HOWARD ASSOCIATION PHILADELPHIA.

A Benevolent Institution, established by special en-dowment for the relief of the sick and distressed afflicted with Virulent and epidemic diseases

The Howard Association, in view of the awful des truction of human life, caused by Sexual diseases and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago difected their Consulting Surgeon, as a CHARI-TABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition. (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to farnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will farnish the most approved modern treatment.

The directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote them- GAITERS; INDIA-RUBBER SHOES, and every selves, with renewed zeal, to this very important but much despised cause.

THE NORTH-CAROLINA AND MAGAZINE OF USEFUL INFORMATION.

The undersigned proposes to publish in the City of Raleigh, a semi-annual Journal, of the above title, devoted exclusively to the dissemination of statisticall information.

"The want of such a Journal is felt by every intelligent citizen, who desires to become at all acquainted with the resources of the State, our present condition, future prospects, &c., and by none so much as by our Legislators.

That we have no regular system of statistics, cannot be attributed to any want of material. There are large amounts of valuable and interesting information scattered through our Legisarchives contain, our newspapers often publish valuable statistical information, which is either lost, or if preserved by a very few, is so inconvenient to find when wanted, that the facts are soon forgotten. The same may be said of the Reports and Statements from time to time made by our incorporated companies and others engaged in Manufactures, Mines, Commerce, &c. To collect these various items of information, and give them to the public in a shape easy of reference and for perpetual preservation. as well as to gather from all available resources, everything bearing directly or indirectly on our wealth, prosperity and industry, is the design of the Journal now offered for public patronage.

So far as the plan for conducting the same has been matured, the pages of the STATIST will be devoted to the arrangement of such tables relating to our Population, Agriculture, Commerce, Education, Public Improvements, Manufactures, Fisheries, Mines, and Social Sta- country, within 100 miles from Fayetteville, and tistics generally, as will present their condition prompi attention will be given to the same. and our progress in each.

It is also designed to contain the Reports (condensed) of the Public Treasurer, Commissioners of the Sinking Fund, Super'n'endent of Common Schools, and all other State Officers and Boards; as also, Statements and Reports of the condition and progress of the various Railroad and Navigation Companies.

Inhalation in Consumption. RONCHITIS, LARYNGITIS, and other Discasses of the Chest and Throat, successfully treated by the Inhalation of Medicated Vapors and Powders, by absorption and constitutional treatment, as

practised at the Stuyvesant Medical Institute, New York City. The unprecedented success which has attended this method of treating diseases of the Lungs and Throat has induced us to depart from our usual course and ourselves of the columns of the press, in order to bring it to the knowledge of such as may be laboring under or predisposed to such affections. The dawn of a brighter day has at length arrived for the Consumptive; the doctrine of the incurability of consumption having at length passed away. We have indubitable proofs in our possession that Consumption in all its stages can be cured! in the first, by tubercular absorption; in the second, by the treusformations of the tubercule into chalky and calcareous concretions, in the third by cicatrices, or scars. Those weaded to the opinions of the past may assert, that even now, consumption is incurable, such are behind the age To all, this great truth must be apparent, viz: that the medicines inhaled in the form of vapor or Powder directly into the Lungs, must be much more effective in restoring health, by administering to it a healthy lifegiving food .- There is no case so hopeless that Inharation will not reach! The means, too, are brought within the reach of all, the manner of administering with Reviews, Historical and Biographical the Vapors being so simple that the invalid is never required to leave home, where the hand of friendship

and affection tends so much to aid the physician's The Inhalation method is soothing, safe and ready and consists in the administration of medicine in such manner, that they are conveyed into the Lungs in the form of vapor and produce their action at the seat of the disease. Its practical success is destined to revolutionize the opinions of the medical world and establish the entire curability of Consumption.

I earnestly appeal to the common sense of all afflic-ted with Lung diseases, to embrace at once the advantage of Inhalation, and no longer apply medicine to the unoffending stomach. I claim for Inhalation a place amongst the priceless gifts that nature and art hath given us. that "our day may be long in the land," and as the only ark of safety for the consumptive; a method not only rational, but simple and effi cacious. Such of the profession that have adopted Inhalation have found it efficacious in the highest degree, arresting the progress of the disease and working wonders in many desperate cases. in verdity, a signal triumph of our art over this fell destroyer of our species.
