FAYETTEVILLE, N. C.

Saturday, October 6, 1855.

Georgia Election.

COLUMBIA, October 2.—Returns from 55 Counties indicate the election of Johnson, dem.

COLUMBIA, Oct. 3.—Suffrage returns have been received to indicate the election of Herschel V. Johnson.

We see that the Executive Committee of the Fayetteville Female High School are furnishing the building in order that it may be ready by the 15th.

THE YELLOW FEVER in Norfolk and Portsmouth has considerably abated, but there are a few new cases occurring yet.

The Yellow Fever has again made its appearance in Montgomery, Ala. It broke out among the members of the Relief Committee.

A new Post Office has been established in Moore county, called "Curriesville," on the road from Carthage to Centre.

POWDER.—The article of Powder has considerably advanced in price, owing to the war in Europe.

PRACTICE VS. PREACHING.—Some idea of the inconsistency of the know-nothing leaders may be formed from the fact that Jeremiah Clemens, who recently wrote a long letter favorable to the know-nothing party.

HON. JOHN KERR.—The Hon. John Kerr was present at a democratic Barbaque at Tally Ho, in Granville county, on the 20th ult.

"Next in order, we all assembled to hear the bugle notes and bounding eloquence of one who is not unknown to North Carolina war the Union—John Kerr.

The wife and daughter of Chief Justice Roger B. Taney died at Old Point on Sunday last,—the daughter from yellow fever.

APPLES.—Mr Henry Johnson, of Haymont, has presented us with a lot of fine apples. Notwithstanding the past was an abundant fruit season, yet Mr Johnson is the only one who has remembered to bring us any of the produce of the orchard.

HEALTH OF FAYETTEVILLE.—We learn from a letter received here, that exaggerated reports are circulated as to the health of this place.

FROM HAVANA.—The steamship Crescent City has arrived from Havana with dates to the 29th ult. The news is unimportant. California dates are to the 5th ult.

A Methodist Conference has been organized in the Sandwich Islands.

FUSION IN PENNSYLVANIA.—It will be seen by the following address, issued by the Central Committee of the whig, republican (free-soil), and "American" (know-nothing) parties.

To the People of Pennsylvania.—The Whig party, the Republican party, and the American party, having each nominated a candidate for the office of Canal Commissioner.

In view of these facts, a meeting of our respective Central Committees of said parties was held at Harrisburg on Thursday, the 27th of September, 1855.

By order of the committees. JOHN A. FISHER, Chairman Whig State Committee. LEMUEL TODD, Chairman of the American State Committee. DAVID W. HOLT, Chairman of the Republican State Committee.

Bear in mind that the democratic candidate for Canal Commissioner is styled a pro-slavery man, and to defeat him is the main object of this fusion.

The probability of a war between the United States and Denmark with regard to the tax on vessels entering the Baltic sea, called the "Sound Tolls," is being discussed by the papers generally in this country and in Europe.

"A great deal may happen within half a year to modify the views of the Court of Copenhagen; but the respective positions which Denmark and this country now occupy towards each other, must inevitably lead to a war, if a favorable turn is not given to negotiations by some act of concession which neither party is, at the present moment, inclined to make.

There is little probability that our quarrel with Denmark will be interfered with provided the course pursued by the government at Washington shall be characterized by the same moderation and wisdom, which have hitherto marked the progress of its negotiations with that country.

It has been currently reported, and the rumor has gained a certain amount of credit with a portion of the American press, that Louis Napoleon had declared his determination to sustain Denmark in resisting the just claims of the United States.

There is little probability that our quarrel with Denmark will be interfered with provided the course pursued by the government at Washington shall be characterized by the same moderation and wisdom, which have hitherto marked the progress of its negotiations with that country.

SCHOOLMASTER ABSENT.—The following application for a Clerkship was received by a mercantile firm in this place a few days ago. As the gentlemen applied to do not wish to employ the applicant, those who may want an assistant will know where to find one.

As we think there is much doubt about Mr "sanderson's" getting a situation as "one of the famcle" we would advise him to follow a rural life a while longer.

Robeson Superior Court.

The Superior Court of Robeson County was in session last week, his Honor, Jno. W. Ellis, presided. In consequence of the indisposition of Judge Ellis, who was suffering from severe cold in the early part of the week, there was not much business done on the Civil Docket.

The case that excited the most interest during the week, was that of the State vs. Daniel McKinnon, Peter McEachen, Jesse Bethea, and some twelve or fourteen other defendants, who acted as jurors to try a case of "Forcible Entry and Detainer" between the Trustees of "Floral College" and Col. Alex'r Watson.

The Supreme Court dismissed the suit for restitution, and granted the defendants a new trial on the indictment. When the case was called at this Term of the Court, the prosecutor, Watson, moved to continue the case for the absence of John L. Fairly, who he believed to be a material witness on behalf of the State.

The State closed its case without examining any other witness, when the defendants, through one of their counsel, stated to the Court and Jury that they expected to show that the prosecutor, Watson, was their Steward—that he acted as their agent or Steward in the management of the Steward's Hall—that he was employed by the year and his term of service having expired, and refusing to quit or surrender the Hall, that they had the right to enter upon him and expel him,—that they acted under the authority of the law, having first complained to an acting Justice of the Peace, and obtained a warrant vs. Watson for "Forcible Entry and Detainer" which they went with the Sheriff to execute on the "Entry and Retainer," and that unless they acted maliciously, and in violation of the Peace, they were not guilty in manner and form as charged in the bill of indictment.

John McInnis, on behalf of defendants, testified that at the time of the difficulty between Watson and the Trustees, and previous thereto, there were from 75 to 100 scholars attending school, who boarded in the Steward's Hall with the prosecutor—that the Trustees allowed no one disconnected with the school to eat in the College—that Watson kept a boarding house in the village at the time, and that all persons boarding with Watson, who were in no way connected with the school, boarded at Watson's house and not at the Hall—that the scholars had free access to the hall—that they slept in the College and eat in the hall—that the Steward's hall had always been kept for the Trustees, and the steward was elected annually—that Watson went into possession in January, 1853.

J. B. McCallum testified that he acted as Sec'y for the Trustees when Watson was elected steward—that instead of renting the hall for the year, Watson was to pay the Trustees 15 per cent. on the amount received—that according to agreement, he was to furnish good and wholesome food, and provide comfortable sleeping apartments for the scholars—that during the time Watson acted as steward, he was appointed by the Trustees one of a committee to examine and report how Watson was discharging his duty, that some time in Dec'r, 1855, after another steward had been elected in Watson's place, he had a conversation with him in reference to the hall, when he told him he would not give it up, that they would have to bring an action of Ejectment to recover the possession, and he would hold it three years!—that during the year the Trustees had notified Watson that his boarders, other than scholars, should not eat at the Steward's hall.

The warrant vs. prosecutor was then read, signed by Peter McEachen, J. P., from which it appeared, by the return of the Jury endorsed on the same, that they found the indictment true, that the prosecutor detained the hall from the Trustees.

Reuben King, Sheriff, testified that the defendants were unwilling to act on the jury when summoned—that they were all summoned by him, and that they executed the judgment of the magistrate carefully, without damage to the house open, and after his going in, and commencing to move the furniture, that he again called on defendants to aid him in so doing—that the prosecutor and his family were present and made no objections—that he heard no threats made by the defendants—that no damage was done to anything except spilling about a half pint of flour—that no one acted but those summoned—that they were all there by the strong arm of the law.

The Act of the Legislature of 1840-'41 incorporating "Floral College" was then read, and the books of the Company introduced to prove that the Stockholders accepted the Charter as granted, and also to prove, that the persons who acted for the Trustees in getting out the warrant against the prosecutor were authorized by them to act as they had done.

Without any argument on either side, his Honor was of opinion that the evidence did not establish a lease or renting so as to vest in Watson the exclusive possession of the "Steward's Hall" for his benefit, and being of opinion that the evidence did establish the fact that he went into possession of the premises to keep the Steward's hall for the accommodation of the teachers and scholars, and that the Trustees reserved a supervision and control over all the premises, it follows that the possession of Watson was the possession of the Trustees, and they had a right to enter and remove him at any time, provided that in so doing they committed no breach of the peace.—That he was unable to distinguish this case from the case of the State vs. Curtis, in which the Supreme Court held the law to be as he ruled in this case.

THE TRIAL OF THE AGENTS OF GREAT BRITAIN for enlisting soldiers in this country for the English army has elicited the fact that the British Minister at Washington, Mr. Crampton, had a good deal to do with the matter. It is thought our government will demand the recall of Mr Crampton by his government.

PECULIAR TASTE.—The Meacon (Ga.) Telegraph says that a know-nothing orator, Col. Jas. Milner, in that neighborhood, declared from the stump, that he would rather vote for the negro, Fred Douglas, than vote for the democratic candidate for Congress in that District. He's a nice man to enunciate the principles of the "American party" humbug! There's no accounting for tastes sometimes.

THE COTTON CROP.—The New York Price Current contains its usual annual statement of the cotton crop. The total receipts at the various ports of the United States are 2,817,339 bales, against 2,939,027 for the previous year. We annex a comparative statement for four years:

THE RUSSIAN FLEET DESTROYED AT SEBASTOPOL.—If the accounts given by the allies be true, the Russian naval force destroyed at Sebastopol to prevent its falling into the hands of the enemy, must have been superior in number of vessels and fully equal in guns to the whole Navy of the United States. 17 ships of the line; 4 sixty gun frigates; 4 corvettes; 12 steamships; and 82 ships of inferior rank; all in 119 vessels, with considerably over two thousands guns.
