THE PLOATING BALLS OR KNUCKLE WASHING MACHINE.

The subscriber having purchased the Right of the above Machine for the Countles of Cumberland and Harnett, is now ready to furnish such as may beestrous of obtaining a Right. The machine is simple. both in its structure and operations, and should any portion of it fail, can be easily and speedily repaired by any person having the use of tools. I do not claim for this machine more than what it is able to perform with that description of labor which almost every family is able to supply, without at all interfering with the ordinary duties. In the first place a child 24,861 prizes amounting to 12 or 15 years of age can perform all the labor, after having seen it operate a few times, and if the directions are adhered to, will do as much work in one day as three or four women in the ordinary way, and the work will be much better done. Below will be found a certificate from those who have purchased and now
