Vibrating Magnetic Machines. By recent improvements in these Machines, their power is doubled in cases of the same size, and the prices reduced to \$12 and \$14 each; the \$12 sizes being greatly superior to the \$12 sizes of other machines. They now run with more power and smoothness, and are better adapted for magnetizing patients than any other in use. Each case is accompanied with a Januel (11th edition, p. 400, 32 mo.) in the English or French language, according to order, which contains clear and minute directions for the proper use of the instrument in the various diseases to which t is applicable, which are found to include many If the most peculiar and obstinate that are known to the medical profession. The Manuel also contains a synopsis of the different systems of medical practice, Allopathic, Homœpathic, and Mag-

nopathic, with a full glossary. Physicians and others are cautioned against purchasing the imitations of these machines, as they will be found of comparatively little value. No premium has ever been obtained over these magnetic machines at the American or any other Institute, as is represented by the nanufacturers of interior machines.

U≯ As I have become the Agent for the sale of the above Machines from a conviction of their usefulness in disease, and not from any desire to speculate on them; and am responsible to the ewner for them, they can only be obtained by the payment of the cash on the delivery of the Machine. I have deposited them with Mr Bayne at the Carolinian Office, who will show them, or deliver them on the payment of the cash price, and on no other terms.

DR. H. H. SHERWOOD'S Compound Chloride of Gold,

FOR SCROFULOUS DISEASES. These remarkable medical remedies of the late eminent and well known Dr. Sherwood of New York, consisting of a preparation of magnetized CHLORIDE OF GOLD, compounded with various other materials with great care and by a laborious process, and of a BITUMINOUS PLAS-TER, have been tested by an extensive practice of twenty-five years' continuance, and may now justly be considered as more successful than any other known remedy in the treatment of CON SUMPTION in all its early stages, and of all 'ed with chills a long time and could not get Tuberculous or Scrofulous Diseases. For this clear of them, but since he commenced taking a class of complaints they are now extensively bottle of thy preparation, has entirely recovered adopted by physicians in their own practice in various parts of the country. They are prepared by us under the direction of the Executrix of the estate of the late Dr. Sherwood, to whom, by his will, his medical recipes are intrusted in the same manner in all respects as heretofore, and are always accompanied by Dr. Sherwood's valtable medical treatise upon the treatment of Chronic Diseases, a work which was the result of many years of labor and research, and which shows in the clearest manner the principles upon which the operation of his remedies is founded and their mode of cure. This work will enable any person to detect the nature and extent of scrofulous or tuberculous disease in himself or others, by pressure on the ganglions of the spinal nerves, on the spaces between the vertebræ along each side of the spine.

defence of the republic. The entrance of the French troops on masse into Rome did not take place until mation from the Roman National Assembly announced the entrance of the French, and recommended abstinence from all vengeance as useless and unworthy the dignity

of Roman citizens. Gen. Oudinot and his staff were disgusted by the national guard on his entrance into the city, they not rising or paying him the military salute due to his rank. The French soldiers had to pull down the barricades themselves, in the absence of Roman laborers, and at dark the troops

were consigned to their quarters. Garabaldi escaped from Rome with ten thousand men, and was loudly cheered as he passed out of the city. He had gone in the direction of Garsima, and it is probable would give trouble to any detachments of Neapolitans or Spaniards he might meet with. His reported intention is to invade the kingdom of Naples. A detachment of the French army was sent in pursuit

of him on the 4th. The Corsiere Mercantile, of Ganoa, of the 7th, states that a government had been established at Rome, consisting of one

Roman and two Frenchmen. The regular Roman troops will be stationed hereafter at Leone and Taratina. At present they are in barracks at Rome. VENICE.

From the Charleston Mercury. A NEW ISSUE.

An abolitionist incendiary, named John M. Barrett, a native of Ohio, has been lately arrested in Spartanburg, for circulating incendiary publications in this State. From letters taken in his possession, it is proved that the pamphlet, circulated so extensively, signed "Brutus," was prepared and printed at Cincinnati, Ohio. It was known that Barrett was authorized to take from the Post Office in Spartanburg

a letter addressed to John Edward Thomson. Having good reason to suppose that this letter contained important matter to prove Barrett's guilt, on a proper affidavit being made, a Magistrate issued a warrant against G. W. H. Legg, the Postmaster at Spartanburg, to compel him to give the usual security to appear before the next Court of Sessions, with the said letter, as a witness against Barrett. Legg refused to Halifax last evening, bringing 123 passen- be bound as a witness against Barrett, wheregers. She brings dates from Liverpool to upon he was committed to jail. Upon second thoughts, however, after some hesitancy, he has entered into the required bonds, and has been liberated. The issue raised is this: Have the criminal authorities of the State the right to compel the attendance of the agents of the Post Office The Irish papers contain most distress- | Department in this State, to bear testimony accounts of the intense sufferings of the as to any crimes perpetrated through the people, particularly in the southwestern Post Office against the State, and to bring districts. Now we know not what Postmaster General Collamer may do in the premises. Mr Kendall, one of his predecessors in the office, issued a circular to the Postmaster in the Southern States, directing them not to circulate incendiary publications through the Post Offices in those States. We should suppose that it a Postmaster including 19 officers, of all ranks, none of can suppress a letter or document, he which are described as foreigners. The might, for the same reasons which justify its suppression, carry it into a Court, in furtherance of the criminal laws of a State. How comes it that the very first fruits of the existing Administration, which the South lilied to power, has been the vigorous exercise of the only branch of the Government which directly reaches us-the Post Office Department-to assail and overthrow our slave institutions? May not the fact that we have Abolitionists in the offices of Vice President of the United States. THE CANADIAN MOVEMENT .- When the press of Canada commenced to agitate the subject of Annexation, it was thought to be a visionary suggestion. By iteration it has become familiarized to the public mind in all British North American provinces. From being only insinuated, it has come to be openly discussed. All the advantages, present and remote, of incorporation with the American Union, is, in the Canadian papers favorable to the scheme, prominently set forth and most complacently dwelt upon.
