Nay, few are the families in any civilized coun-try on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the sub-tle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formida-ble and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for in-fants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERNY PECTARL saves more lives by the consumptions it prevents than these it cures. Keep it by you, and cure your colds while they are cura-de, nor neglect them until no human skill can master the in-exorable canker that, fastened on the vitals, eats your life aw sy.
