#### DOBBIN HOUSE! POWERS & CO., Proprietors.

The Proprieters of this Establishment announce to the public, that owing to the constantly increasing patronage extended to them, they have been induced to enlarge the accommodation by the addition of an extensive Dining Room on the lower floor, and suite of Rooms on the second floor; thus enabling them to accommodate all who may favor them with a call. And they pledge themselves to an increased exertion to give satisfaction

Spacious Stables attached and careful Ostlers in attendance. The cligible location of the Establishment, with the experience of the Proprietors in providing for the comfort of their patrons, they hope will secure to them a liberal share of the travel.

The Western and Southern Stages arrive at and depart from this House. Carriages in attendance on arrival and departure of Steam Boats, for the accommodation of passengers. Horses and Carriages furnished at any notice for carrying travellers to any part of the adjacent country.

J. W. POWERS. & CO.

# Fayetteville, May 12, 1856.

Also another tract containing 4000 acres of turpentine land, about 100 acres of which is cleared.—There is on this tract one good dwelling with all necessary out houses and a good grist and saw mill.

Inhalation in Consumption.

bring it to the knowledge of such as may be laboring under or predisposed to such affections. The dawn of a brighter day has at length arrived for the Consumptive; the doctrine of the incurability of consump tion having at tength passed away. We have indubitable proofs in our possession that Consumption in all its stages can be cured! in the first, by tubercular absorption; in the second, by the treustormations of the tubercule into chalky and calcareous concretions. in the third by cicatrices, or scars. Those wedded to the opinions of the past may assert, that even now, consumption is incurable, such are behind the age. To all, this great truth must be apparent, viz: that the medicines inhaled in the form of vapor or Powder d.rectly into the Lungs, must be much more effective than that taken into the Stomach, where the disease does not exist. The advantage of inhalation in Consumption and Throat diseases is, that medicine in the form of Vapor is applied directly to the Lungs, where the disease exists; the stomach is thus left free to aid in restoring health, by administering to it a healthy, lifegiving food.—There is no case so hop less that Inhanation will not reach! The means, too, are brought within the reach of all, the manner of administering the Vapors being so simple that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the physician's

efforts.

The Inhalation method is soothing, safe and ready and consists in the administration of medicine in such volutionize the opinions of the medical world and tage stamp to ensure an answer.

I earnestly appeal to the common sense of all afflicted with Luag diseases, to embrace at once the advantage of Inhalation, and no longer apply medicine to the auoffending stomach. I claim for Inhalation a place amongst the priceless gitts that nature and art hath given us. that "our day may be long in the land," and as the only ark of safety for the consumptive; a method not only rational, but simple and effi-cacious. Such of the profession that have adopted Inhalation have found it efficacious in the highest degree, arresting the progress of the disease and working wonders in many desperate cases. in verdity, a signal triumph of our art over this feil destroyer of

opinion I entertain of fir Moseley as a surgeon and hysician, I deem it my duty to unation the case of my wife, hoping at the same time that all persons similarly afflicted may be benefitted by it. In the fore part of this year, my wife had several small lumps to make their appearance in her breast; they continued to increase in size, until the whole breast became a diseased mass, and very painful. I procured the best med cal sid in the city of Rome, and notwithstanding he carnest and faithful attention of the most skilful hysicians, she continued to grow worse and worse until they gave the case up as incurable, and advised amputation. I was advised by many of my friends, to visit Dr. W. R. Moseley, of Griffin, Ga., which I did, and, astonishing as it may seem, he had her entirely cured within one month! and she is now in good health!! I would advise all who are afflicted with Scirrhus and Cancerous affections, to visit the Doctor with-out telay, as I am satisfied by experience and obser-vation, that he is the most skilful physician in the Southern States, in the treatment of that horrible dis-WM.
