Let it be remembered that Gen. Dockery was nominated solely on account of his demagogical manner of electioneering, and not in consequence of any merit or ability he might possess. Remember these things, and let your vote and influence be exerted on the 3d of August in favor of Mr Bragg.

..... To the Democrats of Cumberland

We say, one and all, go to the poils on Thursday and maintain your principles. Let not one stay behind. If the victory is won it must be worked for. Use all honorable and fair means to secure a larger majority for Mr Bragg than has yet been obtained by any candidate in old Cumberland. The prospects are brightening in every direction, but let none be too confident of success and be slow to work or neglect to vote. After the last Presidential election we heard of several democratic voters in this county who staid away from the polls because Gov. Reid carried the State by 5,000 majority, thinking there was no danger but what Pierce and King would get the same vote. But you know that we came very near losing the State.

Do all you can to secure a democratic Legislature. Remember that two U. S. Senators and the success of Free Suffrage depends on the result. Although there is a possibility that we will lose a member from this county, in consequence of having six democratic candidates in the field, let no democrat be deterred from doing all in his power to avert such a result.

cause no one to forget to east his vote and ex ereise his influence for Mr Bragg. A word to the wise is sufficient.

To the Democrats of the State

We say, go to the polls, work, do your duty and the day will be ours. See that there is a good supply of Bragg tickets at every precinct in the State, and above all be certain that they go into the ballot box.

..... We call attention to the Report of Lt. Maffitt, in another column. That report shows Beaufort Harbor to possess all the advantages its friends have claimed for it.

We hope our friends in the adjoining counties will send us the election returns as early as possible. Have them correct.

Distribution. If there is any democrat who fancies that the distribution of the public lands is a good thing, he would not now give it his approval were it and calculated to benefit the individual States, the public lands to all who would go and settle and that to obtain it he must support the whig candidate for Governor, let him remember that not disregard. Let it be remembered that the if it were possible for Gen. The whig papers are talking a great deal about "the old Pee Dee farmer," as though it was a wonderful thing to have a member of the farming portion of the community running as their candidate for Governor.
