CLERICAL SPORT.

The Synod of Kentucky was in ression. The subject of raising the salaries of certain professors cas un lor discusion ! The Rev. Robert J Breckiniller. D D, was on the floor, making a speech in opmonition to the measure. It had been said that ministers of high standing and large means, clothed in fine linen and fasting sumtuously every day, did not sympathize with those whose salaries are small. 'To this Dr Breckinridge was replying. He combated the idea that misters live for money; or desire the have v of the world. As for himself, he challenged any man who lived more frugally than himself Drawing himself up to his full height, and standing six feet high at least, he displayed his proportions, and exclaimed, "As to the fine linen, if there is a man on this floor who dresses more plainly than I do. I offer to exchange clothes with him this moment.'

Directly in front of the Moderator, and in sight of most of the members, sat the Key Hopkins, one of the plinting clergy, a short, thick-set, and rotound and in this respect no man in the house presented as strong and striking a contrast with the tall and dothes had hardly escaped the lips of the speaker and cried out.

An extensive causeway is here being constructed to connect with the main land, and upon this, as upon the redoubts now being thrown up on the island, a very large force of nogrocs is employed. I am told that they number some seven or eight hundred fellows: A very large number of Irishmen are also emglaved in the same work, but for endurance the negro beats them all One in aim and desire, one in interest and feeling, hollow. THE LITTLE QUAKERESS WHO WAS DES-PERATELY IN LOVE.

An amusing matrimonial story is told of the olden time. It so fell out that two young people became very much smitten with each other, as young people do. The young woman's father was a wealthy Quaker-the young man was respectable. Ayer's Sarsaparilla

A compound remely, in which we have labored to produce the most of such alterative that can be used. It is a concentrated extract of Para Sarsuparilia, so combined with other sub-tances of still greater alterative port ras' the alford an effective unidors for the diseases Sarsaparilla is reputed to curre. It is b hered that such a remely is worked by those who suffer from Stramous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been power by exper-iment on many of the worst error to be found of the following complaints: --

SCROPULA AND SCROPULOUS COMPLAINTE, ECUTIONS AND ERUTTIVE DISEASES, ULCERS, PIMPLUS, BLOTCHES, TOMORS, SALT REEN, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPHY, NEU-RALGIA OR TIC DOGLOUREEX, DEBUATY, DYS-PEPSIA AND INDIGESTION, EAVSIETANS, ROSE on Sr. ANTHONY'S FIRE, and indeed the whole class of complaints ari ing from IMPURITY or THE BLOOD.

This compeand will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, susre themselves from the endurance of foul cruptions and ulterous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative madicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pumples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the voins; cleanse it whenever it is foul, and your feelings will tell vou when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blond. Keep the bloc? healthy, and all is well: but with this pabulant of life disordered, there can be no asting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Saraparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many proparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilia, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparills for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Honce, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synor vmous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to sup dy such a remedy as shall rescue the name from the load of obloquy which rosts upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remody should be judiciously taken according to directions on the bottle.

VISIT TO THE HARBOR FORTS. Sunday with us was a black, cold and windy day. ONE THOUSAND SEVEN HUNDRED The water of the harbor was very rough, and the waves tossed and rolled excessively. The steamer Clinch was lying at her wharf in a very uneasy position.-The waters lashed her sides and pitched her about in a most uncomfortable manner, but after we had cast loose our moorings the motion became easier, and if anything, quite pleasant though the clear sweep and the temperature were anything but agreeab'e on deck.
