

OF Persons who advertise in the newspapers should always mark their advertisements with the number of usertions; otherwise they often forget and let the ad-vertisement run longer than necessary, and when the bill comes to be settled, there is something said about the cosr. And when an article is advertised for sale, when it is sold, the advertiser should attend to taking it out of the paper. because it misleads the readers of the paper esides running him to more cost.

Every one who has boarded at a city hotel, or boarding house, is aware of the "grab game" system of operations which often prevails at these places during mealtime. At every such place there are more or less persons with piggish manners and voracious appetites, who seek to monopolize the lion's share of any delicacies which may be placed on the table; and the others are consequently compelled to "look after Number One, "in self-defence.

Some years ago, one of our city hotels was favored with a boarder of this sort. who had a frightfully ravenous appetite, to which Justice Greedy's "wasn't a circumstance." ### FATAL AFFRAY IN EDGEFIELD, S. C.

We learn the following particulars of a horrid shooting affair, which occurred in Edgefield District, on the 25th ult The parties engaged in it were Elbert Hardin, Wm. Treadway, Wm. Wilson and Stephen Wilson. It appears that the difficulty arose between the Wilsons and the other two persons mentioned, in regard to the line fence between their plantations. The Wilsons proceeded to move the fence forther in on their own land, when Mrs Hardin discovered it and forbade them-threat ening, at the same time, to cut off the hands of the negroes who were moving the rails. The Wilsons ordered the negroes

Mrs Hardin then sent off for Hardin and Treadaway. On their arrival, it seems -Hardin attacking the Wilson's with a rail, Wm. Wilson and Treadaway being armed with guns. - Wilson shot Treada-1 am grateful for past encouragement of my way, who soon fell, mortally wounded. Hardin then stunned Wilson by striking him with the rail-seized the gun of Treadaway and fired at Wm. Wilson, without effect. Wilson then fired at him, the shot taking effect in one eye, and also in his face, breast and arm.

Treadaway has since died from the wounds inflicted-Hardin is not yet dead, but the wounds are represented to be very severe.

We give the above particulars as we have heard them from good sources. They are doubtless mainly correct. We understand that Wm. Wilson delivered himself up in Hamburg. and was admitted to bail .-. . Augusta Republic.

### A NEW OMNIBUS.

A new omnibus has been introduced ino London, so arranged that every passenger has a door, a seat and a window for himself, with a gutta percha tube through which to convey orders to the cab. The arrangement is most ingenious. The only difficulty is, that friends getting in have no opportunity of saying a word to each other until the journey is performed. Connected with every seat, or cell, or box, whichever it may be called, is a self-acting machine for registering the daily number of passengers.

A CURE FOR NEURALGIA. - The Courrier des Etats Unis says:

A young doctor of the Paris Faculty of Medicine has just made a discovery, which we deem of importance to communicate to our readers. Neuralgic affections are, of all others, the most impervious to the art of medicine. M. Desterne, profoundly convinced of the science in those affections, so common and so terrible, has devoted himself zealously to researches upon the physiological action of the nervous system. Taking for the starting point of his researches the remarkable results of the cure of Neuralgia by the cauterization of the "helix," he has discovered a method of curing instantaneously, and without disturbing any organ, all Neuralgic affections of the head, attacks of megrim, and pains resulting from teeth in an advanced state of decay. What renders this discovery truly marvellous, is the promptness at once of the cure, and its perfect success

in more than two hundred cases, which have presented themselves since the 22d of December, the date of the first experiments.

M. Desterne purposes presenting to the Academy of Medicine a memoir upon this important discovery. The presentation of the memoir is only retarded by the hope which the author entertains of preventing. SUDDEN DEATH .--- Augustus Moore, by the same means, hysterical and epilepcomplete mark
