## FAYETTEVILLE, N.C. SATURDAY, JULY 16, 1853.

FOR CONGRESS, HON. WILLIAM S. ASHE.

The Editor is now absent, and will be away from his post for the next four or five weeks.

THE CONGRESSIONAL CANVASS.

Since Walter F. Leak, Esq., became a candi-Ashe have visited several of the counties and heard at the extremest verge of the crowd. have addressed the people. As yet the contest has not taken a turn to arouse public feeling in a high degree, and it may be for this cause we have heard less than usual of the progress of the we have advocated the election of Mr Ashe from the outset, because we believe him to be a faithful representative of the District, and an ardent and reliable friend of the Administration.

It is but an act of common justice and fairness towards that Administration, that members should be sent to the national legislature, from democratic districts, who will concur with the President in opinion respecting questions that may divide the two parties of the country. To make the Administration effective and powerful, those elected to Congress as democrats must be its friends, or the policy enunciated at Baltimore, which the President has declared to be his, will fail to accomplish any good for the country .-The system of "plunder and robberv" practised upon the old States, as the whig press is pleased to term it, derived its potency and its most mischievous effect from the sanction of Mr Fillmore's administration. He signed these bills which have given such offence to his own party, and thereby aided in the enactment of laws fraught with iniquity the most foul to a large part of the country. President Pierce, it is well known, is opposed to this system of unequal legislation, and we need not fear in the next four Ruffin, the democratic nominee. Indeed, no Philadelphia, on the 8th day of January, 1854. years that any cause will arise for alarm in the couraged as far as he had power.

Mr Ashe agrees with the President upon the question of the public lands. Mr Leak, as far as by Mr Loftin, also democrat ] we can understand him, takes the opposite position. He assumes that the "plundering sys tem" will go on, (although he knows that the veto can check it,) and by taking this for granted, he makes an argument that the public lands lands ought to be divided-that the division should be insisted on by the old States in self-defence. In making this argument, Mr Leak places the President in the attitude of being either unwilling or unable to correct this evil so complained of. Mr Fillmore might have checked it by the use of the veto. President Pierce can and will do it, by the exercise of that wholesome power. If he does it, and we are sure he will, then Mr Leak must return to his first position, and declare with the democratic party, that the public domain ought to be kept for national purposes, or he must become an advocate for divison out and out. No administration can succeed if those who claim to be its friends are distrustful, at the outset, of its integrity. Either of these objections to Mr Leak is, in our mind, sufficient. If he is not willing to trust the President upon the question of the public lands, we are not willing to trust him-if he is against the President now, we are against him. Mr Leak, in his letter from Lumberton, altudes, as he often does, to his long services, and to the time when the Editor of this paper was in the "nursery." So he thought and spoke last winter when he told gentlemen in this place that it was unjust in the democratic party to overlook veterans like Saunders and himself, and take up a young man like James C. Dobbin for the Senate of the United States .-Does he remember the time he spent in Raleigh during the senatorial contest? Was it to aid in upholding his party at a time of high excitement? -to bring about organization, or to produce distraction? Let Cumberland, Robeson, Duplin, New Hanover, Sampson, Columbus, Bladen and Brunswick, all speak out.

AUGUST ELECTIONS .- On Thursday the 4th of August, the election for members of Congress and Clerks of Courts takes place in this State. Elections also will be held in Alabama, Texas, Kentucky, Missouri, Arkansas, and Tennessee - in the latter State on the first Thursday in August, and in the others on the first Monday. In Kentucky and Arkansas members of Congress and the State Legislature are to be chosen; in Missouri members of Congress; and in Alabama, Texas, and Tennessee, a Governor, Legislature, and members of Congress are to be elected. There are six candidates for Governor

WHIG CANDIDATE IN THE FOURTH DISTRICT .- Sion H. Rogers, Esq., whig, announces himself in the Raleigh Register of the 13th, as a candidate for Congress in the fourth (Raleigh) district. Mr Rogers is a citizen of States. CONGRESSIONAL CANDIDATES IN N. C A correspondent of the Washington Union writing from Raleigh, gives the following view

of the congressional canvass in this State: In the first District (Edenton,) the old member, Col. Outlaw, whig, is opposed by Dr. H. M. Shaw, late Senator in the State Legislature. Dr Shaw is active and able. Col. Outlaw was in early life a decided State-rights democrat-then and he stands pledged to correct any such ap- well as of the Manchows At Nankin they burnt went off against Gen. Jackson in the eventful days of nullification, and finally sided with the whigs. He opposed with much earnestness the nomination of Gen. Scott, and then supported him. It is hoped that Dr. Shaw will be elected, as a change of 200 votes would elect him.

In the second district, (Newbern,) there is no doubt expressed of the election of Col. Thomas of the war of 1812, to be held in the City of whig has had rashness enough to oppose him. The proposition has already been warmly secondwhig party concerning a matter which their He is a bold, ardent, and untiring advocate of ed by public meetings held in some of the northmodel President, Mr Fillmore, approved and en- | southern rights, and will prove a useful member | ern States. The following resolution was adoptin Congress. Gen. pierce's majority in this dis- ed at a very large meeting of the soldiers of trict was more than 2,000. [Col. In the fourth district, (Raleigh,) the Hon. A W. Venable is a candidate. His opponent is A M. Lewis, Esq, also a democrat. Our majority in this district is 1,500.

In the fifth district, (Guilford,) the late de feated whig candidate for Governor, John Kerr, is alone in the field. It may be supposed, as he has no opposition, that he is to be elected in a district decidedly whig-1,900 majority in the presidential election.

In the sixth district, Col. R. C. Puryear, whig, of Surry county, is opposed by George D. Boyd, democrat, of Rockingham county. The whig majority at the last presidential election was 1,000, although at the governor's election Gov. Reid, who is a native of this district, carried it. The contest is animated, and Boyd holds very uneasy his opponent, who maintains all the exploded heresies of the whig party.

Craig, dem, contends against James W. Osborne, whig. This is a very doubtful district, and gave Gen Scott a small majority, 199 But the able, indefatigable exertions of the gallant Craig, his bold and ardent advocacy of the true principles of government, and his exposure of the course and conduct of the opposition, will secure his election beyond all doubt. Mr Craig is a man that never turns his back to friend or foe. In his person there will be few taller men in Con-

gre s, and none taller intellectually. In the eighth district, (Buncombe,) the old member, Hon. Thos. L. Clingman, meets again his opponent B S Gaither, Esq, who was beaten so badly last election that we had forgotten he was ever a candidate. There is no doubt of his

PUBLIC LANDS-DISCUSSION AT KEN-ANSVILLE-GEN. JACKSON VETO MES-SAGE .-- A correspondent of the Wilmington Journal writes to that paper as follows:

"I was present at Kenansville at the discussion between Messrs Ashe and Leak, and had my attention drawn by the reference of both the gentlemen to one of the most able state papers ever written by Gen. Jackson-1 mean his veto land bill message. Each of the gentlemen quoted from this message, and in order to sustain himself, cheerfully offered to bear half the expenses necessary to issue ten thousand copies of it in pamphlet form for distribution

This offer was intended as evidence of the sincerity of their respective opinions, but in the conclusion of their debate Mr Ashe stated as he was willing, yea, anxious, to let the voters of the District decide who was correct in his quotations from the message, he wished Mr Leak would adhere to his proposition to have it reprinted, each of them bearing half of the expenses. From this Mr Leak backed out. This back out clearly shows a consciousness on the part of Mr Leak that he had misquoted Jackson's opinions on the distribution of the lands among the (Venable and Lewis) there is no telling what the what is authority against him. The bill in quesconsequences will be unless the democrats unite tion was one for the distribution of the proceeds of the lands among the several States, as also a partial distribution of the lands themselves. Matthew Shaw, Esq, of Beaufort county, has been appointed a member of the Literary Board distribution of the lands or their proceeds among the States could be consistent with the different deeds of cession; and as the Constitution of the United States makes all of these compacts binding on the present Government, he concluded that Congress had no right to pass such a bill. But independent of the want of power in Congress to do this, the old General expressly declares that there are other considerations which

would compel him to veto the bill." [Here follows a long extract from Gen. Jackson's veto message, Dec. 4, 1933, showing the fatal policy of distribution.]

In addition to those already appointed, Gov. Reid has designated Wm. D. Cooke, Esq, of Raleigh, and Gen. John Gray Bynum of Rutherford, as Commissioners at the Exhibition of the Industry of all nations in New York.

> RAILROAD ACCIDENTS are of common occurrence now-a-days A freight train, near Wilmington, Del., was thrown into Brandywine Creek, in consequence of the draw bridge being left open. The locomotive, tender, and some of the cars fell through and were shattered to pieces, killing the engineer and fireman, and injuring others. We are satisfied, from experience, that at least nine-tenths of these accidents are caused by the gross negligence on the part of engineers, switch tenders and bridge keepers.

"Resolved, That we heartily approve of the doctrines set forth in the President's inaugural address, as eminently sound, judicious, and democratic; and that he has thus far administered the Government in accordance with those principles, and in a manner to challenge the respect of the American people and justify the confidence of the democratic party.'

WHO WOULDN'T FEEL PROUD?

The Goldsboro' Telegraph of the 14th inst. contains the following, by which we learn that the publisher of that paper is about as happy as he well can be. He is right:

"The Publisher of this paper asks that any errors which may be discovered in it will be excused, and he feels sure they will be, when it is known that he has been stricken by a fresh squall. He has been presented with one of those little beings, that remind us of cherubs, that stir the heart with its angel smiles, and drives melancholy to its black abode with its sparkling eyes, and sweet attractions. The Publisher's bosom is too full of joy to allow him strictly to search for errors of the types, and he repeats his request, that if any occur they will be pardoned, but if they are not, he does'nt care a snap, for having in his house "well springs of pleasure," he will sip joy from them, and laugh at all grumblers.
