Mr. Peffer Wants all Taxes Levied on Land.

For a number of years there has been waged a hot campaign in North Carolina to compel all railroads to pay taxes. In the heat of this conflict, this writer has been found. We have advocated this policy, not because of any hostility to the railroads, but because we wanted to lessen the burden of taxation on the farms of the State and equalize the tax. The Populists, while talking very loud, have contributed very little to this result, though we give them the credit for honestly desiring the result. The Democrats have brought about...

THAT MONEY BEGGING CIRCULAR.

As announced in yesterday's ARGUS we publish this morning, on our second page, another of Marion Butler's "secret circulars" that has come to light by being sent to the wrong man. In addition to the pointer the circular in question contains as to the extremes the Populist leader is resorting to in order to secure "corruption funds" and advance the circulation of his paper. It contains a wholesome and cheerful pointer for "unterrified" Democrats—which is, that the Pops don't know "where they are at"—they think they are stronger than they are, and thus it is that their leader and State chairman, Marion Butler, sends his secret circulars to men who are Democrats, thinking them Populists. All these circulars that Butler sends out do good, even though they go into the hands of men who profess themselves Populists; for they cause honest men in that party to pause and reflect ere they enter further into the nefarious designs of Butler, Faircloth, Furches, Grant and other Republican co-operators.

COTTON STATES EXPOSITION.

Resolutions Adopted by the Board of Directors.

ATLANTA, Aug. 29.—The following resolution of thanks to all who have assisted the Cotton States and International Exposition in securing the passage by Congress of the bill making an appropriation for a Government building and display were unanimously adopted to-day by the directors, with the request that they be given to the public through the press:

In expressing the thanks of the Directors of the Cotton States and International Exposition Company for the friendly help through whose assistance the enterprise is indebted for the success of its efforts to have the Government fitly represented, as an exhibitor, we pledge the faithful application of the management of the Exposition to the making of such a success of the enterprise as will in every way comport with the dignity of the Government's participation.

Our Fremont Letter.

Editor Argus:—In our last we wrote, outside of Democracy there was no hope for the people, and that will be our theme to-day. We were in Wilson when Hampton and his troops were on their way to Virginia. While the train stopped for a few minutes Hampton made a speech and asked North Carolinians to go with them to help rescue the grave of Washington from tyranny and oppression. North Carolina did go, and on her brow will ever rest the stainless honor and glory won during those four long years of war. Among the brave, she was the bravest; her heroes sleep beneath the sod in every State where the proud flag of the Confederacy was carried in triumph by her noble and chivalrous sons. Though no martial sound shall ever awake them to glory again, yet they shall be awakened to find that their survivors and descendants have not lost any of the patriotism, love of home and country that made them take up arms to defend that which was dearer than life, those principles that underlie the foundation of all national greatness, that which made the Southern Confederacy, though short-lived, the model of all Republics. To-day her noble and brave sons have those principles still implanted deep in their hearts; and by the memory of the departed, and help of the living, they intend to keep the dear old State safely anchored on Democratic principles—the best haven and surest refuge for her sons in peace or war. Those principles, formulated by Jefferson, and approved by the wisest and best men we ever had, and given to the world as the purest and simplest for a government by the people in which the people have complete control, proves to the world that that is best for the people which makes them sovereigns. The principles on which the Democratic party is founded do this, though some of her sons are trying to prove recreant for the sake of office and mislead others; yet the rank and file are true to the faith that rescued North Carolina from the hands of those who had trodden under foot those principles and brought her to infamy and shame. To-day, from the mother of States and statesmen—to the Palmetto State, which gave to the world the great Calhoun, Hayne and others, who were of the true faith, and from the broad Atlantic to the far west, until we reach the line of another noble State, North Carolina is marshalling the great Democratic host to meet the enemy of good government, and though we have not our Vance, Powie, Dortch and others, who so often and gallantly led the great host of Democrats to victory and to glory, yet we have Ransom, Jarvis, and younger men who are true and tried, and when the idea of November come we intend to greet Alabama, and other Democratic States, with one of the grandest and most glorious triumphs Democracy ever achieved in North Carolina. Now, Democrats, you know who or what party brought shame and disgrace upon North Carolina. You recollect the dark days of reconstruction and the Holden-Kirk war, the dark scenes enacted that would make friends blush. You recollect that time the noble women of our land cried, "protect us from the infamy of such men," and with the recollections of all these outrages fresh in your memory, can you, will you, support a party that sanctions all these outrages? My opinion of the men of North Carolina tells me no.

THE COMBINE COMPLETED.

In accordance with the plan advocated by Major H. L. Grant, a member of the State Republican Executive committee, in his secret letter, which letter subsequently came to light and was published in these columns, the Republican and Populist leaders held a conference in Raleigh on the evening before the late Populist State convention and there in fixed "the slate," or State ticket, that was to be nominated by the Pop. convention the next day and endorsed by the Republican State convention when that body should assemble in Raleigh. The Pop. convention convened on the morning and duly carried out its stipulation in the compact by nominating "the slate," or machine-made candidates; viz: Furches, Faircloth, Clark and Connor for the Supreme court bench, and Worth for State Treasurer. When this ticket was "handed down" and became noised abroad among the Populist yeomanry there was great dissatisfaction evident upon their countenances and their displeasure was not silent. Butler and Grant, the Pop and the Rad, thereupon held a close conference and gave forth the precept that the great need of the State is a "non-partisan Judiciary."—This high sounding phrase made catch the colored brother, but it is not going to "take" with the intelligent Populists—especially when they reflect that two of the most rampant partisan Republicans ever in the State are Faircloth and Furches, whom they have been voting against for years and years, as both of them have grown old running for office on the Republican ticket—either for Judge, or Governor, or Lieut-Governor, or

PROTECTION'S DOOM.

The Chicago Herald is right when it says:
"The people of the United States have seen the end of protective tariff legislation. Congress will never pass another tariff bill increasing the duty on any manufactured product for the purpose of giving protection to the manufacturer."
"The future tariff legislation of the United States will tend constantly toward lower schedules on a revenue basis. The new tariff act reduces McKinley duties an average of 30 per cent. The next tariff act will reduce the new rate of duties 30 per cent, or perhaps more."
"The trusts never will control again, by main strength, nor by legerdemain, nor by corruption, the action of either house of congress on any tariff bill. Never in the future will a group of senators or members of the House have the power of the hardhead bargain openly with a rich and powerful trust for the regulation of duties in a tariff schedule."
"The special representatives of protection in congress and elsewhere in public life have had their day. They will disappear as party leaders. They are discredited in the partisan politics of the country. They will drop to the rear of the marching columns."
"This is true of protection statesmen and politicians in both parties. McKinley will not be the Republican candidate for president in 1896. He will not be notably conspicuous in the campaign."
"Senator Gorman, the chief of the Democratic conspiracy in the Senate to prevent honest tariff legislation, has abdicated

THE RICH MEN OF JAPAN.

The rich men of Japan have much to learn in the way of making patriotism profitable. They have just lent their Government \$50,000,000 and the loan is not to bear any interest. When our Government needed the sinews of war our rich men also came nobly forward buying United States bonds at about forty cents on the dollar, and drawing a comfortable rate of 7 per cent interest. When the war was long over they secured retroactive legislation making the Government redeem its paper promises in hard gold. This was under Republican rule.

Special Drive.

Special drives in pocket knives, Scissors and Shears displayed in my front windows. Pocket knives, 15, 25, 35, 50 and 75 cents; Scissors 15, 25, 35 and 50 cents.

Money Wanted—Frauds Contemplated.

There is a man in an adjoining county about whose politics Mr. Marion Butler has not been correctly informed and to whom he has sent a circular, in terms as follows:

Office of People's Party Ex. Com.

DEAR SIR—A few weeks ago I wrote you urging the importance of raising a sufficient campaign fund to make a successful and effective campaign fight this fall. As yet I have not heard from you.

Special Drive.

Special drives in pocket knives, Scissors and Shears displayed in my front windows. Pocket knives, 15, 25, 35, 50 and 75 cents; Scissors 15, 25, 35 and 50 cents.

Agent for "Eclipse" Bicycle Company.

Steel Ranges.

These Ranges are the most complete, convenient and durable apparatus that have ever been invented. It is manufactured out of malleable iron and cold rolled wrought iron and consequently it will stand heat and breakage without the slightest danger of breakage. For baking they cannot be exceeded, as the oven is completely lined with fire brick and has a heating coil inside of it. It also has a governor which the heat can be regulated so as to cook slow or quick. Below are a few of the many testimonials of some of the best citizens of South Carolina, Florida and this State:

BEAUFORT COUNTY.

Washington, N. C., May 29, '94

THE undersigned citizens, most cheerfully recommend our Home Comfort Steel Range, which are undoubtedly the most durable stoves that have ever been sold here. They are models of neatness and convenience, use very little fuel, draw splendidly, heat quickly, but throw out very little heat in the room; supply an abundance of hot water, and are the quickest and most perfect bakers we ever saw.

BENNETTSVILLE, S. C.

December 1, 1893.

WE ARE USING A HOME COMFORT STEEL RANGE.

One of the undersigned citizens, each bought one of the Wrought Iron Ranges sold here ten years ago, and have just replaced them with a New Home Comfort Steel Range, which, from their construction and the material used, we feel confident will last three times as long as the old ones, and besides they have many more conveniences.

RESERVE CORPS.

LET'S HAVE DEMOCRATIC ROTATION.

Editor Argus:—If it be true, as some of your correspondents say, that Capt. Brown is the only man who can be elected on the Democratic ticket for Register of Deeds, then it would be best to nominate him again; but I for one don't believe it. Your correspondents are simply color blind; they certainly have not given any solid reasons for their claim, and all this tomfoolery about the good things the other parties are saying about him is disgusting and fails to show that he is any more popular than other good Democrats in the county. Let us look into the matter a little. At the three elections at which Capt. Brown was elected, which one of our other candidates was beaten? Now let us see who are the men Capt. Brown has beaten. I believe his first opponent was M. B. Farmer. I don't know that Mr. Farmer's well-known incompetency injured him any; it ought not, as he could if elected, have employed Col. Washington to run the office just as Capt. Brown has done; but Mose had rendered himself, while a Democrat, very unpopular with the negroes, and they would not vote solidly for him, and this made him easy for Captain Brown to beat. His next man was W. B. Baker, a Dudley negro, and his last opponent was the Third Party candidate, A. L. Swinson, who is given up to be the weakest man in the county. So the Captain has done no more than the other candidates on the Democratic ticket. The fact that one candidate in the county gets a larger majority than the others is not always evidence that he is more popular than the others. You must take into consideration who his opponent was. Would any one, except Capt. Brown, get as large a majority if he was a candidate against Judge Faircloth as he would get if his opponent was Silas Herring?

COMMITTEE MEETING.

We are requested to state that there will be a meeting of the Bennettsville Monument committee at the office of Capt. T. W. Sloumbr on Walnut street, on Monday evening at 5 o'clock. A full attendance is desired as the plans for the monument will be submitted and the contract awarded. The following compose the committee:
