From the London Times. The Past and Future of Mexico.

rope, the civilization of the New World was which they brought across the seas Mexico diversified only by swamp, forest or prairie, and ican has been strong enough for a despot, and and not an island. By this strait the mouth populated by savages without knowledge of affairs, therefore, have gone from bad to worse, of the river is now reached.

great discovery had raised. There the Spaniards found an organized State, an ancient polity, an opulent capital, an exalted dynasty, a formidable priesthood, and a people well skilled in mechanical and decorative arts. So great, in fact, was the proficiency of the workmen, so elaborate the system of government, and so impressive the whole evidence of wealth and grandenr, that for some time the nois, re-elected. civilization of Mexico was regarded as superior to that of Europe. Although, indeed, the re- of Rhode Island, vice Allen, Democrat. searches of modern inquiries have enabled us to apply some corrective to these ideas, it is really probable that in certain respects the Spaniards found Mexico more advanced than Spain; and we have been assured, on the authority of a comprehensive history, that this civilization was the necessary incident of geographical and natural advantages. Such was the situation and configuration of Mexico that it could hardly fail to make progress; and all

that was discovered there in the shape of nation- Carolina, vice Evans, Democrat. al wealth or political order represented the extraordinary opportunities which nature had provided. Such was the picture given of Mexico 420 years ago. Our American intelligence gives

us another sketch of the country as it exists at this moment, and it would be hard to imagine a contrast more surprising. There is literally no spot on the entire American continent, from the Arctic seas to Cape Horn, which presents such a spectacle of disorganization and ruin. The Indians of Patagonia are better ordered than the Mexicans of 1859. In the old seat of American civilization there is now no government, no recognized policy, no public order. Life and property are insecure, not through the accident of a political revolution, or as the consequence of a transient convulsion, but nec- vice Thompson, Know Nothing. essarily and permanently, from the utter default and break-up of all the institutions designed for their protection. We cannot find in any European history-not even in that of Spain itself-any parallel or illustration of the state of things in Mexico. The country is split into factions, but no faction has any principle, nor does it seem to be so much as anticipated that there is any party, or any leader of a party, by re-elected. whose ascendarcy or predominance the existing when, in the year 1824, a Republican Gov-
