D. & W. McLAURIN.

City, on Sunday county last. In absence of the Proportion of the Societhe Hon. Duncan Campaign the Hon. L. Swain, one of the Vice Presiden took the Chair.

the Rev. T. W. Tobey, after which the Rev. Peter Doub read a portion of the Scriptures.

Gov. Swain referred in a touching manner to the physical prostration of the venerable President of the Society, which prevented his attendance at the meeting; and he observed, in the course of his resurpassed for quickness in putting a gloss on marks, that he had no doubt that Judge Cameron looked upon his long connexion with this Society with more pleasure than upon all the offices, important and distinguished as they had been, which he had ever filled.

The Rev. Mr Deruewelle, State agent of the Society addressed the meeting, giving quite an interesting account of his labors in distributing among the people the word of God. He was followed by the Rev. Dr. Brigham, Secretary of the American Bible Society, who spoke for nearly an hour in relation to the operations of the Society and the vast benefits conferred by it in distributing the Bible both in A much larger and more general stock than ever this and other countries. Dr Brigham's remarks were replete with most interesttual customers, either at wholesale or retail, at ing facts and statistics, which we regret our lack of space to present to our readers.

The Rev Dr. Lacv then called upon marks; whereupon the Hon. James C. You that wish Bargains will find it to your Dobbin took the floor and spoke for half its elevating and refining influence upon to it the fullest and widest dissemination. He was followed by Samuel F. Phillips, Esq., who, though evidently unprepared for the call, spoke with his accestoned force and good sense upon the great came Also, 40 Shares of Fayetteville and Western to sustain and advance which the meeting

Gov Swain then addressed the meetin He produced and read some documents, place-over \$5000 worth-completely finished. prepared and issued by the Congress during our revolutionary struggle, showing the feeling of dependence upon Almighty God which possessed the minds and characterized the conduct of our forefathers; and he attributed to this feeling-to this pendence upon Divine aid, the triumph which crowned our arms in that great tion, if not paid soon. I have all my accounts struggle. He said our liberties were bottomed on the Bible, and they could not endure if the Bible should cease to be circulated and read. Gov. Swain spoke for some time in his best manner; and when he had concluded, and after benediction by the Rev. Dr. Brigham, the meeting adjourned.

We are gratified to learn that there is growing interest in the Bible cause, and that the prospect of good from the operations of the Society is constantly widening and expanding. It is a cause which should command the contributions and enlist the efforts of all.

harlately been floating through the hose name heads this article, is a sister of N. P. Willis:

"A Boston paper noticing this says That it is also said that this "sister" of N. P. Willis, is very much in favor of the 'bloomer costume,' wears breeches, smoke happy and eloquent conclusion of it : cigars, promenades the streets in Wellington boots and standing shirt-collar, edits the best paper and is the best looking man in Boston; she bears the cognomen of "quaint Fanny Fern" abroad, but is better known at home as Tom Norris, the editor of the Olive Branch.

DEATH OF GREENOUGH, THE SCULPTOR. The Boston Transcript informs us that Horatio Greenough, one of the first American Sculptors, died at Somerville, Mass., on Saturday morning. His illness had been brief, terminating in a violent attack of brain fever, bidding defiance to medical

Mr Greenough was a native of Boston. He was born in 1805; graduated at Har-John Q. Adams; a " Group of Cherubs." for J. Fenimore Cooper ; "Medora," for of Washington, in that city; and a colossal group, entitled the "Rescue," emblematic of the struggle between the Anglo-Saxon and aboriginal races on this continent.

Herald has published an able and interesting paper of Professor G. K. Kane on the subject of "Access to an open Polar Sea by a North American Meridian." The Heratd says:

"The basis of Dr. Kane's plan of operations, is an overland route, founded upon the hypothesis that beyond the icy barrier which shuts out communication with the North Pole by water there is an open sea or basin. The course proposed to travel is a due northern line. This is a highly important expedition, and its results will be looked forward to with deep interest by the people of the United Statesand by scientific men of all countries. From the London Times we learn that there is to be another Arctic expedition, headed by Dr. John Rie, under the auspices of the Hudson's Bay Company. This. too, is to be for the most part an overland expedition. The starting point is to be Hudson's Bay, and the object is to complete the survey of the Northern shores of America, a small portion of whch now remains unexplored.

ANTIDOTE. - Champhor has been discovered to be an antidote to that terrible of New Orleans, there has been a decline poison, strychnine. A man who had been in the value of property in the city of thrown into convulsions by two doses of the poison-one-sixth of a grain each, administered for the rheumatism-was releived by 20 grains of campbor, taken in x grains of almond mixture. Dr. Sudin a letter to the London Lancet, to have made the discovery.

ANNABEL LEE. BY EDGAR A. POE. In a kingdom by the sea,

That a maiden there lived whom you may know By the name of Annabel Lee; And this maiden she lived with no other thought Than to love and be loved by me.

I was a child and she was a child. In the kingdom by the sea; we loved with a love that was more than love I and Annabel Lee; With a love that the winged seraphs of Heaven

Coveted her and me. nd this was the reason that, long ago, In this kingdom by the sea, d blew out of a cloud, chilling My beautiful Annabel Lee; t her high-born kinsmen came And hore her away from me, ut her up in a sepulchre,

In this kingdom by the sea. ingels, not half so happy in heaven, Went enveying her and me-Yes! - that was the reason, (as all men know, In this kingdom by the sea,)
That the wind came out of the cloud at night

Of many far older than we-Of many far wiser than we-neither the angels in heaven above, Nor the demons down under the sea, ever dissever my soul from the soul Of the beautiful Annabel Lee.

Chilling and killing my Annabel Lee.

But our love it was stronger by far than the love

For the moon never beams without bringing me dreams Of the beautiful Annabel Lee; And the stars never rise but I feel the bright eyes Of the beautiful Annabel Lee: and so all the night-tide, I lie down by the side

Of my darling-my darling, my life and bride, In the sepulchre there by the sea, In her tomb by the sounding sea.

It is the first time the daughter of a parish pastor has been elevated to this position. In the evening, General Pierce attended service in the same house, when an address was delivered in behalf of an important town charity mission for the poor during the coming winter. Such was the first Sabbath of Gen. Pierce after his election, and essentially such, we trust and believe, the rest will be.

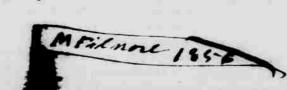

CAST-IRON PAVEMENTS.

The citizens of Boston are real utilitarians, and possess more municipal enter? prise than those of any other-city in our union. They have an electric fire telegraph for the whole city, which has been in operation for at least a year, and now they are laying down cast-iron pavements.

We understand that the people of Boston have adopted the plan of sweeping and cleaning the streets during the night, and that the plan works admirable. We recommended the adoption of this plan to our citizens two or three years ago, also repairing the streets during the night, but our wise gothamites will not be casily made to adopt such reasonable city reforms. We are glad to know that one city has. - N. Y. Scientific American.

Worth Remembering .- Reese's Medical Gazette says: "In case of any burn or scald, however extensive, all the acute suffering of the patient may be at once and permanently releived, and that in a moment, by sprinkling over the surface a thick layer of wheat flour.".

"That beet's all," as the man said who had but one beet for dinner.

dent, ia 1856.
