GOLDSBORO, N. C., MARCH 19, 1896

TURN ABOUT IS FAIR.

Shades of Scipio and Hannibal—of Sheba and Solomon! Another of the European powers, Italy, has come to grief in trying to seize a slice of the African pie which all the powers seem to consider fair plunder for whoever can capture it. Abyssinia, whose civilization, such as it is, dates back to the days of King Solomon, declined to be considered a savage country entitled to no more consideration than the denizen of the jungles of the remote interior of that continent.

King Menelek, an alleged lineal descendant of the Queen of Sheba, and namesake of that sovereign's son, proved himself a mighty warrior in a late engagement with the Italian troops, 3,000 of whom were slain on the spot.

We can pity the poor soldiers of Italy, sent to their death at the behest of a heartless government and an unscrupulous Prime Minister; but we sympathize with and admire the courage of the Abyssinians who defended their homes and liberties so gallantly.

Poor Italy! How hath the mighty fallen! She is ground down with taxation to support a war establishment monstrously disproportionate to her real strength. She is bankrupt in purse and bankrupt in honor, but she is "united" and her people have "freedom," though it would take Professor Roentgen's most powerful ray to discover wherein the freedom consists.

CLEVELAND'S STRENGTH.

When the future historian shall weigh in nice scales the official acts of Grover Cleveland, twice President of the United States, he will deliberately declare that few public men in any age or country deserve a more enduring fame for wisdom, courageous performance of duty and devoted patriotism.

During his present administration President Cleveland has been the only bulwark between the people and panic and universal bankruptcy. In the most critical crises, he sits steady in the boat. The credit of the Government of the United States shall at all times be maintained, was his clarion blast, heard above the tempest, resounding 'round the world. And the public faith has been maintained; the national honor has been preserved unscathed; and healthy currents of commerce again are fructifying the land.

In their National Conventions this summer neither of the great political parties—the Republican nor Democratic—will dare to condemn President Cleveland's earnest endeavors to save the country from the folly of inaugurating the policy of free silver coinage at 16 to 1. The Populists will monopolize the advocacy, by platform utterances, of a fifty-cent dollar.

They are almost ready to urge the repudiation of the National debt.

The people—the great pulsing patriotic masses, are firm believers in Grover Cleveland, his ability, honesty, and patriotism. By no act or utterance have they been bound to him more securely than by his sturdy championship of the cause of Sound Money. On a clean-cut issue between Cleveland and anti-Cleveland—Sound Money vs Free Coinage—the President and a hundred-cent dollar would win a decisive victory, and we still believe that with the masses of this great country no living man is as strong as the only Democratic President since the war.

There is no scarcity of gold in the world, although there are those who base strenuous arguments upon its supposed scarcity. There is no danger of a "gold famine." The world's product last year was \$200,000,000.

000. This is a much larger production than for any year ever known before. Even the year 1888, which has been considered the maximum year, on account of the output in California, did not produce as much as last year by \$50,000,000. It must be remembered that the annual output is added to the existing supply, and thus each year adds to the accumulation. In the past three years the supply has been increased \$535,000,000. The annual output of gold now exceeds by \$10,000,000 the average yield of both gold and silver from 1866 to 1873.

Cancer Of the Breast.

Mr. A. H. Crausby is one of the best known and most highly respected citizens of Memphis, and resides at 158 Kern street in that city. Some years ago his wife noticed a small lump in her breast. She thought nothing of it, but it increased in size rapidly, and soon broke through the skin and commenced to discharge. She was at once put under treatment of the best physicians, but they very soon found that they could do her no good, and simply prescribed antiseptics to keep the place clean. Both her grandmother and aunt, by the way, had died with cancer, and when apprised of this fact the doctors said that they would not attempt to save her, that she was incurable. Although the cancer had by this time become deep-seated and her life very low, one of the most noted specialists of New York then treated her. After treating her awhile, this doctor admitted that the

case was hopeless and further treatment useless. "It is difficult to imagine how despondent we all became," said Mr. Crausby, "knowing that she must die and unable to give her any relief. I had spent over five hundred dollars with the best medical skill to be had, and felt that there was no further hope. One day I happened to read an advertisement of S. S. S., recommending that remedy for cancer, and in view of the failure of the most eminent physicians in the country, I confess I had little faith left in any human agency. However, I purchased a bottle of S. S. S., and to my delight it seemed to benefit her. After she had taken a couple of bottles the cancer began to dry up, astonishing as it may seem, a few bottles more cured her entirely. You can probably better understand how remarkable this cure was when I explain that the cancer had eaten two holes in the breast two inches deep. These healed up entirely, and although ten years have elapsed, not a sign of the disease has ever returned, and we are assured of the permanence of the cure, which we at first doubted. "As my wife inherited the cancer, I certainly regard S. S. S. as the most wonderful remedy in the world, and it is truly a Godsend to those afflicted with this terrible disease. You may be sure that I shall always be grateful to the maker of it, without my home would now be desolate and my children motherless."

The above is but one of many remarkable cures being daily made by S. S. S. Cancer is becoming alarmingly prevalent, and manifests itself in such a variety of forms, that any lump, sore or swelling, no matter how small, which does not readily heal up and disappear may well be regarded with suspicion. We will gladly send to any address, full accounts of several other cures fully as remarkable as this one. For real blood troubles, S. S. S. has no equal. It wipes out completely the most obstinate cases of blood diseases, which other remedies do not seem to touch. S. S. S. gets at the root of the disease, and forces it out permanently. S. S. S. is guaranteed purely vegetable, and is a positive and permanent cure for Scrophula, Eczema, Cancer, Rheumatism and all traces of bad blood. Our valuable books will be mailed free to any address. Plymouth Rock phosphated Geletine

Requires no lemons; no cooking; no straining, and is perfectly odorless.

WARRANTED ABSOLUTELY PURE.

The most economical and convenient Geletine to use, and distinguishable from all others by its tonic and health-giving properties. It is an entire departure from the ordinary Geletines, and an elegant preparation of the vital bone-constituents—phosphoric oxide and Geletine—combined with lemon juice, in form demanded by the system.

It is absolutely free from any unpleasant odor or taste, either in soaking or dissolving, and especially is it free from the disgusting gluey taste or smell particularly noticeable in impure Geletines. It is easily used and used in the leading hospitals, sanatoriums and cooking schools throughout the United States. A single trial will convince you that it is decidedly the best of all Geletines. We have it in two colors—pink and white. Retail trade supplied at manufacturer's price.

The Great LEE ARTICLES

By AUTHORITY WRITERS
Begin in the FEBRUARY NUMBER of

Frank Leslie's Popular Monthly

PUBLISHED JANUARY 15TH.
Price 25 cts. Sold by all Newsdealers.

The First Article of this Noble Series on the LEES OF VIRGINIA, which Series will run six months or more, is

"The Ancestors of GEN. ROBERT E. LEE,"

By Mrs. R. A. PRYOR, of New York,
(WIFE OF JUDGE PRYOR).

The culminating interest of the series will be in the vivid presentation of that pure and lofty character which are reflected in the noblest traits of American chivalry—the character of GENERAL ROBERT E. LEE. Each paper of the series will be complete in itself, but following in the regular order of development of the subject, and all will be profusely illustrated.

The collection of portraits of General Lee, in particular, embraces a number hitherto unpublished, and includes all the standard ones approved during his lifetime by his family and friends. The editor of Pictorial Review, in collecting the material for this series, has had the aid and collaboration of Mrs. Fitzpatrick Lee, Gen. G. W. Curtis Lee, Dr. E. Jessup Lee, James R. A. Pryor, Mrs. R. A. Pryor, Mrs. Rowland, and other well-known Virginians. No American, South or North, can well afford to miss this series.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know

that Peppermint, Balm's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel P. Fitch. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. P. Fitch and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are true.

The fac-simile signature of Dr. H. P. Fitch is on every wrapper.
