THE FLOATING BALLS OR KNUCKLE WASHING MACHINE.

The subscriber having purchased the Right of the above Machine for the Counties of Cumberland and Harnett, is now ready to furnish such as may be lesirous of obtaining a Right. The machine is simple. oth in its structure and operations, and should any portion of it fail, can be easily and speedily repaired by any person having the use of tools. I do not claim or this machine more than what it is able to perform with that description of labor which almost every family is able to supply, without at all interfering with the ordinary duties. In the first place a child 12 or 15 years of age can perform all the labor, after having seen it operate a few times, and if the directions are adhered to, will do as much work in one day as three or four women in the ordinary way, and the work will be much better done. Below will be found a certificate from those who have purchased and now have in use one of these machines

ISHAM BLAKE. April 12, 1856. 93-1f

FAYETTEVILLE, N. C., April 9, 1856. We, the undersigned, having purchased of Mr Isham Blake one of the above machines, cordially recommend it to the favor of the Public. It washes very rapidly and the work is much better done than is usually don in the old way, and with less wear to the Clothing N. C., or confining him in any Jail in the State where It far exceeds our expectations, and has only to be seen in operation to satisfy the most skeptical of its utility and economy. We have no doubt of its being generally used wherever introduced. JNO. D. WILLIAMS,

We in company with several other gentlemen, saw a four dollar bill which was very dirty and much defaced, put in and washed out by this machine, re-moving all the dirty appearance of the bill, and leaving it perfectly legible, which shows there is little or no rubbing produced in washing fine articles. FAYETTEVILLE, N. C. "SMALL SWEET COURTESIES OF LIFE."-We commend the following as worthy the attention

of the fairer part of our readers: Extract from a letter of the late Wm. Wirt tq his Daughter.

"I want to fell you a secret. The way to make your of pleasing to others, is to show that you care for them. The whole world is like the miller at Mansfield, 'who cared for nobody-no, not he-because nobody cared for

him.' And the whole world will serve you so, if you give them the same cause. Let every out, therefore, see that you do care for them, 15-Paints, oils, by showing them what Sterne so happily calls and glass 'the small sweet courtesies of life'—those courtesies in which there is no parade, whose voice is too still to tease, and which manifest themselves by tender and affectionate looks and little kind acts of attention-giving others the preference in every little enjoyment at the table, in the field, walking, sitting or standing .- This s the spirit that gives to your time of life, and to your sex its sweetest charms. It constitutes the sum total of all the witchcraft of woman, Let the world see that your first care is for vourself, and you spread the solitude of the Upas tree around you, in the same way, by the emanation of a poison which kills all the juices of affection in its neighborhood. Such a girl may be admired for her understanding and accomplishments, but she will never be beloved.

The seeds of love can never grow but under the warm and genial influence of kind feelings and affectionate manners. Vivacity goes a great way in young persons. It calls attention to her who displays it; and if it then be found associated with a generous sensibility, its exeention is irresistable. On the contrary, if it be found in alliance

heart that feels for you all the anxiety that a parent can feel, and not without this hope ness. May God protect and bless you.

Your affectionate father, WM. WIRT.

PACKING EGGS TO KEEP .- One of the best ways of packing eggs to keep long, is to pack It is to be provided in the contract, and to be distinctly understood by the bidders, that the amount diameter perpendicular, set them in a cool dry and number of articles enumerated in classes headed place and turn the boxes over as often as once 'miscellaneous" are specified as the probable quantity in two days. Try it, but do not set the boxes which may be required, as well as to fix data for where they will be forgotten and the turning determining the lowest bid; but the contractor is to neglected. Where this attention would be too great an inconvenience, it will be found to anwith lime-water made by pouring water upon quick-lime and letting it stand a day or two covered; it may be decanted without great care to pour it off clear. The lime deposits from the solution upon and in the pores of the shell and keeps the eggs perfectly sweet for a long time, even though the yolk settles down upon one side against the shell.

A READING PEOPLE.—Yesterday morning we counted, in the cabins of one of the Brooklyn ferry boats, ninty-six gentlemen, (all in fact who were there,) and out of that number seventy-two had papers reading. Now, we will venture the assertion the same proportion of reading travellers, men who were determined to read as they ran, cannot be counted on any like occasion the world over. We have had an opportunity to know a little of the character of the English and French in their daily business railroad and steamer excursions, and never witnessed anything like the sight. But it might have been produced partly by the cheapness of our papers, yet we are the greatest newspaper

readers on the globe; no doubt of that. AN HONEST FLAG .- An old Californian arrived in San Francisco, the other day, fresh from the mines, and dropped in at a Republican Club Meeting. A patriotic individual had the

floor, and among other good things said, "we

go in for free speech, free soil, and Fremont!" "----n your free monte," said the miner, getting up in disgust, "that's what broke me the last time I was in San Francisco." He soon brought up at a Democratic Club, and looked in to see what was the row. Over the president's chair was a banner, with an inscription painted on it. "Luck and Breck" read the green one. "Well, that's honest, anyhow," said he. "If that flag had been hung up when I was here last, I never would have bucked agin the tiger in the world."- True Californian.
