We at length reached the enclosure, and found about 5,000 persons inside and as buth of timber grated with bars of iron; in it stood a large powerful slate-colored ball, Napoleon 4th, sole monarch of that establishment. By the side of this stood another grated cage, with a large and powerful grizly bear, which would weigh 400 or 500 lbs., and would stand from Si to 4 f et high, with a lank sort of Indiarubber movement and action about himabout half devil. The bills reported this ferocious animal to be the hero of fifty battles, in all of which he came off victorious. We would not for a moment question the veracity of such a statement, but we must say, had Napoleon 4th been his antagonist in the first battle, we doubt very much whether the remainder of the fifty would have been fought. We had just time to notice the preparatory arrangements when the crowd from outside broke through; in rushed several thousand people; they flew like magic on to the top of the large cage which was covered with boards, so that the cage was soon surrounded and covered in every direction by sight-seers; those from the staging, and outsiders who could not get a sight, commenced an assault on those on and about the cage with stones, brickbats, clubs, boards, turf, and every thing that came handy to clear the way and give fair play.
