PROSPECTUS: THE SOUTHERN CONFEDERACY AND

CAPE Fear and Deep River Advertiser. HAVING FAILED FOR THE WANT OF patronage, in the publication of STEEDMAN'S MAGAZINE, I propose to publish at Pittsboro, North Carolina, a Free and Independent (weekly) Paper, to be entitled, THE SOUTHERN CONFEDERACY; AND CAPE FEAR AND DEEP RIVER ADVERTISER!

To be devoted to Politics, Literature, Internal Improvements, Domestic and Foreign News, Agriculture, Commerce, Manufactures, Mineral Resources the Markets, &c., &c., &c.

EMBRACING EVERY THING OF PUBLIC INTEREST. I shall, with perfect freedom, discuss Federal Politics; all questions of State policy, and every issue in which the interests of the South are involved, untrammelled by Platforms acknowledging no allegiance to any party, further than redounds to the prosperity of North-Carolina and the Southern States.

I shall, with unflinching energy, devote myself to the interests of my native State, (North Carolina,) whose dormant resources, if developed, would render her in point of wealth, the "Empire State" of the South.

The Southern Confederacy; and Cape Fear and Deep River Advertiser, will be emphatically, in tone, what the former clause of the title denotes, and as indicated by the latter clause be a general advertising medium; and, devoted to the interest of North-Carolina, it will unceasingly and earnestly urge the improvement and development of that portion of the State which is watered by Cape Fear and Deep Rivers.

TERMS OF SUBSCRIPTION--PAYABLE IN ADVANCE. 1 copy for one year, \$2 50 3 copies " " " 6 00 12 " " " 16 00 To be issued as soon as the necessary arrangements can be effected.

A. J. STEEDMAN, Editor and Proprietor. P. S.--I would be pleased to furnish "THE SOUTHERN CONFEDERACY; AND CAPE FEAR AND DEEP RIVER ADVERTISER" to the subscribers to "STEEDMAN'S MAGAZINE," and especially to those who have paid their subscriptions.

If, however, those who paid in advance for the Magazine do not wish to patronize "The Southern Confederacy; and Cape Fear and Deep River Advertiser," the amounts by them paid will be promptly returned, on the receipt of an order to that effect.

A. J. STEEDMAN, Late Editor and Proprietor of "Stedman's Magazine."

SECOND VOLUME OF THE BEAUFORT JOURNAL.

A Commercial & Family Paper, Published in Beaufort, N. C. THE "Beaufort Journal" commenced its Second Volume, on the 12th of April, 1858. The Journal being the only paper published on Beaufort Harbor, and the only one devoted to its interest, the editor appeals to all who feel an interest in that locality, to give their support to his paper. The Editor makes no hollow promise that his paper shall be the best in the country for the price, or that there will be any extra display of talent in its Editorial Columns, as is frequently the case in issuing prospectuses for country papers, but he does pledge himself to publish a good paper one worthy of a liberal support from the people of the State. It is the design of the Editor to make the Journal a first class Commercial Paper, to give reports of the Markets, Foreign and Domestic, the Latest News, &c.

The Journal will continue heretofore, independent on all subjects. It will take sides with no political party, but will advocate such measures as are thought best calculated to promote the interest of the country and of our State. As to the different localities in this vicinity, it is not our object to show partiality, but to advocate the claims of Beaufort Harbor and leave Beaufort, Morehead and Carolina Cities, to stand on their own merits--believing that more good can be accomplished in this way, than in discussing the claims or advantages of localities--and we appeal to the citizens those interested, and to the friends of these places, to give us their support.

The completion of the Atlantic & North Carolina Railroad is near at hand, and it is very important that the only paper published in that Harbor should be widely circulated, in order that its Commercial advantages may become better known. Persons at a distance who feel an interest in this place will find the Journal to be very interesting, as we shall be careful to give all local news of any importance.

TERMS: One Copy one year, \$3 00 Five Copies " " 8 00 Ten " " " 15 00 The getter up of the club will be entitled to one copy gratis. Advertisements inserted at the usual rates. A liberal deduction made for yearly advertisements. All communications must be addressed to JOHN NICHOLS, Editor, Beaufort N. C. June 26, 1858.

THE NORTH-CAROLINA STATISTICAL AND MAGAZINE OF USEFUL INFORMATION.

The undersigned proposes to publish in the City of Raleigh, a semi-annual JOURNAL, of the above title, devoted exclusively to the dissemination of statistical information. The want of such a Journal is felt by every intelligent citizen, who desires to become at all acquainted with the resources of the State, our present condition, future prospects, &c., and by none so much as by our Legislators. That we have no regular system of statistics, cannot be attributed to any want of material. There are large amounts of valuable and interesting information scattered through our Legislative and Executive Documents and Records, which, in their present situation, for all practical purposes, might as well be in the Chinese language. Besides what our Legislative archives contain, our newspapers often publish valuable statistical information, which is either lost, or if preserved by a very few, is so inaccessible to the public, that the facts are soon forgotten. The same may be said of the Reports and Statements from time to time made by our incorporated companies, and others engaged in Manufactures, Mines, Commerce, &c. To collect these various items of information, and give them to the public in a shape easy of reference and for perpetual preservation, as well as to gather from all available resources, everything bearing directly or indirectly on our wealth, prosperity and industry, is the design of the Journal now offered for public patronage.

So far as the plan for conducting the same has been matured, the pages of the STATISTICAL will be devoted to the arrangement of such tables relating to our Population, Agriculture, Commerce, Education, Public Improvements, Manufactures, Fisheries, Mines, and Social Statistics generally, as will present their condition and our progress in each. It is also designed to contain the Reports (condensed) of the Public Treasurer, Commissioners of the Sinking Fund, Superintendent of Common Schools, and all other State Officers and Boards, as also, Statements and Reports of the condition and progress of the various Railroad and Navigation Companies.

The STATISTICAL will be put to press as soon as a sufficient number of subscribers names are obtained to pay the expenses of publication. The numbers will contain each, not less than 150 pages closely printed matter, making a book of 300 pages, or more, to which will be added a full and complete index. TERMS--THREE DOLLARS PER ANNUM--ONE DOLLAR AND FIFTY CENTS, for SIX MONTHS; payable when the first number is ready for publication, which fact will be duly announced in the public Newspapers.

Those persons desiring to patronize the Journal, will send their names to the undersigned without delay, as it is desirable to issue the first number as soon as possible. QUINT. BUSBEE, Raleigh, N. C. Jan. 1, 1858.

HELMHOLD'S GENUINE PREPARATION HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU. For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Obtrusive Secret Diseases, Female Complaints, and all Diseases of the Sexual Organs, Arising from Excess and Imprudence in Life, and removing all Improper Discharges from the Bladder, Kidneys, or Sexual Organs, whether existing in the Male or Female. From whatever cause they may have originated, and no matter of how long standing; giving Health and vigor to the frame, and bloom to the Pallid Cheek! JOY TO THE AFFLICTED!!! It cures Nervous and Debilitated Sufferers, and removes all the Symptoms, among which will be found Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Langor, Universal Lassitude, Stagnation of the Circulation, Enormous Appetite, with Dyspeptic Symptoms, Hot Flashes, Flushing of the body, Dryness of the Skin, Pallid Countenance and Eruptive and Scaly Diseases, such as Eczema, Heaviness of the Eyelids, frequently Black Spots Flying before the Eyes, With Temporary Suffusion and Loss of Sight, and Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more dreaded than Solitude, and nothing they more Dread for Fear of Themselves; no Repose of Manner, no Earnestness, no Spoken word, but hurried Transition from one question to another.

These symptoms, if allowed to go on--which this medicine is fitted to remove--will terminate in Epilepsy, Paralysis, and other fatal diseases. Fatuity and Epileptic Fits--in one of which the patient may expire. Who can say that these exercises are not frequently followed by these direful diseases? Insanity, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sallow and cadaverous--and the patient ever visits it. Should a sound of the voice occur, it is rarely articulate. "With woeless measures was despair" "Low sullen sounds his grief beguiled" Debility is more readily cured, and has brought thousands of our countrymen, thus blasting the ambition of many noble youths. It can be cured by the use of this INFALLIBLE REMEDY.

If you are suffering with any of the above distressing ailments, the Fluid Extract of Buchu is your only hope. Beware of Quack Doctors, and Quack Doctors, who falsely boast of abilities and references. Citizens know and avoid them, and send for the Fluid Extract of Buchu, ever yours, or call for a bottle of this Popular and Specific Remedy.

It allays all pain and inflammation, is perfectly pleasant in its taste and odor, but immediate in its action. Helmhold's Extract Buchu is prepared directly according to the Rule of Pharmacology, and Chemistry, with the greatest accuracy and Chemical knowledge and care devoted to its combination. See Professor Devere's Valuable Works on the Practice of Physic, and most of the late Standard Works of Medicine. One hundred Dollars will be paid to any Physician who can prove that the Medicine ever injured a Patient, and the testimony of thousands can be produced to prove that it does great good. Cases of from one week to six months standing, have been cured. The mass of Voluntary Testimony in possession of the Proprietor, vouching its virtues and curative powers, is immense, embracing names well known to every one.

100,000 Bottles have been sold and not a single one has failed to be reported! Personally appeared before me, an Alderman of the City of Philadelphia, H. T. HELMHOLD, Chemist, who being duly sworn does say, that his preparation contains no Narcotic, Mercury or injurious Drug, but are purely Vegetable. H. T. HELMHOLD, Sole Manufacturer. Sworn and subscribed before me this 23d day of November, 1854. A. ALBERT, A. J. ALBERT, Notary Public. PRICE: \$1 per Bottle, or Six for \$5, Delivered to any Address, accompanied by reliable and responsible Certificates from Professors of Medical Colleges, Clergymen and others. H. T. HELMHOLD, Practical and Analytical Chemist. No 52 South Tenth St., below Chestnut, Assembly Buildings, Phila.

SCIRRHUS BREAST CAN BE CURED!! LET THE PUBLIC READ. In mercy to the afflicted, and the gratitude and high opinion I entertain of Dr. Moseley, as a Surgeon and Physician, I deem it my duty to mention the case of my wife, having in one month and she is now perfectly cured. I was afflicted by it in the first part of this year, my wife had several small lumps to make their appearance in her breast; they continued to increase in size until the whole breast became a diseased mass, and very painful. I procured the best medical aid in the city of Rome, and notwithstanding the earnest and faithful attention of the most skillful physicians, she was in a wretched and worse condition than when she first became afflicted, and advised amputation. I was advised by many of my friends, to visit Dr. W. R. Moseley, of Griffin, Ga., which I did, and, astonishing as it may seem, he had her entirely cured within one month, and she is now in good health! I would advise all who are afflicted with Scirrhous and Cancerous affections, to visit the Doctor without delay, as I am satisfied by experience and observation that he is the most skillful physician in the Southern States, in the treatment of that horrible disease--Cancer. WM. H. MITCHELL, M. D. Daughter of J. W. Bradbury, Rome. June 20, 1857.

PROSPECTUS OF THE SOUTHERN LITERARY MESSENGER.

In issuing the Prospectus of the Twenty-Third Volume of the SOUTHERN LITERARY MESSENGER commencing with the July No., the Proprietors rely chiefly on the encouraging letters and promises of the friends of the Messenger to aid them in extending its circulation, and to assure the public that no exertions will be remitted on their part to maintain the high character of the work, and to challenge the patronage of all who value sterling literary merit. For Twenty-Three Years the Messenger has endeavored to reflect faithfully the Southern mind, while disdaining all narrow and sectional views, and has been long among the monthly periodicals of America, in ascendance of the PICTORIAL INSTITUTIONS OF THE SOUTHERN STATES.

To this office it will be devoted, and will be prompt to repel assaults upon the South, whether they come under the specious garb of fiction, or in the direct form of anti-slavery pamphlets. At this critical juncture, while our enemies are employing literature as their most potent weapons of attack, the Southern people will surely not withhold their encouragement from a work whose aim it shall be to strike blows in their defence.

The Messenger will, as heretofore, present its readers with Reviews, Historical and Biographical Sketches, Novels, Tales, Travels, Essays, Poems, Critiques, and Papers on the Army, Navy and other National Subjects. With a view to ensure a larger circulation of the MESSENGER, the Proprietors thought they intend greatly increasing the size of the work, have reduced the price of Subscription, which is now only Three Dollars per annum, in Advance, OR FOUR DOLLARS IF NOT PAID BEFORE THE FIRST OF JULY IN ANY YEAR.

CLUBS--Remitting an Fifteen Dollars in one lot will entitle to Six Copies. The Editorial and Critical department of the Messenger will continue under the charge of JOHN R. THOMPSON, Esq., and will embrace copious notes on current literature and reviews of all new American and foreign works of general interest and value. The Editor's opinions will be always fearlessly and honestly avowed. The Business Department is conducted by the undersigned, to whom all communications of a business nature should be addressed. Inhalation in Consumption.

BRONCHITIS, LARYNGITIS, and other Diseases of the Chest and Throat, successfully treated by the Inhalation of medicated Vapors and Powders, by absorption and constitutional treatment, as practiced at the Stuyvesant Medical Institute, New York City. The unprecedented success which has attended this method of treating diseases of the Lungs and Throat has induced us to depart from our usual course, and ourselves of the columns of the press, in order to bring it to the knowledge of such as may be laboring under or predisposed to such diseases. The dawn of a brighter day has at length arrived for the Consumptive; the decline of the incurability of consumption having at length passed away. We have in our stable proofs in our cure of Consumption, in all its stages can be cured in the first, by tubercular absorption; in the second, by the transformation of the tubercular into chalky and calcareous concretions, in the third by cicatrization, or scarification, and in the opinions of the past may assert, that the disease is incurable, such are behind the age. To all this great truth must be apparent, viz. that the medicines inhaled in the form of vapor or powder directly into the Lungs, must be more effective than that taken into the Stomach, where the disease does not exist. The advantage of Inhalation in Consumption and Throat diseases is, that medicine in the form of Vapor is applied directly to the seat of the disease exists; the stomach is thus left free to aid in restoring health, by administering to it a healthy, life-giving food. There are cases so hopeless that Inhalation will not reach! The manner of administering the Vapors being so simple that the invalid is never required to leave home, and the bond of friendship and affection tends so much to aid the physician's efforts.

The Inhalation method is soothing, safe and ready and consists in the administration of medicine in such a manner, that they are conveyed directly to the seat of the disease. Its practical success is destined to revolutionize the practice of medicine, and to establish the entire curability of Consumption. I earnestly appeal to the common sense of all afflicted with Lung diseases, to no longer at once the advantage of Inhalation, as no longer apply medicine to the unoffending stomach. We have in our stable a place among the priceless gifts that nature has artfully given us, that "one day may be long in the hand," and as the only way of safety for the consumptive; a method not only safe, but simple and efficacious. Such of the profession that do not employ Inhalation have found it efficacious in the highest degree, arresting the progress of the disease and working wonders in many cases. In veridicality, a signal triumph of our art over this fell destroyer of our species.
