THE NORTH-CAROLINA AND MAGAZINE OF USEFUL INFORMATION.

The undersigned proposes to publish in the City of Raleigh, a semi-annual Journal, of the above title, devoted exclusively to the dissemination of statisticall information.

The want of such a Journal is felt by every intelligent citizen, who desires to become at all acquainted with the resources of the State, our present condition, future prospects, &c., and by none so much as by our Legislators.

That we have no regular system of statistics, cannot be attributed to any want of material. There are large amounts of valuable and interesting information scattered through our Legislative and Executive Documents and Records, which, in their present situation, for all practical purposes, might as well be in the Chinese language. Besides what our Legislative archives contain, our newspapers often publish valuable statistical information, which is either lost, or if preserved by a very few, is so incon- Among which are splendid DRESS GOODS, venient to find wher wanted, that the facts are Reports and Statements from time to time All of which, being purchased by the package made by our incorporated companies, and others be odered a halo ale or retail at a small of charged in Manufactures, Mines, Commerce for cash or on time to punctual currents. &c. To collect these various items of information, and give them to the public in a shape easy of reference and for perpetual preservation, as well as to gather from all available resour-

ces, everything bearing directly or indirectly on our wealth, prosperity and industry, is the design of the Journal now offered for public will be devoted to the arrangement of such Sixth. tables relating to our Population, Agriculture, Commerce, Education, Public Improvements, Manufactures, Fisheries, Mines, and Social Statistics generally, as will present their condition

and our progress in each. It is also designed to contain the Reports (condensed) of the Public Treasurer, Commissioners of the Sinking Fund, Superintendent of Common Schools, and all other State Officers and Boards; as also, Statements and Reports of the condition and progress of the vari-

ous Railroad and Navigation Companies. The Statist will be put to press as soon as a sufficient number of responsible names are obtained to pay the expenses of publication. The numbers will contain each, not less than 150 pages closely printed matter, making a book of 300 pages, or more, to which will be added a full and complete index.

TERMS:-THREE DOLLARS PER ANNUM-ONE DOLLAR AND FIFTY CENTS, for SIX MONTHS; payable when the first number is ready for publication, which fact will be duly announced in the public Newspapers. Those persons intending to patronize the

Journal, will send their names to the undersigned without delay, as it is desirable to issue the first number as soon as possible. QUENT. BUSBEE,

CAN EPILIPSY BE CURED We think the following letter from a respectable citizen of Mississippi will answer the question, and remove all doubts from every unbiased mind; GRENADA, Miss., June 5, 1855

Dr. Seth S. Hance, Baltimore Md .- Dear Sir: I take Dr. Seth S. Hance, Baltimore Md.—Dear Sir: I take great pleasure in relating a case of spasms or fits, cured by your liveliuable Pills. My brother J. J. Ligon, has long been afflicted with this awful disease. He was first attacked while quite young, He would have one or two spasms at one attack at first; but as he grew older, they seemed to increase likewise. Up to the time he commenced taking your Pills, he had them very often and quite severe, prostrating him body and mind. His mind had suffered seriously; but now; I am happy to say he is cured of those fits. He has enjoyed time health for the last five months past. His mind hasalso returned to its chiginal sprightliness. enjoyed fine health for the last five months past. His mind has also returned to its original sprightliness. All this I take great pleasure in communicating, as it may be the means of directing others to the remedy hat will cure them. Yours respectfully, &c. W. P. LIGON.

No person who is suffering from Fifs, or Spasms. should neglect sending to Dr Hance, after this for a supply of his inestimable medicine. If is prices are as follows: one box \$3; two 5, twelve \$24-sent by mail free on the receipt of e remittance. Address Seth S. Hance, 108 Baltimore, Md

PROSPCETUS

OF THE SOUTHERN LITERARY MESSENGER For the Year 1856. July to December.

TWENTY-THIRD VOLUME. In issuing the Prospectus of the Twenty-Third Volume of the SOUTHERN LITERARY MESSENGER, commencing with the July No., the Proprietors rely solely on the encouraging letters and promises of the friends of the Messenger to aid them in extending its circulation, and they beg to assure the public that no exertions will be remitted on their part to maintain the high character of the work, and to challenge the patronage of all who value sterling literary merit. For Twenty-One Years, the Messenger has endeavored to reflect faithfully the Southern mind, while disdaining all narrow and sectional views, and has been alone among the monthly periodicals of America, in defence of the PECULIAR INSTITUTIONS OF THE

SOUTHERN STATES. To this office it will be devoted, and will be prempt to repel assaults upon the South, whether they come rectly into the Lungs, must be much more effective under the specious garb of fiction, or in the direct form than that taken into the Stomach, where the disease of anti-slavery pamphlets. Inhalation in Consumption. BRONCHITIS, LARYNGITIS, and other Discases of the Chest and Throat, successfully treated by the Inhalation of Medicated Vapors and Powders, by absorption and constitutional treatment, as practised at the Stuyvesant Medical Institute, New

York City. The unprecedented success which has attended this method of treating diseases of the Lungs and Throat has induced us to depart from our usual course, and ourselves of the columns of the press, in order to bring it to the knowledge of such as may be laboring under or predisposed to such affections. The dawn of a brighter day has at length arrived for the Consumptive; the doctrine of the incurability of consumption having at length passed away. We have indubitable proofs in our possession that Consumption in all its stages can be cured! in the first, by tubercular absorption; in the second, by the trensformations of the tubercule into chalky and calcareous concretions, in the third by cicatrices, or scars. Those wedded to the opinions of the past may assert, that even now, consumption is incurable, such are behind the age. To all, this great truth must be apparent, viz: that the medicines inhaled in the form of vapor or Powder diwill surely not withhold their encouragement from a the disease exists; the stomach is thus left free to aid work whose aim it shall be to strike blows in their dein restoring health, by administering to it a healthy, lifegiving food .- There is no case so hopeless that In-The Messenger will, as heretofe, present its readers | haration will not reach! The means, too, are brought within the reach of all, the manner of administering the Vapors being so simple that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the physician's

The Inhalation method is soothing, safe and ready and consists in the administration of medicine in such abilities and references. Citizens know and avoid MESSENGER, the Proprietors though they intend manner, that they are conveyed into the Lungs in the form of vapor and produce their action at the seat of the disease. Its practical success is destined to revolutionize the opinions of the medical world and establish the entire curability of Consumption.

I carnestly appeal to the common sense of all offlic-ted with Lung diseases, to embrace at once the advan-tage of Inhalation, and no longer apply medicine to the unoffending stomach. I claim for Inhalation a place amongst the priceless gifts that nature and The Editorial and Critical department of the Mes- art hath given us, that "our day may be long in the land," and as the only ark of safety for the consumptive; a method not only rational, but simple and efficacious. Such of the profession that have adopted Inhalation have found it efficacions in the highest degree, arresting the progress of the disease and working wonders in many desperate cases, in verdity, a signal triumph of our art over this fell destroyer of our species.
