

"LAUGH AND GET FAT!" Lack we motives to laugh? Are not all things, any thing, every thing, to be laughed at? And if nothing were to be seen, felt, heard, or understood, we would laugh

There's nothing here on earth deserves Half of the thought we waste about it, And thinking but destroys the nerves, When we can do so well without it: If folks would let the world go round, And pay their tithes, and eat their dinners,

Such doleful looks would not be found. To trighten us poor laughing sinners. Never sigh when you can sing, But laugh, like me, at every thing!

One plagues himself about the sun. And puzzles on, through every weather, What time he'll rise,-how long he'll run,-And when he'll leave us altogether: Now matters it a pebble-stone, Whether he shines at six or seven? If they don't leave the sun alone, At last they'll plague him out of Heaven! Never sigh when you can sing, But laugh, like me, at every thing!

Another spins from out his brains Fine cobwebs, to amuse his neighbors, And gets for all his toils and pains, Reviewed, and laughed at for his labours : Fame is his star! and fame is sweet; And praise is pleasanter than honey,-I write at just so much a sheet, And Messrs. Longman pay the money!

Never sigh when you can sing,

But laugh, like me at every thing!

My brother gave his heart away To Mercandotti, when he met her, She married Mr Ball one day-He's gone to Sweden to forget her! I had a charmer, too-and sighed, And raved all day and night about her; She caught a cold, poor thing! and died, And I-am just as fat without her! Never sigh when you can sing, But laugh, like me, at every thing!

For tears are vastly pretty things, But make one very thin and taper; 'And sighs are music's sweetest strings, But sound most beautiful - on paper! "Thought" is the Sage's brightest star, Her gems alone are worth his finding; But as I'm not particular, Please God! I'll keep on "never minding." Never sigh when you can sing, But laugh, like me, at every thing!

Oh! in this troubled world of ours, A laughter-mine's a glorious treasure; And separating thorns from flowers, And why be grave instead of gay? Why feel a-thirst while folks are quaffing?-

Oh! trust me, whatsoe'er they say, There's nothing half so good as laughing! Never sigh when you can sing, But laugh. like me, at every thing !

HOW TO MAKE VINEGAR.

There are many great notions entertained among our farmers about making vinegar. The proprietor contemplates running the boat or water and molasses in a cask, to the sun and expose it to the luminary with a as many ideas entertained about making nies, he thinks he can give satisfaction. cider, as there are about making soft soap, and luck is frequently held to be the to their agents in Fayetteville. His agent in the interior he would say, that all goods shipped by him, will be delivered to their agents in Fayetteville. His agent in umpire who decides whether it will be Wilmington is JOHN C, LATTA, to whom all vinegar or no vinegar.

The reason why cider or other fluid mixtures change their nature and become vinegar, is owing to a transformation of the particles and then a separation of one or more, and a combination of others. The oxygen of the atmosphere, although it is not now as was once believed to be, the only acidifier, still it is the great one, and vinegar is formed by the cider parting with its carbonic acid gas, which it cannot do without absorbing oxygen. The reasonable way, then, to make vinegar rapidly and surely, is to expose the cider as much as possible to the atmosphere. The new way, and what is supposed by many to be a patent way to make vinegar, is to let the cider percolate over a very exposed surface. This is the way they make it in the vinegar manufactory. The apartment where it is made is freely exposed to the air and is kept at a temperature of about 60 deg. The cider is left to run in small streams into troughs with bottoms full of small holes, then from that over very fine GREAT BARGAINS TO BE HAD! wood shavings, such as soft maple, and let these be fully exposed to the air and resting on a slatted bottom made of clean bows or lathes, below which the vessel for receiving it should be placed; vinegar can be made from molasses and water, grapes, advantageous terms the orn stalks, beet roots, and many other Entire Stock of Goods, substances by this process in a few days. IMPORTANT INVENTION.

THE subscriber having bought the right for this county, of Waitman Davis' Patent Self Setter for Saw Mills, gives notice that he is now prepared to Manufacture and put in successful peration this machine.

He claims the following advantages over the old mode of Sawing: First-One hand can tend the mill and saw as

much Lumber in one day as two hands can accomplish. Second-By a peculiar arrangement of the dogs it will saw one fifth more lumber from the same

Third-The Mill is not stopped until the log is sawed up. After the log is once dog'd the etteville and Southern Plank Road, for which dogs are not moved, and the Lumber is of one uniform thickness. One of these machines can be seen in operation at Mr McLauchlin's Mill in this town, who gives it the following recom-

PILOT MOUNTAIN. SUMMER RETREAT. THIS GRAND CURIOSITY is situated in

Surry county, two miles west of the Stokes and Surry line, and near the main road leading from Germanton and Salem to Rockford, 18 miles from Germanton and 25 miles from Rockford. The Pilot Mountain House, 11 miles from the pinnacle, has been newly fitted up for the approaching season, and no expense or attention will be spared to render enjoyment to visiters who may be pleased to seek health or pleasure at the Pilot Mountain. One mile from the house is a fine mineral

spring, and a good carriage road leading to it. The ascent to the pinnacle has been rendered perfectly safe, and comparatively easy, by ladders made for the purpose. The view from this point is the grandest spectacle in North Carolina, if not in the whole southern country, being a huge shaft run up 1800 feet into the blue etherial arch from a comparatively level surrounding surface. and embracing the Blue hauge and Alleghany Mountains, from the peaks of Otto to the north S0 miles, to the Table Rock in South Carolina, 100 miles, including within the range Paris' Mountain, Spartanburg district, and both peaks of King's Mountain in York District.
