THAT ELASTIC RESOLUTION.

We see going the rounds of the Whig Press in this State, an article from the Wilmington Herald, criticising the 12th resolution of the series adopted by the late Democratic State Convention of North Carolina. That resolution "Resolved. That we reaffirm the Resolutions of the

Baltimore Convention of 1844 and '48, as far as they are applicable to the present condition of the country."

This resolution was not designed to afford, as the Herald supposes, a platform wide enough for every shade of democratic opinion to stand on. Its object was simply this: Some of the resolutions of the Democratic National Conventions of 1844-'48 were expressive of the views of that body on questions then before the country, but which have been since permanently settled. Such for instance was the Oregon question, the Texas annexation question, and the question of making peace with Mexico. The reaffirmation of these resolutions at this time would make nonsense, and they are therefore, not applicable they were excluded.

But unfortunately for their protective theories, commerce will regulate itself, and whenever the importations become too great for the time, a diminution follows, which restores the equilibrium. Money is plentiful at the north, and we hear of no commercial distress, notwithstanding the terrible drain which whig presses alledge to have been made on the circulating medium of the country. The fact is that it is no fault of the protectionists that the country will continue prosperous under a democratic tariff. They have done all they could to figure up a different result. But the troublesome and unaccommodating laws of trade will not conform their operations to the ingenious theories of the protectionists. Oh, how vexatious!
