"This gloriously beautiful pageant of the heavens gave rise to a few amusing incidents, and we suppose to some little serious thought and earnest prayer by some who had not thought seriously and prayed earnestly before. The plan of attack is in the following order: recollection will be but a sigh. It may then be bleeding Kansas, &c.

After the victory, Mr Botts proposes to give the South just the amount of Territory she now possesses except Missouri, Maryland, and Texas which he intends to divide equally. In consideration of this invaluable service he is to receive four years of the Presidency-have his name enrolled by the side of Washington-the majesty of whose fame will receive a more exalted position by the triumph of Betts.

After the conclusion of the victory prayer will be made by Theodore Parker and Garret Smith, the whole to conclude by a peculiar metre hymn led by pious old Giddings and good brother Botts. We have forgotten where friend Syme was to be.

The next Con gress.

The National Legislature which convenes at the Capitol in Washington City, in Dece mber next, it is supposed, will have more business to transact than it has had in many years. Four Territories and two new States will ask for recognition. The Territories alladed to are Jefferson, Arizona, Dacotah, and Nevada. Kansas and Nebraska will apply for State governments. We presume the discussion of these questions will be long and protracted. The question of population will be the principal topic and the only barrier by which the States and Territories may not be granted the governments which they will ask from Congress. Kausas cannot come into the Union, according to the English Bill, till she has 90,000 inhabitantsdemocrats are pledged to this. A Sensible Extract.

The following paragraph which we clip from a recent number of the Tennessee Baptist, is the most sensible thing we have read in some time. Would that our religious as well as secular exchanges would make a similar statement to their

readers. The loss of a few subscribers should not deter a religious newspaper from uphatding the particular tenets of its denomination, nor a secular paper from advocating the principles of its party. Independence is the soul of a newspaper : "And here we entreat Baptists whenever this paper

advocates doctrines or practices contrary to the principles, whenever it professes neutrality touching mportant issues to avoid responsibilities, whenever t errs in a statement of facts and refuses to correct, whenever it assails men and refuses to allow a reasonable defence, whenever it becomes an instrument to be used by the few, to the exclusion of the many, the organ of a clique and not of the people-then

turn from it as you would from a contagion. Give it no countenance for a day or an hour."

Tom. Corwin, who says he is the father of the black Republican party, is getting very popular with the Southern Opposition, and they call him brother Tom. Nearly every one of our opposition exchanges have a puff for Black Republican, Brother Tom, Corwin of Ohio!

How Rogues agree can easily be seen-the Blacks claim Botts, and are extravagant in the praise of him-what a delightful family ? what congenial spirits? It won't take long now to complete the treason. There is to be a union of the Opposition and the Blacks-so says Botts. Well after all, our opposition friends have rather tough consciences to

associate with so much lawlessness. COMPLAINT. -- We are continually enquired of by
