**THE NORTH-CAROLINA STATIST**  
AND MAGAZINE OF USEFUL INFORMATION.  
The undersigned proposes to publish in the City of Raleigh, a semi-annual JOURNAL, of the above title, devoted exclusively to the dissemination of statistical information.  
The want of such a Journal is felt by every intelligent citizen, who desires to become at all acquainted with the resources of the State, our present condition, future prospects, &c., and by none so much as by our Legislators.  
That we have no regular system of statistics, cannot be attributed to any want of material. There are large amounts of valuable and interesting information scattered through our Legislative and Executive Documents and Records, which, in their present situation, for all practical purposes, might as well be in the Chinese language. Besides what our Legislative archives contain, our newspapers often publish valuable statistical information, which is either lost, or if preserved by a very few, is so inconvenient to find when wanted, that the facts are soon forgotten. The same may be said of the Reports and Statements from time to time made by our incorporated companies, and others engaged in Manufactures, Mines, Commerce, &c. To collect these various items of information, and give them to the public in a shape easy of reference and for perpetual preservation, as well as to gather from all available resources, everything bearing directly or indirectly on our wealth, prosperity and industry, is the design of the Journal now offered for public patronage.  
So far as the plan for conducting the same has been matured, the pages of the STATIST will be devoted to the arrangement of such tables relating to our Population, Agriculture, Commerce, Education, Public Improvements, Manufactures, Fisheries, Mines, and Social Statistics generally, as will present their condition and our progress in each.  
It is also designed to contain the Reports (condensed) of the Public Treasurer, Commissioners of the Sinking Fund, Superintendent of Common Schools, and all other State Officers and Boards; as also, Statements and Reports of the condition and progress of the various Railroad and Navigation Companies.  
The Statist will be put to press as soon as a sufficient number of responsible names are obtained to pay the expenses of publication. The numbers will contain each, not less than 150 pages closely printed matter, making a book of 300 pages, or more, to which will be added a full and complete index.  
TERMS:—THREE DOLLARS PER ANNUM—ONE DOLLAR AND FIFTY CENTS, for SIX MONTHS; payable when the first number is ready for publication, and the second will be duly announced in the public Newspapers.  
Those persons intending to patronize the Journal, will send their names to the undersigned without delay, as it is desirable to issue the first number as soon as possible.

**HOWARD ASSOCIATION.**  
PHILADELPHIA.  
A Benevolent Institution, established by special enactment for the relief of the sick and distressed afflicted with Virulent and epidemic diseases.  
The Howard Association, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, to furnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.  
The directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much neglected cause.  
Just Published by the Association, a Report on Spermatheca, or Seminal Weakness, and other Diseases of the Sexual Organs, by Consulting Surgeon, which will be sent by mail, in a sealed letter envelope. Price of Charge, on receipt of two Stamps for postage.

**SCIRRHUS BREAST CAN BE CURED!**  
LET THE PUBLIC READ.  
In mercy to the afflicted, and the gratitude and high opinion I entertain of Dr. Moseley, as a Surgeon and Physician, I deem it my duty to mention the case of my wife, hoping at the same time that all persons similarly afflicted may be benefited by it. In the first part of this year, my wife had several small lumps to make their appearance in her breast; they continued to increase in size until the breast became a diseased mass, and very painful. I procured the best medical aid in the city of Rome, and notwithstanding the earnest and faithful attention of the most skillful physicians she recovered. We are now in good health! I would advise all who are afflicted with Scirrhus and Cancerous affections, to visit the Doctor with out delay, as I am satisfied by experience and observation, that he is the most successful physician in the Southern States, in the treatment of that hereditary disease—Cancer.
