for the year ending 30th June 1859, pay and mileage amounted to \$859,093 66 contingent expenses amounted to \$1,431,565 78. I am happy, however, to be able to inform you that during the last fiscal year ending on the 30th June 1860, the total expenditures of the government in all its branches-legislative, executive, and judicial-exclusive of the public debt, were reduced to the sum of \$55,402,465 46. This conclusively appears from the books of the Treasury. In the year ending on the 30th June 1858, to the total expenditure, exclusive of the public debt, amounted to \$71,-901,129 77, and that for the year ending 30th June 1859. to \$66,346,226 13. Whilst the books of the Treasury show an actual expenditure of \$59,848,474 72 for the year ending on the 30th June 1860, including 1,040,667 71 for the contingent expenses of Congress, there must be deducted from this amount the sum of \$4,296,009 26, with the interests upon it of \$150,000, appropriated by the act of 15th February 1860, "for the purpose of supplying the deses of the P. O. Department for the year ending 30th June 1859." This sum, therefore, justly chargeable to the year 1859, must be deducted from the sum of \$59,848,474 72, an order to ascertain the expendimitting a letter and statement from the Bank of Fay- ern States, or with all of the States of the Union in ture for the year ending on the 30th June 1860. which leaves a balance for the expenditures of that year of \$55,402,465 46. The interests on the pub-Le debt, including Treasury notes for the same fiscal year ending on the 20th June 1860, amounted to line clothes, Boots or shoes. \$3,177,314 62, which added to the above sum of \$55,402,465 46, makes the aggregate of \$58,579,-

AFRICAN SLAVE TRADE, &c .- It is with great satisfaction I communicate the fact, that, since the date of my last Annual Message, not a single slave has been imported into the US in violation of the laws prohibiting the African slave trade. HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaohes may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases In its nervous form it is sympathetic of diseases of the stomuch constituting sick Sacks, &c. headache, of hepatic disease constituting billions headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attenued with headache; Anzenia plethora are also affections which frequently occasion headache. Idiopathic headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and ses, Sugar, Coffe, Corn, Bacon, Pork, Cheese, Rice, prostrating at once the mental and physical energies, and in other instances it comes slowly, horaled by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralgia. For the treatment of either class of headache the Cephalic Pills have been found a sure and safe reme-

dy, relieving the most acute pains in a few minutes. and by its subtle power erdaicating the discesses of which the headache is the unerring index. BRIDGET .- Missus wants you to send her a box of ephalic Glue, no, a bottle of Prepared Pills-but I'm thinking that's not just it naither, but perhaps

CONSTIPATION OR COSTIVENESS.

No one of the "many ills flesh is heir to" is so prev alent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disord r of two little consequence to excite anxisty, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless carly eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic. Rhoumaforced to consider the test remedy for this omission, and an immediate call of the present Congress, and an immediate call of the present Congress was the gateral resort. Upon enquiry, however, I was the gateral resort of the 23 States composing the Confederary were without representatives, and that a message be sent that, consequently, these fifteen States would be disfiguchised by such a call.
