These although early settled, full of incidents of and other circumstances of like character. Captain Kelley declares to be capable of verification in Havana. The English Consul it seems displayed toward the unforturate men the humanity and sympathy which the representatives of their own country relused. The latter knew full well that they had been deceived and humbugged at home-that they were victims of a delusion-and yet he utterly refused them all aid and comfort in their misery. We think, upon the whole, that Consul Owen is the meaniest specimen of an American that our flag was ever disgraced by floating over, and we are right glad that he has been recalled.

The "North Carolina Reader" is the title of a well-printed octavo volume of some three hundred and fifty pages, from the press of Lippincott, Grambo & Co., Philadelphia. We have given the work a cursory perusal, and can cordially commend it, not merely to parents and teachers in North Carolina as a school book, but to the general reader. The plan of the work is novel. While it modestly purports to be a school reader, it embraces an amount of historical and other information relative to the State of North Carolina which can be found in no other single volame; indeed, it would require dilligent research into many volumes to come at it. It is a work which every intelligent gentleman in North Carolina will procure; and readers in every part of the country who wish to possess a well written book, embracing a perspicuous account of the history, present condition, and resources of that noble old State, with selections from her best speakers and writers, should not fail to place it in their libraries. In addition to what pertains to the State, there are chronological and other tables highly useful for reference-Christan Statesman.
