The Emancipation Convention.
This Convention has been in session several days in Cleveland, Ohio. As we expected, the body is made up of a set of amiable lunatics...

We take the above from the Petersburg Express of the 31st Aug. Our views exactly coincide with those of the Express. The men who compose that convention and all those who favor its object, we take to be a set of "amiable lunatics."

What a pity it is that those who are philanthropists do not turn their attention to the wretched, the poor, the maimed, the halt, the blind and to the miserable cases, in every way which infect the cities, the towns, the villages and in fact the whole country, in the limits of the Northern States.

A fine stalk of Chinese Sugar Cane measuring 13 feet in length, was presented to us last Friday by our friend C. T. Davis, who raised it in Bladen County in this State. If any of our readers hereabout can beat it we would like to have a peep at the stalk.

The London Times has the following comments on the effects of emancipation in West India Islands:
"The worthy men who extinguished slavery, and ruined our West India possessions, are very touchy, very obstinate, very incontrovertible on that tender point."

Wonder if the Mimics of the abolition stripe, or the amiable fanatic emancipators North, have ever read the above with their eyes open or shut? We rather suspect they throw aside such testimony, inasmuch as it does not suit their side of the question.

A DOCTOR'S LIFE.
The Nashville Journal of Medicine furnishes the reading public with a short but graphic sketch of the beauties and excellencies of "the profession." The doctors, however, have the means of revenge at hand. Why don't they salivate all the gossips? The Journal says:

The following are some of the sweets of a Doctor's life. If he visits a few of his customers when they are well, it is to get his dinner; if he don't do so, it is because he craves more of the fleece than the flock. If he goes to church regularly it is because he has nothing else to do; if he don't go, it is because he has no respect for the Sabbath or religion.

The breaking of the Sub-marine Tele. graph cable while being laid last week will be a loss of over \$100,000 to the government. A stiff gale was blowing at the time and the sea was very rough, while at the same time a strong under current was bearing transversely upon the cable.

Deferred. - Owing to too late an arrival of his article, our Agotaras correspondent must excuse the delay in the publication of his communication. His letter from this celebrated watering place will greatly interest our readers as well as prove highly advantageous to our young subscribers in their moral tone.

Where lies the blame! - The following is by no means the first letter of the sort we have received, and we are actually becoming serious losers by some mail mismanagement for which we cannot account. The fault does not lie with us nor the Post-master in this place, and our subscriber is doubtless right when he attributes it to "detention on the route."

Equality of Whites and Negroes.
In Iowa, in submitting the new constitution, the question of equality of whites and negroes as to political privileges was submitted to the people. Nearly the whole vote of the State was against the assumed equality. After all the pretences of black-republicanism in favor of negro equality, nearly the whole party voted against it.

The British War with China!
The Washington Union says: "The great mutiny in India has, in a measure, withdrawn public attention, on both sides of the Atlantic, from the war now waging in China, and which appears to be conducted in a way hitherto unknown to and unpractised by 'outside barbarians' in that distant quarter of the globe."

The Iowa Constitution.
We copy the following from the Washington Union: "The official reports (says the Chicago Times of Friday) from Iowa of the vote on the adoption of the new constitution which the reported majorities both for and against the constitution into nothing. Up to last night we have reports from sixty counties official, and all the rest of the state except the counties of Butler, Carroll, Montgomery, and Wright. Mitchell county is reported two ways—one that the constitution has 161 majority, the other that the county gave 60 against the constitution."

Majority against.
The Koukab Post, which is favor of the constitution, has reports that Mitchell gives 60 and Montgomery 17 for the constitution. The vote is so exceedingly close that, until the entire official vote is known, the result must remain in doubt.

From Washington.
WASHINGTON, Aug. 31.—The Treasury Department has just paid between two and three hundred thousand dollars to the State of Maryland, as the interest on the \$500,000 to which the United States had been indebted to that State during the war of 1812. The principal was discharged between the years 1812 and 1832.

Captain Hudson, commanding the United States steamer Niagara, in communicating to the Navy Department the particulars in regard to the accident to the telegraph cable, says he has every reason to believe, from what has thus far been experienced in wire laying, that under ordinary circumstances of weather and with machinery adapted to the purpose—for such as they had on board requires altering and improving—the cable may be laid in safety on the track marked for it in the Atlantic ocean.

Willhelm Docksell has been recognized by the President as consul for the Grand Duchy of Hesse Darmstadt for Maryland and North and South Carolina, to reside in Baltimore.

A CHAPTER ON MATHINITY.
A young lady out West, in a communication to the Sautucky Register upon the subject of matrimony, says:

It is a mournful fact that this world is full of young men who want to marry, but dare not. Deny this, as some will, it is nevertheless true, as we can easily show. In this town for instance, there are some thirty or forty young men, well-to-do in the way of business and salaries, yet they refuse to take the step which they all want to take, but do not. Why? The large majority of them have salaries ranging from five to six hundred dollars per year.

But, says some good woman, you do us injustice; for any woman that truly loves a man will adapt herself to his circumstances with the greatest ease. But what man of any sensitiveness, or high sense of honor, would take a woman from easy circumstances, and a pleasant and well-furnished home, to adorn his four little rooms, and to do his house-work, as the first principles of economy would demand of him? Few will do it; for though the woman signifies her willingness to take up with such experience, we are all such creatures of circumstances, that there would be complaints on the part of the husband, if she were to do so.

In this town, on the 21st ult. Mrs Mary W. MARSH, consort of J. F. Marsh, and daughter of John B. and Nancy Troy, of Randolph county, N. C. aged 32 years, died on the 21st day.

A PRESENT FOR PRESIDENT BUCHANAN.—A singular marked case, of Oregon growth, most ingeniously carved with a penknife, is to be presented to President Buchanan, by several of the citizens of Covallis, Oregon Territory. It is mounted with appropriate inscriptions, and is venomous serpent, designed to represent the Republican party. It is in the act of seizing the Constitution, which is supported and defended by a hand supposed to be that of Mr Buchanan.—Advertiser and Gazette.

"Eternity has no grey hairs!"—The flowers fade, the heart withers, man grows old and dies; the world lies down in the sepulchre of ages, but time writes no wrinkles on the brow of eternity.

Earth has its beauties, but time shrouds them for the grave; its honors, they are but the sunshine of an hour; its palaces, they are but as the gilded sequoias; its possessions, they are toys of changing fortune; its pleasures, they are but bursting bubbles. Not so in the undimmed bourne.

In the dwelling of the Almighty, can come no footsteps of decay. Its days will know no darkening—eternal splendors forbid the approach of night. Its fountains will never fail; they are fresh from the eternal throne. Its glory will never wane, for there is the ever-present God. His harmonies will never cease; his manna never supplies the song.

CAN BEHNS BE CURED.
We think the following letter from a respectable citizen of Mississippi will answer the question, and remove all doubts from every unbiassed mind.

Dr. Seth S. Hance, Baltimore, Md.—Dear Sir, I take great pleasure in relating a case of palsy or its cured by your invaluable Pills. My brother J. A. Ligon, has long been afflicted with this awful disease. He was first attacked while quite young. He would have one or two spasms at one attack at first but as he grew older, they seemed to increase likewise. Up to the time he commenced taking your Pills he had been very often and quite severe, prostrating his body and mind. His mind had suffered seriously; but now I am happy to say he is cured of those fits. He has enjoyed his health for the last five months past. His mind has also returned to its original brightness. All this I take great pleasure in communicating, as it may be the means of directing others to the remedy that will cure them. Yours respectfully, W. P. LIGON.

No person who is suffering from Fits, or Spasms, should neglect sending for Hance's Pills, after this for the following: one box \$3; two, 5; twelve \$24—sent by mail free on the receipt of a remittance. Address: Seth S. Hance, 108 Baltimore, Md.

A BOLLANDER'S TESTIMONY.
Jacob Rinkens, living in the Holland settlement of Sheboygan, Wisconsin, says: "After suffering for some time the misery attending an over-prostration of mind and body, I have been restored by using Beecher's 'Holland' Bitters, to perfect health."

The fact of this remedy being in such high repute among the Hollanders in Wisconsin, Michigan, New York, is fact in every Holland settlement in the United States argues much in its favor.
