It was expressly stipulated in the last appropriation, that the state bonds should not be sold for less than par; that the credit of the State should not be impaired by hawking about her bonds at a discount. How artful was the dodge that evaded the terms of this contract? Seventy eight thousand dollars in cash, and 1 or 2 unwieldly boats that can't pass the lock in 40 feet water, are taken in exchange for $100,000of bonds, sold nominally at par, but in reality at a discount of 20 per cent,

How can intelligent men listen to any proposition for more money to squander in this mad, visionary scheme? How can they impose further taxation upon the people for another appropriation. How long will they submit to this imposition and outrage?

Will they continue the waste of the State funds; allow these inroads upon its revenues, until all the resources of the State are diverted and flow into the channel of Cape Fear River?

Will they consider, or adopt the report of parties that 8 years ago declared an undertaking feasible at a cost of $185,000, that is sure to cost at least millions? In the name of sense and justice is this farce to be repeated with all the facts known to the Legislature! Will they suffer themselves to be duped with another appropriation to this reckless adventure? Surely not. Suppose they have *appropriated*, SPENT, LOST, $500,000; must they spend, appropriate and lose millions more, which will be the result before "finis" is written about their operations, should the legislature coutinue this profitless job?

The exploration party which was to examine and report upon the *condition* of the creeks and dams in Cape Fear and Deep River, availing themselves of a freshet in the stream, came through at the rate of 80 miles a day, taking the precaution however, to send runners and workmen ahead, a week in advance,to mend and patch up the gates sufficiently to enable them to creep through the locks and *report*. Eighty miles in short winter days would leave precious little time to examine the locks and dams on the route. But the State "is in for it;" and guessing is as good as figures.

But notwithstanding all this foresight, the last dam presented an insurmountable obsticle, and not even a reward of $25 to a workman to dive down and replace the dilapidated gate on its hinges, could effect their passage through. And in the mud and darkness they disembarked, and walked through the woods to Fayetteville.

Would it not be an excellent plan to employ a good diver at each dam, for the purpose spoken of above, to keep the gates on their hinges, and a force to secure the drifting wrecks, which follow the "unprecedented" rise in the waters of the Cape Fear and Deep Rivers?

In the report of Major Thompson in 1852, it is stated, that the work was exceedingly popular and growing in public admiration. We venture to say, that no man cognizant of the affairs of the company, who is not interested as a stockholder, contractor, or creditor can be identified as a friend of the work; and even in Chatham county, the terminus of this work and the repository of all this mineral wealth, to become an avenue to greatness and importance, 2000 petitioners could be got, entreating for a discontinuance of this project, which is preying upon the vitals of North Carolina.

Yes, in Chatham Co., where the people are most familiar with the merits of the work, the popular sentiment is stronger against it, than in the town of Fayetteville or any where else.

Appended to this article are a number of the provisions contained in the charter of this company, and as unprecedented as the fact may be, not one of these provisions, as far as we can learn, have been observed nor any of the specifications executed in good faith according to pledges. If a corporate body, say a Bank, departs from the requirements of its charter, its issue is no longer a legal tender, and its acts as a corporate body declared invalid. But this little liberty of the Company must be excused on the strong ground of necessity. But have we not said enough to awaken the people to the importance of puttting the seal of condemnation upon this work? We have simply done our duty in this matter. We pay a heavy share of the State tax; we have a right to lift our voice against this drain upon the revenues of North Carolina;against this pilfering from the treasury the bond of our prosperity. We draw no parallell between this and the Railroad. We oppose it, road or no road. Our interest, our existance as a town demands it, and the prosperity of the State calls for unceasing and steady hostility to the work.

1848—'49. CHAPTER XCI.

Whereas, the navigation of the Cape Fear and Deep Rivers above Fayetteville, and as far up the same as is practicable, would be of important public utility, and many persons are willing to subscribe monies to effect the work; &c., &c.

The first section provides for the opening of Books and receiving subscriptions to the amount *not exceeding* 200,000, in shares of $100 each, for the purpose of effecting a communication by steam boats, from some point on or near Waddill's ferry, in Randolph county, to Fayetteville, and for providing every thing necessary and convenient for the purpose of transportation.

The fourth section provides that "there shall be paid at the time of subscribing &c., the sum of *two dollars* on every share subscribed, and the residue thereof in such instalments &c, as may be required.

Section ninth provides that if any Stock holder shall fail to pay the sum required of him by the President and Directors, within one month after the same shall have been advertised in one of the newspapers published in the town of Fayetteville, it shall *be lawful* for the President and Directors *to sell at public auction* &c, the share or shares of such Stockholders so refusing, and if the sale is not sufficient to satisfy the demands of the Company, then the President and Directors may recover the balance due, of the original proprietor or his assignee or the executor or administrator, or either of them, &c.

Section 22 authorizes the President and Directors, or a majority of them, to purchase with the funds of the company, and place on the river, which shall have been improved, boats of any description whatever.

Supplemental Act. CHAPTER XCII. 1848–49.

Section 1. That whenever it shall be made to appear to the Governor of the State of N. C., by a certificate under the corporate seal of the Cape Fear and Deep River Navigation Company, signed by the Treasurer, and countersigned by the President, that $60,000 of the capital stock of said company have been subscribed for and taken by individuals or corporations, and $30,000 have actually been paid into the hands of the said Treasurer, and that the remainder of said subscription is either so paid, or is made by solvent persons fully able to pay, and the Governor of the State shall be satisfied of the truth thereof, he shall be, and he is hereby authorised and required to subscribe on behalf of the State the sum of $40,000; $20,000 of each subscription to be paid at the term of subscription, out of any money that may at the time be in the Treasury. And the Treasurer of North Carolina is hereby authorised and required to pay over the same.

Section 2. And the said Governor is authorised and required to subscribe, and the said Treasurer to pay on the part of the State as follows—that is to say: Whenever the Company shall subscribe and pay into the hands of the Treasurer of the Company $30,000, the Governor shall subscribe, and the Treasurer of the State shall pay into the hands of the Treasurer of the Company $30,000, and they shall continue to subscribe and pay in, in that proportion, until the whole capital stock shall have been subscribed for, and paid in; that is to say: $120,000 on the part of individuals, and $80,000 on the part of the State.

Section 5 provides that no part of the money authorised to be subscribed by the State in said Company by this act shall be paid until the contractors shall give bond and security, to be approved of by the Governor and Attorney General of the State, to the Treasurer of said Company, conditional for the faithful performance of said improvement, and to indemnify and save harmless, the State of North Carolina from any loss that the State may incur, by reason of the failure of the contractors to complete said improvement for the sum of $200,000.

In 1852. An act is passed—Chapter LXXXIII, to increase the capital of the company to $350,000, because they say their present capital "has been found insufficient to complete the improvements contemplated, &c."

Section 2 authorizes theGovernor to subscribe on behalf of the State $80,000; and the sums of $40,000 shall and may be subscribed in the first instance, by individuals. &c.

Section 3 Provides that whenever it shall be certified by the President of said Company, under the corporate seal of the same, and countersigned by the Treasurer thereof, that the sum of $20,000 has been subscribed by individuals, and paid into the Treasury of said Company *as part of the additional stock subscribed under the act*, the Treasurer of the State, is hereby authorised and required to pay to the Treasurer of said Company, the sum of $40,000 as an instaltment on the stock subscribed on behalf of the State as hereinbefore directed, and whenever it shall be certified in like manner, that the further sum of $10,000 has been subscribed and paid in, as aforesaid on behalf of individuals, the Treasurer of the State is hereby authorised and required to pay as aforesaid the further sum of $20,000; and that whenever it shall be certified in like manner that *an additional sum of* $10,000 has been subscribed and paid in as aforesaid, by individuals, the Treasurer of the State is hereby authorised and required to pay as aforesaid, the remaining sum of $20,000.

Section 7th, Expressly provides "that no portion of the money herein authorized to be subscribed on the part of the state shall be paid until the *entire* work yet to be done shall have been taken by contractors, and bond and good security by persons resident in this state, payable to the State of N. C. for the faithful execution and completion of the entire work for the additional sum of $150,000 never before authorized to be raised, shall be given, to be approved by the Governor and the Attorney General.

Section 8th States how, and in what part of the work the money appropriated by this act shall be expended. First on the Cross Creek lock and and dam until that is finished; then on the lock and dam at Jones' falls, until that is finished; then on the Silver run lock and dam until that is finished; then on Red rock lock and dam until that is finished, and the other locks and dams; along Cape Fear and Deep River *until* the whole shall have been accomplished, and that the Treasurer shall not pay over the second instalment provided for in this act, to be subscribed and paid by the Treasurers of the State, until evidence shall have been adduced to the satisfaction of the Governor and Treasurer that the money appropriated by this act has been expended as provided for in this section.

1854-'55—An act is passed, chapter 5, authorizing the Cape Fear and Deep River Navigation Company to issue bonds, payable to the Public Treasurer of the State of N. C., for the sum of $300.000 (with coupons for interest attached and bearing six per cent interest, which the Treasurer is to endorse on behalf the State.

Section 3, makes it the duty of the Public Treasurer on the endorsement being made as before directed. and the bonds being numbered and recorded, and the mortgage as heretofore directed being made and delivered to the Governor of the State, to deliver the same (the bonds) to the President and Directors of said Cape Fear and Deep River Co.

Section 6, Says that whenever the President and Directors shall make, execute and deliver to the Governor of the state, for, and in behalf of the State a deed of mortgage under the seal of said company, wherein and whereby, shall be conveyed to the said Governor and his successors in office, for the use and benefit of the state, all the estate, real and personal, belonging or that may hereafter belong to the Cape Fear and Deep River navigation company, or in any manner pertaining or that may pertain to the same, conditional for indemnifying, and saving harmless the State of N. C from the payment of the whole or any part of the bonds hereby authorized to be made and issued, and shall also make, execute and deliver under the seal of said company, to the Governor for the use and benefit of the State, a pledge of so much of the profits of said company as shall be sufficient to pay semi-annually the interest which may accrue on said bonds until the final payment and redemption of the principal of said bonds and all interest which said deed of mortgage and pledge shall be approved by the Governor and Attorney General of the state, then it shall be the duty of the Public Treasurer & he is hereby required to deliver to the President & Directors of said company the whole of said bonds &c. &c.

Section 8. Provides that the Bonds authorized to be executed and paid by this act shall not be sold or disposed of by said company below par value.

Section 9. Increases the capital stock to $1,000,000 which stock shall be payable in cash or bonds secured by not less than two good substantial securities payable to said company, and the interest on which shall not be less than six percent per annum payable semi-annually on the 1st days of June and 1st December of each year, and the interest due thereon shall be applied in payment of the interest on the bonds authorized to be issued and endorsed by the first section of this act.

Section 10. Directs that the President and Directors *shall call a general meeting of the stockholders of the Cape Fear and Deep River Navigation Co.*,and the said company *shall signify its acceptance of the provisions of this act, by a resolution subscribed by the members thereof*, signifying their acceptance thereof, *and authorizing deeds of mortgage and pledge to be executed* as prescribed by this act for the purpose therein *specified* and for such purposes specified in this act for the purpose *of indemnifying the state of N. C. from obligations by reason of her endorsements* as aforesaid of the bonds aforesaid, &c.

Now, we ask, has the Cape Fear and Deep River Co complied with the several conditions placed by the General Assembly in these several acts to guard and protect the interests of the State from loss?

Was the requirement in the first section of the supplemental bill of 1848, in reference to the individual subscription ever made? Have they ever paid in the $120,000?

Did the contractors under the fourth section, give the bond and security therein demanded, before any part of the money was paid? If they did, why have they not been enforced? The bonds were for the faithful performance of said improvement and to complete it for $200,000.

Under the act of 1852, was there any additional individual subscription of $40,000 as required in section 3, and was it paid in, as was contemplated in said section?

Look at the 7th section of the act 1852, It is full and explicit! Were its terms complied with?

The 8th Section was to be a check on the company held by the Governor and Treasurer. Was the work begun at Cross Creek lock and dams and finished as provided for in this section?

But we call attention to the act of 1854—still fresh in our minds—Were its terms complied with.

The 10th Section directs a meeting of the Stockholders to be called to signify their acceptance of the provisions of the act of that year. This was done: for in the President's report he says that the meeting was held at Wilmington and that they accepted the terms.

Congress has been busy doing nothing for a week and we hope it will continue to do so until purged of Black Republicanism.

A resolution to ajourn on the 26th was carried in both Houses of the Legislature.

The municipal election for Mayor and Commissioners was carried by an overwhelming majority on Monday last in favour of the Know Nothings, two Democrats voting. This important victory is the result of the only virtuous principle in know Nothing politics to wit, *that office should seek the man and not man the office*—The following is the ticket.

THE COLLINS LINE.—We learn that since the Government has decided to reduce the pay, the Company has resolved to *reduce their rate of speed*, thereby avoiding an increased ratio of wear and tear, diminishing the consumption of fuel, and lessening the size of the crews,—arguing that if the Government cannot afford to pay for great speed, private individuals cannot do it. The greater economy of the new arrangement is apparent from the fact, that the average consumption of coal per day at high speed, is eighty-five tones; at low speed, fifty-five tons This is a differerence of $4000 per voyage, and it is calculated that the saving in wear and rear of machinery will equal this amount; so that the total saqing on twenty-six round trips, as required by contract will exceed $200,000 per annum or more than compensate for the loss of pay. It is claimed that there is nothing in the contract binding as to speed, but simply that the vessels "shall be built for high speed."—*Journal of Commerce.*

B. Freeman & Co. vs. Malcom Barter.
Attachment Levy on Land.

Judgment nisi for nineteen dollars and twenty cents and interest since the first Jan'y 1855, and costs.

It appearing to the satisfaction of the Court, upon affidavit filed by the plaintiffs, that the defendant Malcom Barter is not an inhabitant of this State or so absconds or conceals himself that the ordinary process of law cannot be served on him, and William J. Brown, Constable, returned into Court at this term an attachment against the said Malcom Barter with the following endorsement to wit: "Levied this attachment on the legal and equitable interest in and to a tract of Land supposed to contain ninety-seven acres more or less, as the lands of Malcom Barter, joining the lands of Daniel McMillan, Mary Graig and others, on Richland Swamp, about one mile from Philadelphus Church, this 8th November 1856." It is therefore on motion ordered by the Court that publication be made in the North Carolinian, a newspaper printed in the town of Fayetteville, for six weeks successively, notifying the said defendant to be and appear before the Justices of the next Court of Pleas and Quarter Sessions, to be held for the county of Robeson at the Court House in Lumberton on the fourth Monday of February next, then and there to show cause, if any he can, why judgment final should not be entered against him and the lands levied on condemned to be sold to satisfy the plaintiffs demand and costs.

Witness, Shadrach Howell, Clerk of our said Court, at office in Lumberton, the fourth Monday of November, A. D. 1856, and of American Independence the 81st year. Issued the 27th day of December 1856.

Court of Pleas and Quarter Sessions—November Term, 1856.

Dr. H. McLean, vs. Malcom Baxter.
Attachment Levy on Land.

Judgment nisi for Sixty dollars and interest from 22 December 1854 and costs.

It appearing to the satisfaction of the Court upon affidavit filed by the Plaintiff that the Defendant Malcom Baxter is not inhabitant of this State or so absconds or conceals himself that the ordinary process of law cannot be served upon him—and William J. Brown Constable returned into Court at this term an attachment against the said Malcom Baxter with the following endorsement to wit: Levied on a tract of Land, containing Ninety-seven acres more or less as the property of Malcom Baxter, lying on the waters of Richland Swamp about one mile from Philadelphus Church, and joins the lands of Daniel McMillan, Mary Graig and others on the east side of said Swamp in Robeson County October 10th day 1856. It is therefore on motion, ordered by the Court, that publication be made in the North Carolinian, a newspaper printed in the town of Fayetteville, for six weeks successively, notifying the said defendant to be and appear before the Justices of the next Court of Pleas and Quarter Sessions to be held for the county of Robeson at the Court House in Lumberton, on the fourth Monday of February next, then and there to show cause, if any he can, why judgment final shall not be entered against him and the lands levied on condemned to be sold to satisfy the plaintiffs demand and costs.
