

"Happy Land of Canaan." As sung in the Capital at Melodiopol by Wm. H. Barnes and T. D. Wright, of Atlanta, Georgia. There's the North of the land, there has a cross a band. Who drill under black Republican training. The call them white-slaves, but we'll show them that their cake Will get burnt on the side of Canaan.

Oh, me! Oh, my! The Sun of Freedom is shining; Never mind old Lincoln; And your motto, "No more trouble; While we're safe in the Southern end of Canaan!"

Some people said our State wouldn't dare to meet her fate. And that as for Lincoln she would be remaining; And that as for Lincoln she would be remaining; And that as for Lincoln she would be remaining;

She's head whizzing to the other side of Canaan. We've had cooperation and now are a free nation. And by force of arms our cause will be maintaining. And in their arms, here for the North they'd better clear.

Old Gen. Winfield Scott thought he'd sail the Sunter fort. And for being so, the North would be gaining; But when his little "Star" went to cross the Charleston bar.

They blazed her to the other side of Canaan. The Star of the West, she came, she saw, she left; A position she could not be maintaining. And her motto, "No more trouble; While we're safe in the Southern end of Canaan!"

Down at Savannah is the first secession banner. And the military are all under training; And Governor Brown thought he'd take Pulaski fort. So he moved it to our side of Canaan.

Down at Augusta, some arms were getting rusty. And the Governor thought they needed a little cleaning. He wanted them to pay, gave a note at thirty days. And thought them for the Georgia boxes of Brown's.

We heard that down in Camden, old John Brown's son was leading. With three hundred men to sustain him. But he tries that game, he'll immortalize his name. For we'll hang his body on a tree in Canaan.

There are eight thousand muskets of the best make made. In the different Georgia arsenals remaining. In the hills to the women and revolvers to the boys. And I think we'll keep the "Happy Land of Land of Canaan."

**LULA IS GONE!**  
With a heart forsaken, I wander In silence, in grief and alone; Ours a form departed I ponder, For Lula, sweet Lula, is gone.

When the roses have faded, And when the meadows are bare, To a land by orange blossoms shaded, Where summer ever lingers on the air.

Choirs—Lula, Lula, Lula is gone; With summer birds her bright smiles To sunny lands have flown. When the roses have faded, And when the meadows are bare,

To a land by orange blossoms shaded, Where summer ever lingers on the air. Choirs—Lula, Lula, Lula is gone; When the roses have faded, And when the meadows are bare,

**Lighte & Bradburys' Grand and Square Piano-Fortes.**  
The Insulated Iron Frame preserves the original tone of the instrument in all its purity, securing it for all time against the depreciation of tone invariably attending the use of any other iron frame. It greatly strengthens the case and thus keeps the Piano-Forte much longer in tune. It gives the instrument a much fuller, richer and sweeter tone. It adapts the Piano to all climates and to all changes of atmosphere, and in all respects it is pronounced by the most celebrated artists to be the superior improvement of the age in Piano-Forte construction; producing an instrument acknowledged to be greater to all others made in this country or Europe.  
A few testimonials in regard to the superiority of our new **Lighte & Bradburys' Patent Insulated Piano-Fortes**. I have examined the Piano-Fortes of Lighte & Bradburys with entire satisfaction. I know not that there are any other better, either in our own country or elsewhere.—Dr. LOWELL MASSON.  
In a clearness of touch, and fine repeating action I have never played upon their equal.—J. A. WOODENMAST.

In volume, richness, evenness and purity of tone and in a delicate & fine quality of tone, delicacy, elasticity of touch, and fine repeating action I have never played upon their equal.—J. A. WOODENMAST.

**Tabac enDenti frice**  
OCO OR DENTAL SNUFF  
Is now introduced to the American public, composed of the purest Snuff, divested of its objectionable qualities, and retaining its power as a disinfectant and detergent. It is especially adapted for the Parisian world as the most useful and elegant toilet article in the world. Elegantly mounted.  
Superiorly flavoured, as an ornament, and as a Toilette pleasure it has no equal.  
Enclosed in two forms. No. 1—GOLDEN BANDED COO— Retains all its natural strength and pungency, as imported, and is a most superior article for those who desire an agreeable stimulant. It imparts to the teeth that peculiar brilliancy for which the ladies of Southern Europe are so justly celebrated. No. 2—SILVER BANDED COO— Designer, expressly for the Northern market—retains all its power as a dentifrice—though greatly reduced in its stimulating properties.— As a Gum On your Toilet Stand You will be Pleased with it, For sale by BARNES & PARK, 13 Park Row, and CONRAD FOX, 81 Barclay Street, New York, and all Druggists, Depot for the States and Canada, 133 Water St., N.Y. **Scrofula, or King's Evil,**  
is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, for it is there one which it may not destroy. The scrofula is a disease caused by morbid disease, low living, disordered or unbalanced food, impure air, filth and filthy habits, the depressing winter, and above all by the sexual infirmity which is the origin of it. It is hereditary in the constitution, descending from parents to children into the third and fourth generation; indeed, it seems to be the root of all who say, "I will visit the iniquities of my fathers upon their children."

Its effects commence by depression from the head of corruption or morbid matter, which in the lungs, liver, and internal organs is found as tubercles; in the glands, swelling, and on the surface, eruptions or sores. This foul corruption, which remains in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have less power to withstand the attacks of other diseases. It is a disease which is not cured by medicine, but by the system of the human body has its origin. It is a disease which is not cured by medicine, but by the system of the human body has its origin.
