April 24, 1856 THE FLOATING BALLS OR KNUCKLE WASHING MACHINE.

The subscriber having purchased the Right of th above Machine for the Counties of Cumberland and Harnett, is now ready to furnish such as may be desirous of obtaining a Right. The machine is simple both in its structure and operations, and should any portion of it fail, can be easily and speedily repaired by any person having the use of tools. I do not claim for this machine more than what it is able to perform with that description of labor which almost every family is able to supply, without at all interfering with the ordinary duties. In the first place a child 12 or 15 years of age can perform all the labor, after RALEIGH & FAYETTEVILLE having seen it operate a few times, and if the directions are adhered to, will do as much work in one day as three or four women in the ordinary way, and the work will be much better done. Below will be found

a certificate from those who have purchased and now have in use one of these machines ISHAM BLAKE. 93-tf

Every Can warranted to seal. We have received, through the hands of a friend, as a present. a can of tomatoes, which he tells us was prepared last summer according to the plan recommended by Dr. Arthur. The Can is one of his patent and, having opened it without difficulty by pursuing his instructions, we found this delightful vegetable possessing all the rich flavor which belongs to it when first taken from its vines. It is the first of Arthur's patent Cans for preserving fruit and vegetables that we have seen. Nothing can be more simple; and, judging from the specimen of its efficiency in accomplishing all that it promises, we do not hesitate to recommend the invention to honsekeepers,-National

Intelligencer of Friday. 15th June. 1855. Every variety of summer fruit was put up in these cans in our family last season and we now have strawberries, raspberries, plums, cherries, blackberries peaches, tomatoes; &c., as fresh as when sealed up. These are, indeed, luxuries, and may be secured by every one at a small cost .- Arthur's Home Magazine We have in our family a variety of fruit preserved in these cans, which we used through the winter with great satisfaction, and which our visiting friends pronounce as fresh as if they had just been gathered .-Philadelphia Merchant.
