AYER'S Cathartic Pills.

CLEANSE THE BLOOD AND CURE THE SICK. Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues. FOR THE CURE OF

Headache, Sick Headache, Foul Stomach. PITTSBURG, PA., May 1. 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect,
ED. W. PREBLE, Clerk of Steamer Carion.

Bilious Disorders and Liver Complaints. DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious discusses o obstinate that it did not readily yield to them.

Fraternally yours,

ALONZO BALL, M. D., Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

Post Office, Hartand, Liv. Co., Mich., Nov. 16, 1855.

Dr. Aver: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our peighbors. or worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO. J. GRIFFIN, P. stmoster.

Indigestion and Impurity of the Blood. From Rev. J. V. Himes, Puster of Advent Church, Biston.
Dr. Aver: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. 111M4.S. WARSAW, WYOMING Co., N. Y., Oct. 24 1855. WARSAW, WYOMING CO., N. 1., Oct. 24 1850.

From the Rev. Dr. Hawkes, of the Methorial Epis, Clarch.
Pelaski House, Savannus. Ga., Jan. 6, 1856.
Honored Sir: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excrueisting neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pitte. Their affects were slow, but sure. By persevering in the use of them I am now entirely well.

CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, complaints have made it al-

effects; and fewer yet the communinot among them some living trophy of its victory over the sub-tle and dangerous diseases of the throat and lungs. While it is tle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away.

All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

We find the following in the Democratic Standard published at Concord New Hampshire.

Now, if the South should be so demented as to aid idency, it would be the signal of the utter defeat and dissolution of the Democratic Party in the free States. The ditor of the Odowes (Ala.) Mercury A young man now in our employ, who has been lets his self off in the following spackling style; working at Jones' Lock gives us a statement of the Ther's not the last standow of a doubt about facts. He says that a number of laborers from the matter-ours is emphatically, undentably, Wilmington come up sometime since with the un- positive y, comparatively and superlatively, a derstanding that they were to receive one dollar per great and glorious country. It has longer rivers, and more of Wilmington were paid one dollar and twenty five them, and muddler and deeper, and they run cents per day, they paying the Company forty cents faster and go farther, and make more noise, per day for board. These men from Wilmington and raise higher, fall lower, and do more da mage were paid according to contract for the space of time | than any body else's rivers. It has more lakes, they worked. But the Engineer wanted them to continue to work for the same wages they paid the others. They would not agree to do so however. If the above statement is incorrect, we trust some one interested will correct us. We have no idea of are bigger, and run faster, and pitch off the doing the Company injustice, but if the above are facts the public should know it. There should cortainly be a uniformity in the wages paid.

Wilmington men are not entitled to more wages any cher country. Our men are bigger, and longer, and ingher, and thicker, ad can fight othe countries. Our hands are prettier, dress figer spend more money, break more hearts, wear bigger hoops and snorter dresses, and kick up the devil generally to a greater extent than all other ladies. Our politicans can spout londer, lie larder, make gas faster, dodge quicker torn oftener, make more noise and do less work than every body else's politiciaus. Our niggers in the re-nomination of Franklin Pierce for the Presand smell louder, and need thrasning oftener tha other niggers. Our children squall loud-

ne of the heap, the last button on the coat, e-nominating Pierce, if they entertain it.
