Southern State that taxes slaves according to value at the same time taxes all other prop rty, as proposed by the Opposition platform. This is true of Louisiana, Georgia, Alabama, Arkansas, Texas and Florida. All these States discriminate in their tax bills and then exempt a large amount of property entirely from taxation. But the Opposition plates of the observer, that I am right; that we have but little, if any, over 290,000 slaves in the State. I stated in No. 1, that I was satisfied we not permit me to give it room.
