PETRIFYING FOUNTAIN. - One of the

most curious sights of Claremont, Switz-

petrifying spring, in the Faubourg St.

placed within it. In the course of ages

it has formed a bridge of tufa of great length

large tanks, from which it drips into two

chambers furnished with shelves. On

these are placed various objects for incrus-

tation. Stuffed monkeys, parrots, dogs,

cats, and birds were in different stages of

transition; some nearly covered by the

stony coat, others with their fur or hair

delicately powdered, wearing a grisly

appearance. The largest animal was

fectly practicable to obtain the sharpest

casts from moulds. The water is used

also for bathing purposes. I was rather

amused by the pains taken to impress

upon me that no danger of being turned

a bath was to be feared. It appears,

however, that some individuals are appre-
