FOREIGN NEWS.
The steamer Asia arrived at New York, on the 28th ult., with Liverpool dates to the 16th and Havre to the 15th.

The Eastern question remains precisely in statu quo. No intelligence of an authentic character has been received to change it in the least respect. Lord John Russell stated in Parliament that matters had by no means come to a head, and that negotiations were still going on.
Capt. Stringham's energetic conduct in regard to Cuba had prevented his being carried to Trieste. Capt. S. having placed the capture of the island under the auspices of the St. Louis. Interviews had taken place between Mr. Marsh and Baron Bruck, and matters would await orders from Vienna and Washington.—Two more Austrian ships of war had been sent to Smyrna to watch the movements of the St. Louis.

DROWNED.—On Thursday, the 27th instant, the body of a man named Joseph R. Deans, was found in the Cape Fear River, some five or six miles above town. The deceased had been employed by Mr. Metts, as a laborer on board his flat boat for some few weeks previous to the 23d, when he came to his death by accidentally falling overboard into the river. There was found upon the body a silver watch, with brass chain and key, and a pocket book with 25 cents, a receipt for bill of costs, amounting to eight dollars, signed by Cook or Cook. The deceased was believed to be from about Weldon.—The verdict of the Coroner's Jury was in accordance with the facts as stated.—*Wilmington Journal.*

ATTEMPT TO KILL.—On Saturday last, Willis Hester, who lives some four miles west of Hillsborough, came into town, and while in Mr. Porter Thompson's tavern, to the excitement of incipient intoxication, broke some of his ware, when Mr. Thompson approached him; Hester then pulled out a pistol and fired, the ball passing through Mr. Thompson's right arm near the shoulder, making a flesh wound only. Armed with his pistol, a five shooter, Hester made his way out of town, and has not yet been taken.

The Morning Advertiser, of London, in alluding to a "recent distressing case of mental derangement," says:
We are sorry to announce that Miss C., the young lady in Surrey place, who was reported in this journal some few weeks ago to have suffered from trying the table moving experiment, by means of the above agency, is much worse. Hopes were entertained that she would soon recover the use of her hands. It seems, however, that these hopes have not been realized. Her hands are now firmly clenched together, and it requires great force to separate the fingers, even for a moment, from the palms of her hands. This extraordinary affair has caused intense excitement in the medical profession.

Wool Growing in Virginia.
We learn from the Richmond papers that the farmers of Virginia are turning their attention to Wool growing, and are bent on making themselves practically independent. We have heretofore been mainly dependent on the northern States, for this article, with imports from Spain and South America, and occasional supplies from Germany and Saxony.—A sample of Saxony Wool, grown in Virginia, was presented at Richmond, worth 85 to 90 cents per pound in any market; and Merino grown within 20 miles of Richmond, brought 60 cents per pound. The Dispatch says, in reference to the last mentioned lot: "The grower remarked, that at such rates he could not engage in a more profitable business. It seems that he had entered upon wool growing merely as an experiment—and had only 170 sheep in his flock. For this season's clip he received about \$380. He informed us that he had 100 lambs for which the butchers had repeatedly offered \$1 per head, but that, as they were full blooded Merino, he had sold most of them at \$10 each, and expected no difficulty in selling the remainder at the same price. At this rate his profits for a single year will be from \$750 to \$1,550 upon 170 sheep!"
