and a gallon of whiskey." and you are just as able. Brother Gibbin, as I soon become accustomed to it; they cannot cure am to support the gospel."

Cause of Epidemics

VOLUME XVIII—NO. 897.

MESSRS. EDITORS: Gentlemen-As there is much speculation in regard to yellow fever, and as much as has been said, and much more "Forger Land Warrants. - Despatches from will be said, we may venture to state the cause brought about by the same general cause. We are requested to state that this rumor Fevers in general are caused by congestion or economy of the system, and produce a similar effect upon the other organs, which will be FILLMORE AND GREND,—With strict regard shown in a natural chemical action called for the fitness of things characteristic of the fever. The different types depend upon the place of a chemical character-an acton upon Grund says, writing from Rome and in the the part of the system to throw off the foreign

Many animals live upon the small insects of the atmosphere,-the martin, swallow, fern, STEAM-POWER ECLIPSED .- The London Morn- owl, or whipperwill, and a host of others live ingCrhonicle announces an important discovery. upon the wing. They get their food from the fly hovering over the water, within one inch In the summer season, when we have such a large amount of vegetable matter, and when it decomposes especially, it gives out animalcules. mersed in water-water having its parts (8) eight oxygen, and (1) one hydrogen-the at-Although with some it may be thought other compounds exist in the two prominent gases of the air, poper with exite, is certain, as practi eally demonstrated every day. When decom-Courting Wipows .- An exchange paper, the position goes on in the vegetable kingdom, in innumerable quantity of matter which is called "For the other half of a courting match, malara, but by the speculator of physical science

the coffin fourteen days, when open it will be found to contain millions of larvae-but if the COTTON SUPERSEDED BY SILK .- The Paris patient should die in our climate in November to March, by examining in fourteen days it "We hail with delight the announcement will be found only to be returning to its native immense quantities. I have seen several yards it will necessarily bring down the pure air from procuring silk will at once be adopted in all to be kept up on the skin so as to throw the countries, as the mulberry can be grown in any matter off. As to the sanitary measures that should be used, they should be stringent; all vegetable matter that may be in the streets A NICE FAMILY.—We clip the following from | should be removed; committees should be ap pointed in each ward to visit the premises of all "A Mrs Sarah Coarson eloped recently from property in the city; and if the offal be taken
