Subscription information: From and after the 12th day of August...

The Administration.

We publish in another column of to-day's paper an article from the pen of the editor of the Administration...

It is a right, the propriety of which no one can question, that every freeman, and especially every public journalist...

We cannot claim for our Chief Magistrate, so long as his administration has been an honorable one...

Consistent of the circumstances of our principle, the liberty and patriotism of Mr. Buchanan...

The management of this stream by dams and other changes, is deemed to open up a large tract of country...

Our Commercial Relations. The relations of our State to the other States...

Who is Holten, the Editor of the Charlotte Whig? A man that professes to be a Christian...

The next Congress. Now that the elections are pretty well over...

The Deep River Works. We publish an advertisement signed by the engineer, Mr. Morris...

Why Grelly went to the Rocky Mountains. It will be recalled that Mr. John C. Fremont...

Accidents. The professors in the new Presbyterian University at Chicago have accepted...

Why Grelly went to the Rocky Mountains. The Boston Courier is responsible for the following:

Annexation.

The Canadians, or at least a portion of the inhabitants of Montreal are anxious to have Maine...

If it would conduce largely and add materially to the prosperity and wealth of Canada to have Maine annexed...

We would like to see our Canadian brethren living under our constitution and claiming their province to be one of the States of the model Republic...

New England Politics. We take the liberty of publishing the subjoined paragraph which we slip from a private letter...

It would appear to indicate that the Black Republicans are certain of being victorious in the next Presidential campaign...

We are glad to see that the delegates from the State of Maryland will go to the Charleston Convention unprejudiced...

The article below was written by a gentleman whose opinions are entitled to great weight:

I daily have an opportunity to stand up for the South, which I am bound to do with greater ardor than when I am at home...

I came up on a boat with Gov. Willard, of Md., who was under the impression that the Democracy would elect their President even without New York and Pennsylvania...

The management of this stream by dams and other changes, is deemed to open up a large tract of country as yet unexplored.

Our Commercial Relations. The relations of our State to the other States...

Who is Holten, the Editor of the Charlotte Whig? A man that professes to be a Christian...

Harnett County.

We (the Sr.) have just returned from Harnett, where we have been for the past two days...

Our lawyer friends were somewhat uneasy on Monday last, owing to the fact that Judge Caldwell failed to make his appearance...

Judge Caldwell is a pleasant gentleman, and a long term as Judge of our Superior Court has endeared him to the legal profession.

There appears to be but little excitement in Harnett county relative to the proposed County seat.

He was elected United States Senator from North Carolina by the last Legislature, and resigned the office he held in order to accept it.

The titles of "time server, selfish partisan demagogue," and other opprobrious epithets which have been applied to him by an enraged, infuriated sheet...

Mr. Bragg is an honorable, upright man, and able statesman, and as such it will require something of more weight than the billingsgate and abuse which is being heaped upon him...

"Rejoice, and turn ye, ye sinners, turn, for the Kingdom of Heaven is at hand." - N. C. Times.

Now we feel at ease, we feel that we can repose upon our "ears" and slumber a while, after so much excitement and fatigue...

The crisis is over, the "rain" is passed, and we now feel, although we may have been shorn of the laurels, to which we insist we are entitled...

Had we known that it was Mr. Smith's pre-determination to "save the country" by the cry of dissolution, which has been echoed from Maine to California...

We care not for the whims-whims or menialous statements of these "several" editors, but merely to let it to show what a deplorable mean position they occupy.

John J. Jones has been nominated for Congress by the Democratic District Convention in Georgia as successor of Iron. A. H. Stephens.

Whig State! North Carolina, since the recent election returns have been received, has been characterized by some of the Opposition press as a Whig State!

We might take the vote at the last election, which is by no means a criterion, on account of the small number of votes which were polled...

We expected the opposition would attempt to make capital out of this small gain of votes, but if they for one moment suppose the defeat of four of the democratic candidates for Congress will insure their triumph in the gubernatorial contest...

North Carolina is a democratic State, and her inhabitants are two well versed in the principles and dictionary of the opposition party to allow them to out democracy from its present position...

The opposition press would feign "With passionate oaths and protestations, With sighs, smooth gloves, and obsequious tones, Spread artificial smiles before the eyes Of credulous simplicity."
