disposable force, leaving only a guard at the fort—but their progress was too tardy to avail anything against a foe as wily and well mounted. There were no mounted men in the garrison. Before the arrival of this force the foe had retreated; not, however, until they had perpetrated acts of savage barbarity, the mention whereof causes our blood to curdle. "But partial accounts have reached us of the acts of the savage marauders Doroteo Zamora, a most estimable citizen, we regret to learn, is among the slain. Mr. Zamora had just decided, under the treaty, to become an American citizen. One of Mr. Zamora's sons was killed at the

same time, another badly wounded, and his daughter's girl about fourteen years of age, carried into captivity. At the rancho Santa Olaya two men were killed and a woman and two children taken captive. From the rancho de los Indios, Mrs. Wilsey, the wife of Captain Benjamin Wilsey, his brother and sister in law were carried off captives. The aged mother of Mrs. Wilsey, and did so for some distance, regardless of savage menace, when the Indians, seizing her, tied her hands behind her, pierced her with their lances and arrows, and left her on the ground watered in her blood, as they supposed, dead. This poor woman, however, succeeded in reaching a neighboring rancho in a most shocking and mutilated condition, and is now, we understand, a maniac. "The destruction of property on this river has been immense. We learned to day of the loss of seventy horses by one gentleman. We are rejoiced to hear of the escape of Mr. Bangs and his companion from captivity. They were, however, reduced to a state of nudity. "The foregoing is but a faint outline of the acts perpetrated within the last few days in our immediate vicinity. A duel was fought opposite Clay Davis's, (Rio Grande City,) on the 7th inst., between Joseph Moses and Walter Hickey, which terminated in the death of Col. Hickey. Col. Hickey was formerly editor of the Vicksburg Sentinel."

How is this?—We observe that the call for a whig meeting is signed by Marcus Merriman, jr., and George Treadway—two of the new custom-house officers! When it is considered that General Taylor has just removed all the democrats from the custom-house, on the ground of "interfering in elections," the hardihood of these new officers is surprising! Where is Mr. Meredith?—where is the virtuous Fitz Warren?—where is old "History?"—New Haven Register.

SALE OF SWAMP LANDS.—His Excellency, Gov. Manly, accompanied by the members of the Literary Board, has recently visited the eastern section of the State, according to previous advertisement, for the purpose of disposing of the reclaimed Swamp Lands. We learn that about two thousand acres were sold, at different prices—but not at such as could justify a continuance of the sale.—Raleigh Register. THE OLDEST MAN IN AMERICA.—Geo. Buckhart, living in Harlan county, Ky., is one of the most extraordinary men of the age, and perhaps is the oldest man now known to be living. He is one hundred and fourteen years old; was born in Germantown, Pennsylvania, and has lived for several years in a hollow sycamore tree, of such large dimensions as to contain his family, consisting of a wife and five or six children, bed and bedding, cooking utensils, &c. The exploring agent of the American Bible Society in his travels in Kentucky, recently found him, and also saw several respectable gentlemen who had spent one or more nights with him in this singular home. He professes to hold the Lutheran faith, being of a German family, and received the Bible with peculiar manifestations of gratitude. What a life for one man to spend! What a long train of events has marked this century through which he has drawn the thread of existence.—Bible Society Record, for May. CURE FOR FOUNDER.—The seeds of the sunflowers, says a correspondent of the Zanesville Gazette, are one of the best remedies known for the cure of founder in horses. Immediately on discovering that your horse is foundered, mix about a pint of the hole seed in his feed, and it will effect a perfect cure. The seed should be given as soon as it is discovered that the horse is foundered.

Melancholy Accident.—The Henderson (Texas) Statesman, of the 5th instant, says: On Sunday evening last Mr. Wiley T. Nelms was shot through the body by the discharge of a pistol which had been left in his pocket. Mr. N. had just returned from a ride, and feeling fatigued, we suppose, he threw himself on a bed, and in turning over, by some fatal means, the pistol, which he had neglected to take from his pocket, was discharged, its contents passing through his body. He lingered till the evening of the next day, when death relieved him from his sufferings.

Three Coats in one.—They have invented in London a sort of coat that is, at once, three coats, for a gentleman. It is called a "Nicollet." The owner, when the day is cold puts on a warm winter coat; next day the weather may be very mild; he then, by a most simple contrivance, can remove the warm lining and wear a light summer paletot; again, this said lining, when detached, of itself forms a reading or dressing jacket of exceeding comfort. Yet, with all this novelty the tout ensemble of the paletot is as ever; indeed, no difference can be observed in its exterior, which presents the same graceful appearance.
